Nature And Judgment:

Nature and Judgment Justus Buchler, 1955 Attempts to discover fundamental traits in the process of experiencing and producing in man Includes chapters on judgment query experience and meaning **Kant on Freedom, Nature, and Judgment** Kristi Sweet, 2023-02-09 Kant's Critique of Judgment seems not to be an obviously unified work Unlike other attempts to comprehend it as a unity which treat it as serving either practical or theoretical interests Kristi Sweet's book posits it as examining a genuinely independent sphere of human life In her in depth account of Kant's Critical philosophical system Sweet argues that the Critique addresses the question for what may I hope The answer is given in Kant's account of territory a region of experience that both underlies and mediates between freedom and nature Territory forms the context in which purposiveness without a purpose the Ideal of Beauty the *sensus communis* genius and aesthetic ideas and Kant's conception of life and proof of God are best interpreted Encounters in this sphere are shown to refer us to a larger more cosmic sense of a whole to which both freedom and nature belong **Nature's Perspectives** Armen Marsoobian, Kathleen Wallace, Robert S. The Nature of Normativity Ralph Wedgwood, 2007-07-19 The Nature of Normativity presents a complete theory about the nature of normative thought that is the sort of thought that is concerned with what ought to be the case or what we ought to do or think Ralph Wedgwood defends a kind of realism about the normative according to which normative truths or facts are genuinely part of reality Anti realists often complain that realism gives rise to demands for explanation that it cannot adequately meet What is the nature of these normative facts How we could ever know them or even refer to them in language or thought Wedgwood accepts that any adequate version of realism must answer these explanatory demands However he seeks to show that these demands can be met in large part by relying on a version of the idea which has been much discussed in recent work in the philosophy of mind that the intentional is normative that is that there is no way of explaining the nature of the various sorts of mental states that have intentional or representational content such as beliefs judgments desires decisions and so on without stating normative facts On the basis of this idea Wedgwood provides a detailed systematic theory that deals with the following three areas the meaning of statements about what ought to be the nature of the facts stated by these statements and what justifies us in holding beliefs about what ought to be **The Nature of Salvation** Robert W. Prichard, 1997 Robert Prichard examines both high church and evangelical theology in the nineteenth century Episcopal church claiming a commonality between the two that has been neglected in the study of Anglican history Parting company with the interpretation dominant among historians of the Episcopal church for more than sixty years he focuses on shared theological assumptions rather than on liturgical divisions By focusing on these shared

theological assumptions he sheds new light on the Episcopal church helping the reader to see the evangelical and high church parties as concerned with theological as well as liturgical topics Prichard's approach avoids overemphasis on division and opens the way for a broader comparison of the Episcopal church's relationship to other Protestant churches **A**
