Macau In Transition From Colony To Autonomous Region:

Macau in Transition H. Yee, 2001-09-12 The book analyzes various aspects of the process of Macau's transition from a Portuguese autonomous territory to a Chinese special administrative region. It analyzes the role of those involved in the process: Beijing, Lisbon, the local Portuguese Macau administration, the Macau branch of the New China News Agency, the Luso-Chinese Joint Liaison Group, and the local political and social groups. It stresses the dynamics of interactions between actors as well as the political, economic, and social changes in the enclave that have direct or indirect impact on the transition.

China's Macao Transformed Eilo W.Y. YU, Ming K. CHAN, 2014-10-01 The return of Macao from the Portuguese administration to the People's Republic of China (PRC) in 1999 marks the beginning of its transformation in the 21st century. Macao was confronted with various issues concerning then-existing political system, economic downturn, and gangland violence during the transition period. Beijing put Macao under the One Country Two Systems and implemented a wide variety of measures in order to restore its law and order as well as to recover its tourism-dependent economy. Gradually, Macao transformed itself to Las Vegas of the East. This volume of 18 essays highlights the key dimensions of Macao's remarkable One Country Two Systems actualisation experience in its first 15 years and discusses how Macao transformed and what challenges it encountered during its post-handover transformation. The volume has several focuses. It first investigates the political and electoral issues in a critical manner: post-handover Macao suffered from maladministration and limited democratization, and the chief executives selected lacked representativeness due to restricted public participation in the electoral process. Overall speaking, the government lacked legitimacy and popular support. From a socio-economic point of view, this book looks into the business model in running Macao's casinos and the emerging culture of mass participation and youth participation in political affairs. The education reformation and changes in civic identity of local Macao Chinese are also addressed. Finally, the volume looks into how post-handover Macao relates itself in the international politics affair.

Portugal, China and the Macau Negotiations, 1986-1999 Carmen Amado Mendes, 2013-05-01 On December 20, 1999, the city of Macau became a Special Administrative Region of China after nearly four hundred and fifty years of Portuguese administration. Drawing extensively on Portuguese and other sources and on interviews with key participants, this book examines the strategies and policies adopted by the Portuguese government during the negotiations. The study sets these events within the larger context of Portugal's retreat from empire, the British experience with Hong Kong, and changing social and political conditions within Macau. A weak player on the international stage, Portugal was still able to obtain concessions during the negotiations, notably in the timing of the retrocession and continuing Portuguese nationality arrangements for some Macau citizens. Yet the tendency of Portuguese leaders to use the Macau question as a tool in their domestic political agendas hampered their ability to develop an effective strategy and left China with the freedom to control the process of negotiation.

Macau 20 Years after the Handover Meng U. Jeong, 2020-05-25 This book outlines the major social and

political changes in the city of Macau during its first 20 years under the One Country Two Systems arrangement with Mainland China Despite the long standing image of Macau as Asia s Las Vegas it is a city that has changed a great deal since its return to China Equally despite this return it retains a unique social economic and political character distinct both from the Mainland of China and from its larger neighbour Hong Kong The chapters in this book examine the detail of this uniqueness from a range of perspectives including the gambling industry police society relations media usage patterns and protest movements Analysing the state of affairs 20 years after the city s return to China they also attempt to anticipate its future trajectory This is a valuable guide for scholars of Asian and particularly Chinese urban politics that will be of interest to academics and students looking to better understand the particularities of Macau **The Far East and Australasia**

2003 Europa Publications,2002 A unique survey of each country in the region It includes an extensive collection of facts statistics analysis and directory information in one accessible volume Reading China Against the Grain Carlos

Rojas, Mei-hwa Sung, 2020-10-28 Through an analysis of a wide array of contemporary Chinese literature from inside and outside of China this volume considers some of the ways in which China and Chineseness are understood and imagined Using the central theme of the way in which literature has the potential to both reinforce and to undermine a national imaginary the volume contains chapters offering new perspectives on well known authors from Jin Yucheng to Nobel Prize winning Mo Yan as well as chapters focusing on authors rarely included in discussions of contemporary Chinese literature such as the expatriate authors Larissa Lai and Xiaolu Guo The volume is complemented by chapters covering more marginalized literary figures throughout history such as Macau born poet Yiling the Malaysian born novelist Zhang Guixing and the ethnically Korean author Kim Hak ch l Invested in issues ranging from identity and representation to translation and grammar it is one of the few publications of its kind devoting comparable attention to authors from Mainland China authors from Manchuria Macau and Taiwan and throughout the global Chinese diaspora Reading China Against the Grain Imagining Communities is a rich resource of literary criticism for students and scholars of Chinese studies sinophone studies and comparative literature

Transnational Migration and Work in Asia Kevin Hewison, Ken Young, 2006-04-07 Focusing on the issues associated with migrating for work both in and from the Asian region this book sheds light on the debate over migration and trafficking With contributions from an international team of well known scholars the book sets labour migration firmly within the context of globalization providing a focused contemporary discussion of what is undoubtedly a major twenty first century concern Transnational Migration and Work in Asia analyzes workers motivations and rationalities highlighting the similarities of migration experiences throughout Asia Presenting in depth case studies of the real life experiences and problems faced by migrant workers the book discusses migrants relations with the state and their vulnerability to exploitation as well as the major policy issues now facing governments employers NGOs and international agencies *Hybrid Constitutionalism* Eric C. Ip, 2019-04-25 This is the first book that focuses on the entrenched fundamental divergence between the Hong Kong Court of

Final Appeal and Macau's Tribunal de Última Instância over their constitutional jurisprudence with the former repeatedly invalidating unconstitutional legislation with finality and the latter having never challenged the constitutionality of legislation at all. This divergence is all the more remarkable when considered in the light of the fact that the two Regions commonly subject to oversight by China's authoritarian Party-state possess constitutional frameworks that are nearly identical: feature similar hybrid regimes and share a lot in history, ethnicity, culture, and language. Informed by political science and economics, this book breaks new ground by locating the cause of this anomaly studied within the universe of authoritarian constitutionalism, not in the common-law/civil-law differences between these two former European dependencies but the disparate levels of political transaction costs therein. Public Administration in Southeast Asia Evan M. Berman, 2017-09-25

While public administration practice and education in general has become considerably professionalized in the last decade, existing knowledge on public administration in Southeast Asia is fragmented at best and often devoid of a useful reference. While journal articles and government reports provide decentralized information, Public Administration in Southeast Asia: Thailand, Philippines, Malaysia, Hong Kong, and Macao takes a comprehensive and comparative look at the major components of administration systems. The selection of countries and regions included reflects the diversity of Southeast Asia. Organized by country, the handbook fills a critical need by bringing together leading scholars who provide an insider perspective and viewpoint on essential and advanced issues. Divided into five sections, each dedicated to a particular country, the text outlines topics relevant to modern public administration, including: History and Political Context of Public Administration; Decentralization and Local Governance; Public Ethics and Corruption; Performance Management Reforms; Civil Service System. Focusing on recent developments in public administration in these countries, which are among the fastest growing economies in the world, the book explores their practices and innovative approaches in public administration. For many years, people have been fascinated by the cultures, peoples, and governments of Southeast Asia, and now they have a book that discusses the apparatus of government in Southeast Asia: their agencies, contexts, processes, and values. **Gaming,**

Governance and Public Policy in Macao Newman M. K. Lam, Ian Scott, 2011-08-01. The small city of Macao, formerly a Portuguese colony, now a Special Administrative Region of China, liberalized its gaming industry in 2002. Since then, a score of new casinos have been built, and millions of gamblers have flooded in from mainland China. Per capita income has more than doubled in five years, and the gaming operators have outstripped their Las Vegas counterparts in revenue and profits. But rapid economic growth has also brought social and political problems. In this structured survey of modern Macao, 15 experts examine the effects of massive foreign investment, the problems of governance, and increasing public policy challenges in a time of rapid change and potential social instability. Newman M. K. Lam is professor of public administration at the University of Macau. Ian Scott is emeritus professor and fellow of the Asia Research Centre at Murdoch University and adjunct professor of public and social administration at the City University of Hong Kong. **The Emerging Asian City** Vinayak Bharne, 2013

Asian cities create concomitant imagery polarizations of poverty and wealth blurry lines between formality and informality and stark juxtapositions of ancient historic places with shimmering new skylines With Asia's re emergence on the global stage there is an acute focus on its multifarious urban issues and identities What are Asian cities going to become Will they surpass the economic and environmental debacles of the West This collection of twenty four essays surveys the most dominant issues shaping the Asian urban landscape today It offers scholarly reflections and positions on the forces shaping Asian cities and the forces that they in turn are shaping

Sovereignty at the Edge Cathryn H. Clayton, 2020-03-17 How have conceptions and practices of sovereignty shaped how Chineseness is imagined This ethnography addresses this question through the example of Macau a southern Chinese city that was a Portuguese colony from the 1550s until 1999 As the Portuguese administration prepared to transfer Macau to Chinese control it mounted a campaign to convince the city's residents 95 percent of whom identified as Chinese that they possessed a unique cultural identity that made them different from other Chinese and that resulted from the existence of a Portuguese state on Chinese soil This attempt sparked reflections on the meaning of Portuguese governance that challenged not only conventional definitions of sovereignty but also conventional notions of Chineseness as a subjectivity common to all Chinese people around the world Various stories about sovereignty and Chineseness and their interrelationship were told in Macau in the 1990s This book is about those stories and how they informed the lives of Macau residents in ways that allowed different relationships among sovereignty subjectivity and culture to become thinkable while also providing a sense of why at times it may not be desirable to think them

China's Policies On Its Borderlands And The International Implications Yufan Hao, Bill K P Chou, 2010-11-25 This book examines the interplay of two sets of policies the Chinese government's policies to its borderlands and international relations

It proposes a conceptual framework and argues that China's policymakers fail to make complete use of the opportunities in the borderlands for accomplishing foreign policymakers agenda to strengthen China's relations with other countries neighboring ones in particular. As a result, these foreign policies reflect the political elites' inadequate consideration of the negative impact of these policies on the borderlands and underscore their worry for territorial disintegration. Therefore, these policies center on the pursuit of central control through exercising administrative military coercion, making the borderlands economically dependent, standardizing the cultural identity, and indoctrinating CCP-defined ideology. The challenges of the borderlands to the national integration are exaggerated so much that political elites pursued control and standardization at the expense of the identification of many people in borderlands with the regime. China's international image and the relations with its neighbouring countries.

Entangled Histories Dan Ben-Canan, Frank Grüner, Ines Prodöhl, 2013-10-29. The authors of this book focus on transcultural entanglements in Manchuria during the first half of the twentieth century. Manchuria, as Western historiography commonly designates the three northeastern provinces of China, was a politically, culturally, and economically contested region. In the late nineteenth century, the region became the centre of competing Russian, Chinese, and Japanese interests, thereby also attracting global attention. The coexistence of people with different nationalities, ethnicities, and cultures in Manchuria was rarely, if ever, harmoniously balanced or static. On the contrary, interactions were both dynamic and complex. Semi-colonial experiences affected the people's living conditions, status, and power relations. The transcultural negotiations between all population groups across borders of all kinds are the subject of this book. The chapters of this volume shed light on various entangled histories in areas such as administration, the economy, ideas, ideologies, culture, media, and daily life.

Historical Dictionary of Modern China (1800-1949) James Z. Gao, 2009-06-16. The *Historical Dictionary of Modern China 1800-1949* offers a concise but comprehensive examination of the political, military, economic, social, and cultural development of modern China. Instead of focusing merely on the political elites of China, this reference covers a variety of significant persons, including women and ethnic minorities, new historical concepts, cultural and educational institutions, and economic activities. Drawing on newly available records, including a large mass of governmental and family archives, the narratives presented reveal new facts, offer a new interpretation in accordance with China's modernization process during the late Qing period, and a revisionist perspective on the Republican history. The chronology records not only political and military events but also other experiences of the Chinese people. The bibliography gives prominence to current literature on China's drive towards modernization, and the appendixes provide the reader with detailed information on China's cultural and economic transformation.

Gambling Dynamism Victor Zheng, Po-san Wan, 2013-11-29. Four years after the actual implementation of its casino deregulation policy, Macao has surpassed Las Vegas as the world's top gambling destination in terms of annual turnover. Also, various recent surveys have put Macao at the very top of the list in terms of per capita GDP, as its economy grew shortly after the

resumption of Chinese sovereignty How could a tiny city without any natural resources on the southern coast of China have managed to achieve such a miraculous level of development This book presents an unparalleled study of Macao s economic dynamism and its gambling industry not only by merging historical and current developments but also by presenting solid subjective and objective indicators and evidence It offers an indispensable resource for students researchers and general readers looking to understand Macao s gambling miracle
