and Louis Aragon He goes on to explore the way the spatial character of the serial films of Louis Feuillade intimated to the Surrealists a related mode of vision associated with perception of the mystery and the Marvelous lurking behind the surfaces of quotidian reality The dialectics informing Surrealist thought with regard to the surfaces of the real with walls doors and windows as controlling images are shown to be at the basis of Andr Breton's notion of the picture as a window Contrary to the traditional sense of this metaphor Breton's window is informed by the screen paradigm with its surface serving as a locus of a dialectics of transparency and opacity permeability and reflectivity The main aesthetic and conceptual issues that come up in the consideration of Breton's window metaphor lay the groundwork for an analysis of the work of Giorgio de Chirico Ren Aguitte Max Ernst Andr Breton and Joan Miró he concluding chapter considers **Max Ernst and Alchemy** M. E.

Warlick, 2013-05-01 Surrealist artist Max Ernst defined collage as the alchemy of the visual image Students of his work have often dismissed this comment as simply a metaphor for the transformative power of using found images in a new context Taking a wholly different perspective on Ernst and alchemy however M. E. Warlick persuasively demonstrates that the artist had a profound and abiding interest in alchemical philosophy and often used alchemical symbolism in works created throughout his career A revival of interest in alchemy swept the artistic psychoanalytic historical and scientific circles of the late nineteenth and early twentieth centuries and Warlick sets Ernst's work squarely within this movement Looking at both his art many of the works she discusses are reproduced in the book and his writings she reveals how thoroughly alchemical philosophy and symbolism pervade his early Dadaist experiments his foundational work in surrealism and his many collages and paintings of women and landscapes whose images exemplify the alchemical fusing of opposites This pioneering research adds an essential key to understanding the multilayered complexity of Ernst's works as it affirms his standing as one of Germany's most significant artists of the twentieth century **Max Ernst** Max Ernst, Metropolitan Museum of Art (New York, N.Y.), 2005 A comprehensive look at the life and work of a pioneering 20th century artist **Surrealism and the Occult**

Tessel Bauduin, 2025-10-01 This book offers a new perspective on a long debated issue the role of the occult in surrealism in particular under the leadership of French writer Andr Breton Based on thorough source analysis this study details how our understanding of occultism and esotericism as well as of their function in Bretonian surrealism changed significantly over time from the early 1920s to the late 1950s **Marcel Duchamp and Max Ernst** David Hopkins, 1998

David Hopkins analyses the extensive network of shared concerns and images in the work of Marcel Duchamp and Max Ernst the greatest names associated with Dada and Surrealist art This book covers a broad period from c 1912 to the mid 1940s during which the emergence of Dada and Surrealism in Europe and the United States challenged earlier movements such as Cubism and Expressionism creating scope for the expression of the unconscious fears and desires of artists acutely sensitive to the troubled nature of their times Examining Duchamp's and Ernst's subversion and manipulation of religious and hermetic beliefs such as Catholicism Rosicrucianism and Masonry David Hopkins demonstrates the ways in which these

esoteric concerns intersect with themes of peculiarly contemporary relevance including the social construction of gender and notions of ordering and taxonomy This detailed comparison of components of Duchamp s and Ernst s work reveals fascinating structural patterns enabling the reader to discover an entirely new way of understanding the mechanisms underlying Dada and Surrealist iconography Surrealism Silvano Levy,1997-07 Dal Picasso Ernst Magritte Maddox Breton Artaud Fondane Masson all are to be found in this gallery of surrealist artists Focussing on surrealist visuality defined as the visual expression of internal perception or in Andr Breton s words internal representation the contributors to this handsomely illustrated volume shed new light on one of the twentieth century s most exciting cultural movements **Form and Meaning in Avant-Garde Collage and Montage** Magda Dragu,2020-02-06 This book uses intermedial theories to study collage and montage tracing the transformation of visual collage into photomontage in the early avant garde period Magda Dragu distinguishes between the concepts of collage and montage as defined across several media fine arts literature music film photography based on the type of artistic meaning they generate rather than the mechanical procedures involved The book applies theories of intermediality to collage and montage which is crucial for understanding collage as a form of cultural production Throughout the author considers the political implications as collages and montages were often used for propagandistic purposes This book combines research methods used in several areas of inquiry art history literary criticism analytical philosophy musicology and aesthetics Nothing but the Clouds Unchanged Gordon Hughes,Philipp Blom,2014-11-25 Much of how World War I is understood today is rooted in the artistic depictions of the brutal violence and considerable destruction that marked the conflict Nothing but the Clouds Unchanged examines how the physical and psychological devastation of the war altered the course of twentieth century artistic Modernism Following the lives and works of fourteen artists before during and after the war this book demonstrates how the conflict and the resulting trauma actively shaped artistic production Featured artists include Georges Braque Carlo Carr Otto Dix Max Ernst George Grosz Ernst Ludwig Kirchner Oskar Kokoschka K the Kollwitz Fernand L ger Wyndham Lewis Andr Masson L szl Moholy Nagy Paul Nash and Oskar Schlemmer Materials from the Getty Research Institute s special collections including letters popular journals posters sketches propaganda books and photographs situate the works of the artists within the historical context both personal and cultural in which they were created The volume accompanies a related exhibition on view at the Getty Research Institute Gallery from November 25 2014 to April 19 2015 German Post-Expressionism : The Art of the Great Disorder 1918Ð1924 , German Post Expressionism is the first study to reconstruct historically the evolution of Die neue Sachlichkeit the slogan coined as a designation for the Post Expressionist figural art that developed throughout Germany following the failed revolution of 1919 Rather than starting with the moment this Post Expressionist movement was christened with a slogan 1923 Crockett investigates the sources and precepts of Post Expressionism beginning with the anti Expressionist stance of Dada in 1918 and the loss of faith in Expressionism on the part of some of its chief supporters during
