quest for an American compositional voice painting vivid vignettes of America's most celebrated performers and such pathbreaking institutions as the New York Philharmonic and the Metropolitan Opera. He explores a century of decline characterized by illustrious orchestras, conductors and virtuosos, mostly foreign born, and in a final chapter he exposes a crisis of leadership and suggests new musical directions in our postmodern age. As with his acclaimed cultural histories, Horowitz here fashions a sweeping narrative backed with personality and incident, textured by literature, sociology and intellectual history that freshly illuminates the American experience. 32 pages of illustrations. *Music and Musicians*, 1929. Discrete inquiries into 15 forms of the Arthurian legends produced over the last century explore how they have altered the tradition. They consider works from the US and Europe and those aimed at popular and elite audiences. The overall conclusion is that the Arthurian revival is an ongoing event and has become multivalent, multinational and multimedia. Originally published in 1992. The World's Great Men of Music. Harriette Brower, 2019-09-25. Reproduction of the original *The World's Great Men of Music* by Harriette Brower. Music of the Gilded Age. N. Lee Orr, 2007-05-30. America's Gilded Age was a time of great musical evolution. As the country continued to develop a musical style apart from Europe, its church and religious music and opera took on new forms. Music as entertainment also evolved with marching bands at public events and the new musicals in theaters. This volume presents the composers, musicians, songwriters, instruments and musical forms that uniquely identify the Gilded Age. Chapters include Concerts and Symphony orchestras, Grand Opera, Composers, Critics and Conservatories, Amateurs and Music at Home, Sacred Music, Black and White Ragtime, Vaudeville and the American Musical Stage, Music Politics and the Progressive Movement, and Music Industries and Technology. **Program Music**. Jonathan Kregor, 2015-01-15. Program music was one of the most flexible and contentious novelties of the long nineteenth century, covering a diverse range that included the overtures of Beethoven and Mendelssohn, the literary music of Berlioz and Schumann, Liszt's symphonic poems, the tone poems of Strauss and Sibelius, and compositions by groups of composers in Russia, Bohemia, the United States and France. In this accessible Introduction, Jonathan Kregor explores program music's ideas and repertoire, discussing both well-known and less familiar pieces by an array of nineteenth and twentieth-century composers. Setting program music in the context of the intellectual debates of the period, Kregor presents the criticism of writers like A. B. Marx and Hanslick to reveal program music's growth, dissemination and reception. This comprehensive overview features numerous illustrations and music examples and provides detailed case studies of battle music, Shakespeare settings and Goethe's *Faust*.
