 Cerizza,C. Perrella,2023 **Young Artists in Italy at the Turn of the Millennium** Giulio Di Gropello,2005 This is the  
 sixth and final edition of work from the Italian Studio Program at P S 1 MoMA the most prestigious scholarship for young  
 Italian artists Chosen by a panel of respected Italian art critics 44 artists have been able to live and work in New York under  
 its auspices launching a number of successful careers **Unplanned Visitors** Olivier Vallerand,2022-03-30 Sexuality and  
 gender have long been influential in understanding the construction of domestic space its meanings often revealing a binary  
 division of private and public female and male By reconstructing the foundation of queer critiques of space and by analyzing  
 the representation of domesticity in contemporary art and architecture Unplanned Visitors shows the blurring of private and  
 public that can occur in any domestic space and explores the potential of queer theory for understanding and designing the  
 built environment Olivier Vallerand investigates how queer critiques building on pioneering feminist work question the  
 relation between identity and architecture and highlight normative constructs underlying domestic spaces He draws out a  
 genealogy of queer space in theoretical discourse in architecture studying projects by Mark Robbins Joel Sanders J Mayer H  
 Elmgreen Dragset Andr s Jaque and MYCKET among others These works blur the traditional borders between architecture  
 and art to emphasize the tensions between private and public and their impact on assumptions about domestic space and  
 family structure The challenges in moving from experimental installations to built environments suggest how designers must  
 acknowledge and respond to the social contexts that shape architecture rethinking how domestic spaces can be designed to  
 allow everyone to better manage the expression of their self identification through their living environments Unplanned  
 Visitors poses a challenge to traditional architectural theory and history but also suggests a renewed and more inclusive  
 ethics whereby designers explicitly address social and political power structures The potential of a queer approach to  
 architectural design history theory and education is precisely to enact a method that creates more inclusive buildings and  
 safer neighbourhoods for everyone **C/ID** Emily King,2006-07-13 Survey of the thirty best recent design work for cultural  
 clients including galleries museums theatres and auditoriums The focus is on new identities and their application as well as  
 smaller design solutions as gallery guides promotional programmes exhibition catalogues theatre programmes branded

**Ecological Imagination: Ecocritical Theories and Practices** Damiano Benvegnù,Matteo Gilebbi,2022-10-04 What can

Italy teach us about our relationships with the nonhuman world in the current socio environmental crisis Italy and the Ecological Imagination Ecocritical Theories and Practices focuses on how Italian writers activists visual artists and philosophers engage with real and fictional environments and how their engagements reflect critique and animate the approach that Italian culture has had toward the physical environment and its ecology since late antiquity Through a comparative and interdisciplinary approach the essays collected in this volume explore topics including climate change environmental justice animal ethics and socio environmental degradation to provide a cogent analysis of how Italian ecological narratives fit within the current transnational debate occurring in the Environmental Humanities The aim of Italy and the Ecological Imagination is thus to explore non anthropocentric modes of thinking and interacting with the nonhuman world The goal is to provide accounts of how Italian historical records have potentially shaped our environmental imagination and how contemporary Italian authors are developing approaches beyond humanism in order to raise questions about the role of humans in a possible or potentially post natural world Ultimately the volume will offer a critical map of Italian contributions to our contemporary investigation of the relationships between human and nonhuman habitats and communities
