

Max Scheler

Max Scheler

Max Scheler:

Max Scheler, the Man and His Work John Hille Nota, 1983 Max Scheler's Acting Persons, 2021-12-13 This book gathers six trenchant new analyses of the idea of the person as raised by the German philosopher and social theorist Max Scheler 1874 1928 The issues raised in the volume are both timely and perennial from considerations of postmodernity phenomenology and metaphysics to sharp edged comparisons with other thinkers including Immanuel Kant Martin Heidegger Emmanuel Levinas Eric Voegelin Richard Rorty and Hannah Arendt **Max Scheler** Manfred S. Frings, 1996

Max Scheler and Phenomenology Eugene Kelly, 1977 **The Mind of Max Scheler** Manfred S. Frings, 1997 This book is designed to fill a long standing gap in the general literature of 20th century philosophy in that it offers a comprehensive view of the philosophy of Max Scheler 1874 1928 and opens up substantial discussions that have hitherto been largely overlooked The book is solely based on the original texts of the German Collected Edition as well as posthumous and untranslated materials References to English translations have been made whenever available The Mind of Max Scheler familiarizes the reader with strains of European thought that are rapidly gaining interest in the Americas Asia and Europe itself Already the pivotal questions Who are we What is a human being reveal the relevance Scheler's thought has to the self questioning stance that appears to mark this century's philosophy as a whole He also presents us with a cosmic view of what it means to be human and one is amazed at the scope of his approach that goes beyond his better known European contemporaries Heidegger Husserl Ortega or philosophers of our present time He addresses spurious value patterns that suffuse the age of capitalism and provides answers among them the gleaning of historical textures that are emerging toward the future and through which a lingering awareness of the eternal will eventually surface from the depths of human existence

The Nature of Sympathy Max Scheler, 2017-07-28 The Nature of Sympathy explores at different levels the social emotions of fellow feeling the sense of identity love and hatred and traces their relationship to one another and to the values with which they are associated Scheler criticizes other writers from Adam Smith to Freud who have argued that the sympathetic emotions derive from self interested feelings or instincts He reviews the evaluations of love and sympathy current in different historical periods and in different social and religious environments and concludes by outlining a theory of fellow feeling as the primary source of our knowledge of one another A prolific writer and a stimulating thinker Max Scheler ranks second only to Husserl as a leading member of the German phenomenological school Scheler's work lies mostly in the fields of ethics politics sociology and religion He looked to the emotions believing them capable in their own quality of revealing the nature of the objects and more especially the values to which they are in principle directed Lifetime M.S. Frings, 2003-04-30 Using posthumous manuscripts the author shows that Scheler conceived the origin of time in the self activating center of individual and universal life as threefold absolute time of a four dimensional expanse This serves as a basis for establishing the phenomenon of objective time in multiple steps of constitutionality including the physical field theory and theory of

relativity **Max Scheler (1874-1928) Centennial Essays** M.S. Frings, 2012-12-06 It is the purpose of these essays to commemorate the one hundredth birthday of the philosopher Max Scheler On this centennial occasion it may be appropriate to recall the first two major works of the philosopher's life Scheler is known mostly as the author of a monumental work on ethics entitled *Der Formalismus in der Ethik und die materiale Wertethik* Formalism in Ethics and Non Formal Ethics of Values which is the only existing foundation of ethics written by a European philosopher in this century Although its two parts were published separately 1913 1916 because of circumstances during World War I all manuscripts had been finished by Scheler prior to the outbreak of the war His ethics has been translated into various languages including a recent translation in English In the same year 1913 Scheler also published another major work which dealt with the phenomenology of sympathetic feelings and which is translated into English under the title of the enlarged second and following editions *The Nature of Sympathy* **Max Scheler, 1874-1928** John Raphael Staude, 1967 *Max Scheler's Concept of the Person* Ron Perrin, 1991-08-12 *Legacies of Max Scheler* Eric J. Mohr, J. Edward Hackett, 2024 This collection furthers English language scholarship on the philosophy of Max Scheler with a focus on areas that are potentially integral to Scheler's continuing legacy The chapters are divided according to Scheler's early work in phenomenology and value theory and his later work in metaphysics and anthropology **Max Scheler, 1874-1928** John Raphael Staude, 1967 **On the Eternal in Man** Max Scheler, 2017-07-12 Max Scheler 1874 1928 decisively influenced German philosophy in the period after the First World War a time of upheaval and new beginnings Without him the problems of German philosophy today and its attempts to solve them would be quite inconceivable What was new in his philosophy was that he used phenomenology to investigate spiritual realities The subject of *On the Eternal in Man* is the divine and its reality the originality and non derivation of religious experience Scheler shows the characteristic quality of that which is religious It is a particular essence that cannot be reduced to anything else It is a sphere that belongs essentially to humankind without it we would not be human If genuine fulfillment is denied it substitutes come into being This religious sphere is the most essential decisive one It determines man's basic attitude towards reality and in a sense the color extent and position of all the other human domains in life It forms the basis for various views about life and thought Scheler was emphatically an intuitive philosopher In Scheler's work the break between being as the almighty but blind rage and value as the knowing but powerless spirit has become complete and makes of each human a split being Personal experiences may be reflected here The development of Scheler's work as a whole was highly dependent on his personal experiences It is this that gives Scheler's work its liveliness and its validity *Max Scheler in Dialogue* Susan Gottlöber, 2023-05-20 This volume explores Max Scheler's role within the philosophical and sociological debates of his time into the 21st century Scheler was an interpreter a transmitter of and respondent to the philosophical and sociological tradition He was an interlocutor for his contemporaries and an inspiration for subsequent and current debates in philosophy psychology and political thought Both young and established scholars shed

light on central and less investigated aspects of Scheler's thought such as the question of moral facts, personal individuality, cosmopolitanism and opportunities for intercultural understanding. The contributors delve into Scheler's influence on thinkers such as Tischner or Løgstrup as well as his role as a key figure within Catholic thought. The book appeals to students and researchers while exploring how engaging with Scheler can benefit contemporary debates on embodiment, psychopathology and value pluralism. Max Scheler: Philosopher, Sociologist, and Critic of German Culture (1912-1928). John Raphael Staude, 1965. *The Politics of the Soul* Glenn Hughes, 1999. *The Politics of the Soul* Eric Voegelin on Religious Experience includes eight essays examining one of the most profound studies of religious experience to appear in the last century that of the political philosopher Eric Voegelin. Voegelin is increasingly recognized as a political theorist of exceptional scope and erudition and the most important philosopher of his time since Toynbee and his treatment of religious experience is a crucial part of his overall analysis of existence and history. This collection of essays by prominent Voegelin scholars is the first book to explore the relevance of that analysis to the contemporary understanding of political theory, theology, history and philosophy of consciousness and as such it constitutes a significant contribution not only to Voegelin scholarship but to the current quest for theoretical foundations. Philosophical Perspectives Max Scheler, 1981. *Max Scheler*, 1983.

Formalism in Ethics and Non-formal Ethics of Values Max Scheler, 1973. A lengthy critique of Kant's apriorism precedes discussions on the ethical principles of eudaemonism, utilitarianism, pragmatism and positivism. **Selections from Max Scheler** Max Scheler, 1953.

Embark on a transformative journey with Written by is captivating work, **Max Scheler** .
