The Re-Imagined Text Jean I. Marsden, 2014-07-15 Shakespeare's plays were not always the inviolable texts they are almost universally considered to be today. The Restoration and eighteenth century committed what many critics view as one of the most subversive acts in literary history: the rewriting and restructuring of Shakespeare's plays. Many of us are familiar with Nahum Tate's audacious adaptation of *King Lear* with its resoundingly happy ending, but Tate was only one of a score of playwrights who adapted Shakespeare's plays. Between 1660 and 1777, more than fifty adaptations appeared in print and on the stage, works in which playwrights augmented, substantially cut, or completely rewrote the original plays. The plays were staged with new characters, new scenes, new endings, and underlying all this novelty, new words. Why did this happen? And why, in the later eighteenth century, did it stop? These questions have serious implications regarding both the aesthetics of the literary text and its treatment. For the adaptations manifest the period's perceptions of Shakespeare. As such, they demonstrate an important evolution in the definition of poetic language and in the idea of what constitutes a literary work. In *The Re-Imagined Text*, Jean I. Marsden examines both the adaptations and the network of literary theory that surrounds them, thereby exploring the problems of textual sanctity and of the author's relationship to the text. As she

demonstrates Shakespeare's works and English literature in general came to be defined by their words rather than by the plots and morality on which the older aesthetic theory focused a clear step toward our modern concern for the word and its varying levels of signification

Designing Usable Texts Thomas M. Duffy, Robert Waller, 2014-06-28 **Designing Usable Texts** covers the analysis of textual communication processes in the real world of publishing systems and work sites. The book presents topics on designing and understanding of written texts, authoring, editing, and the production process and training authors of informative documents. The text also describes the policies and processes of editing lessons in text design from an instructional design perspective and graphics and design alternatives such as studying strategies and their implications for textbook design. The identification of information requirements such as understanding readers and their uses of texts, modeling users and their use of technical manuals is also considered. Psychologists and people involved in communication design, document design, information mapping, and educational technology will find the book invaluable.

The Oxford History of the Irish Book, Volume II Éamonn Ó Ciardha, Frank Sewell, Alan Titley, 2025-07-10. The Oxford History of the Irish Book is a major series that charts one of the most venerable book cultures in Europe from the earliest manuscript compilations to the flourishing book industries of the late twentieth century. For the first time it offers a history of the Irish book as a created object situated in a world of communications, trade, transport, power, and money and examines the ways in which books have both reflected and influenced social, political, and intellectual formations in Ireland. It is an important project for the understanding of Ireland's written and printed heritage and is by its nature of profound cross-cultural significance, embracing as it does all the written and printed traditions and heritages of Ireland and placing them in the global context of a worldwide interest in book histories. Volume II, with eighty-two chapters by seventy leading commentators on and participants in Irish book history, spans approximately 450 years of Irish language book production, distribution, and reception. It begins with the 1567 publication of John Carswell's Gaelic version of the Book of Common Order and follows the story of the printed book and journalism in Irish into the twenty-first century, the internet, ebooks, and other formats. The volume covers religious publications from the sixteenth to eighteenth century, competing versions of Irish history, seventeenth and eighteenth century texts which reflected an antiquarian interest in Ireland and its culture, ongoing literary production in the nineteenth century, printers, publishers, literacy books, and volumes produced by learned societies interested in Irish language and culture, Gaelic Revival publications, post-Independence literature and its publishers, journalism from the late eighteenth to twenty-first century, lexicography, nonfiction, educational publishing, folklore and place lore, translation, the contribution of scholars from outside Ireland, publishing in the Irish diaspora, typography, book design and illustration, the reception of Irish language texts from censorship to bestsellers, book collection, and finally sources for the study of Irish book history. This major study of Irish language book history provides a useful resource for readers interested in Irish history, book history, Irish Studies, the Irish language, Celtic

Studies Translation Studies linguistics post colonialism and the Irish diaspora **Men and Masculinities in the Sagas of Icelanders** Gareth Lloyd Evans, 2018-12-13 This volume is the first book length study of masculinities in the Sagas of Icelanders Spanning the entire corpus of the Sagas of Icelanders and taking into account a number of little studied sagas as well as the more well known works it comprehensively interrogates the construction operation and problematization of masculinities in this genre Men and Masculinities in the Sagas of Icelanders elucidates the dominant model of masculinity that operates in the sagas demonstrates how masculinities and masculine characters function within these texts and investigates the means by which the sagas and saga characters may subvert masculine dominance Combining close literary analysis with insights drawn from sociological theories of hegemonic and subordinated masculinities notions of homosociality and performative gender and psychoanalytic frameworks the book brings to men and masculinities in saga literature the same scrutiny traditionally brought to the study of women and femininities Ultimately the volume demonstrates that masculinity is not simply glorified in the sagas but is represented as being both inherently fragile and a burden to all characters masculine and non masculine alike **Old Paris and Changing New York** Kevin D. Moore, 2018-01-01 An insightful new look at two renowned photographers their interconnected legacies and the vital documents of urban transformation that they created In this comprehensive study Kevin Moore examines the relationship between Eug ne Atget 1857 1927 and Berenice Abbott 1898 1991 and the nuances of their individual photographic projects Abbott and Atget met in Man Ray s Paris studio in the early 1920s Atget then in his sixties was obsessively recording the streets gardens and courtyards of the 19th century city old Paris as modernization transformed it Abbott acquired much of Atget s work after his death and was a tireless advocate for its value She later relocated to New York and emulated Atget in her systematic documentation of that city culminating in the publication of the project Changing New York This engaging publication discusses how during the 1930s and 1940s Abbott paid further tribute to Atget by publishing and exhibiting his work and by printing hundreds of images from his negatives using the gelatin silver process Through Abbott s efforts Atget became known to an audience of photographers and writers who found diverse inspiration in his photographs Abbott herself is remembered as one of the most independent determined and respected photographers of the 20th century **Aquatic Pollution** Edward A. Laws, 2000-09-07 A clear straightforward presentation of concepts and issues in aquatic pollution This comprehensive introductory text presents a systematic study of pollution in oceans lakes streams and underground aquifers In a clear straightforward style that is easily accessible to nonscientists it describes the sources features and effects of thirteen different types of aquatic pollution Fully updated to reflect current understanding and recent developments this Third Edition of Aquatic Pollution covers every aspect of pollution associated with urban runoff acid rain sewage disposal pesticides oil spills nutrient loading and more Case studies of major pollution sites such as Lake Erie Three Mile Island and the Rocky Mountain Arsenal help to illustrate points made in the general discussion Important features of this new edition include
