Naturalism and the Human Spirit, Edited by Yervant H. Krikorian Yervant Hovhannes Krikorian, 1944 Philosophical Essays O. K. Bouwsma, 1965-01-01 The essays in this collection are not confined to any one period or any one subject Nearly every one in the author's words is an attempt to understand some short passage from the work of some philosopher teasing the passage with analogies of sense If one were to describe the method as Descartes described his method the method of doubt perhaps it might best be described as the method of failure **Contemporary Pragmatism. qualities that perfect human reason and desire *Naturalism and Religion* Kai Nielsen, 2011-04-29 This elucidation and defense of naturalism argues that an uncompromising secular orientation is the best framework for the search for meaning and interprets religion in purely naturalistic terms Part One seeks to demonstrate that religious symbols arise from facts about human beings and the societies in which they live specifically our needs fears and aspirations Part Two examines arguments for and against naturalism including the defenses of naturalism by Sidney Hook Ernest Nagel Antony Flew and critical reactions to their views The forceful and rigorously analytical case made by Jean Hampton against naturalism is also examined resulting in a clarification of the substantial and sound methodological grounds for naturalism and atheism Part Three considers the strongest intellectual challenge to secularism and naturalism namely that of Ludwig Wittgenstein and some of his followers Norman Malcolm D Z Phillips Hilary Putnam Rush Rhees and Peter Winch Nielsen concludes that none of these critiques diminish the cogency and viability of naturalism as the most reasonable basis for viewing our world today

Naturalism and Normativity Mario De Caro, David Macarthur, 2010 Normativity concerns what we ought to think or do and the evaluations we make For scientific naturalists the moral is reached by reducing the normative to the nonnormative For orthodox nonnaturalists the moral is found in the transcendent realm of norms This book challenges both sides of this debate **The Naturalists and the Supernatural** William M.
