Natural Radiance Lama Surya Das, 2010-10-29 One moment of total awareness is one moment of perfect enlightenment This is the ultimate insight of Dzogchen or the Great Perfection the pinnacle teaching of Tibetan Buddhism With his previous bestselling books including Awakening the Buddha Within American born Tibetan Buddhist teacher Lama Surya Das has taught millions about the innate wakefulness and liberation that can be our natural ways of being Now with Natural Radiance he offers his first complete daily practice

program for the personal experience of the swift and direct path of Dzogchen Dzogchen affirms that we are all Buddhas by nature infinitely open luminous compassionate wise and free This profound realization says the teachings cannot be understood intellectually or studied mentally but it can be passed from teacher to student through the spoken word With Natural Radiance you can now learn these time honored practices as they have been shared for centuries through direct transmission from an accomplished master of the tradition Join Lama Surya Das as your trusted guide to help you awaken to the sky like nature of mind what is known in Tibetan as rigpa or total and pure presence This is the time of Dzogchen says Lama Surya Das when we most need this immediate teaching of the inherent perfection of being the natural state of enlightenment Includes CD with seven guided Dzogchen techniques Natural Wakefulness Gaylon Ferguson, 2010-09-14

There are two essential elements to the spiritual path says this popular teacher from the lineage of Chogyam Trungpa 1 understanding that you're already enlightened already perfect in wisdom right here and now and 2 accessing that natural wakefulness through spiritual practice These two aspects depend upon each other and work together Gaylon Ferguson's teaching on the twin aspects of view and practice is a perfect introduction for the beginning meditator and it offers fresh perspectives for the non beginner too

Proceedings of the 2022 6th International Seminar on Education, Management and Social Sciences (ISEMSS 2022) Ghaffar Ali, Mehmet Cüneyt Birkök, Intakhab Alam Khan, 2023-09-16

Swift Meditation Nilam Pathak, Anshuman Sharma, Meditation has been the buzzword of print and online media for the last few decades Check any media channel and loads of content about meditation can be found in it The massive number of books and the amount of published content are enough to intimidate any normal person with the concept of meditation It seems so complex and out of reach Years of practice and guidance of spiritual gurus are necessary to reap the benefits of meditation It is the reason that most people do not understand the concept of meditation even if they fascinate it It is also assumed that integrating meditation in daily life would require a certain time commitment from our busy schedule As most of humanity is already short of time due to their hectic working hours and personal commitments meditation takes the back seat It is generally postponed to the later years of age It must be understood that meditation is natural to every human It is the need of the mind and brain to help it function most productively It can be used by anyone anywhere and in any condition Even professionals with a deficiency of time can use meditation to enhance the quality of their lives This book will solve the mystery around the concept of meditation Instead of comprehending hundreds of pages of information the fundamental concept of meditation can be explained in few sentences Once the basic concepts are clear meditation can be experienced through simple techniques The benefits associated with deep relaxation will be enough to stimulate any person to explore further The understanding and practice of Swift Meditation is the beginning of integrating meditation in life The main focus of this book is to introduce the concept of Swift Meditation called SM in short The meaning of Swift Meditation is to get into a meditative state in the least possible time using unique and effective techniques This book will describe the concept and the techniques One objective of the book is to keep it short and easy to understand The language used is simple for any person to easily understand the concepts described in the book We understand the time limitations of the people and

the challenge to complete a whole book to grasp the fundamental idea This book will also discuss several techniques which can be used for Swift Meditation Any practitioner can use one or more of these techniques to get into the meditative state for relaxation and control This will be the first step in the journey towards deeper meditation **Spirituality is a Science**
Bahram Elahi,1999 Faith and reason belief and experimentation spirituality and science in our modern era we have come to view these concepts as inherently dichotomous How can spirituality be considered a science when the very foundation of modern science was established in contrast or even in opposition to certain systems of thought inherited from religious traditions Through a series of innovative and thought provoking studies Dr Bahram Elahi redefines spirituality as an experimental science rooted in concrete and empirically verifiable realities BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved
