New Juvenile Justice:

A New Juvenile Justice System Nancy E. Dowd, 2015-05-15 A New Juvenile Justice System aims at nothing less than a complete reform of the existing system not minor change or even significant overhaul but the replacement of the existing system with a different vision The authors in this volume academics activists researchers and those who serve in the existing system all respond in this collection to the question of what the system should be Uniformly they agree that an ideal system should be centered around the principle of child well being and the goal of helping kids to achieve productive lives as citizens and members of their communities Rather than the existing system with its punitive destructive undermining effect and uneven application by race and gender these authors envision a system responsive to the needs of youth as well as to the community's legitimate need for public safety How they ask can the ideals of equality freedom liberty and self determination transform the system How can we improve the odds that children who have been labeled as delinquent can make successful transitions to adulthood And how can we create a system that relies on proven family focused interventions and creates opportunities for positive youth development Drawing upon interdisciplinary work as well as on the ground programs and experience the authors sketch out the broad parameters of such a system Providing the principles goals and concrete means to achieve them this volume imagines using our resources wisely and well to invest in all children and their potential to contribute and thrive in our society *Juvenile Justice and Delinquency Prevention* United States. Office of Juvenile Justice and Delinquency Prevention, 1976

Juvenile Law Violators, Human Rights, and the Development of New Juvenile Justice Systems Eric L. Jensen, Jørgen Jepsen, 2006-10-04 This volume brings together scholars and practitioners specialising in juvenile justice from the US Europe alongside scholars from Africa and Asia who are working on human rights issues in developing countries or countries in transition The book thus presents two types of papers the first being descriptive and analytical academic papers on whole systems of juvenile justice or certain parts thereof e.g. aftercare restorative justice etc These topics are presented as essential for the development of new juvenile justice systems The second group of papers deal with efforts to promote reform through international activity PRI DCI DIHR and through efforts to utilise modern theory in national reforms in developing countries Malawi Nepal and Serbia or in countries experiencing current or recent political and systemic changes or developments South Africa Germany and Poland The volume is also intended to throw light on recent trends in juvenile crime in various countries the relationship between actual developments and popular and political perceptions and reactions to such developments including the efforts to locate effective alternatives to the incarceration of young offenders At the same time as the search for such alternatives is being intensified through international exchange and experimentation the amelioration of harsh measures against juvenile law violators is often countered by political and public outcries for security and demonstrative public intervention against misbehavior A streak of new moralism is clearly discernable as a counteracting force against more humane reform efforts The volume throws light on developments in the

actual parameters of juvenile offending public and political demands for security and public intervention and measures to provide interventions which are at the same time compatible with international human rights instruments **Juvenile Justice Report** New York (N.Y.). Juvenile Justice, Dept. of, 2006 **Juvenile Justice : a New Focus on Prevention** United States. Congress. Senate. Committee on the Judiciary. Subcommittee on Juvenile Justice, 1993 Reinventing Juvenile Justice Barry Krisberg, James Austin, 1993-04-28 A painful view of the current state of juvenile justice in the United States is presented in this volume which asks whether the children's court has outlived its usefulness As pressure builds to handle more children in adult courts and to consign them to adult prisons the authors explore alternatives to the custodial treatment of juveniles and suggest how the juvenile justice system can and should be reformed **Juvenile Justice in New Jersey** New Jersey. Department of Human Services. Task Force on the Juvenile Code, 1979 *New Possibilities for Juvenile Justice* Willie James Webb, 2013-10-21 This book has three enlightening sections regarding juvenile recidivism administrative services and treatment methodologies The first section is based on research studies and analyses of the social characteristics of 40 randomly selected juvenile recidivists referred to the juvenile court over a ten year period This study explores and analyzes the respective families neighborhoods schools grade levels religious affiliation socio economic status mental health and the types and numbers of legal offenses that were committed by the repeat offenders This study establishes a pattern and identifying social factors relating to causal factors contributing to their repetitious offensive acts and violations of the law There are clearly predictive factors for juvenile repeat offenders that can be used to predict control prevent control and reduce significantly juvenile offenses and recidivism The second section of this book explores essentials for effective administration for juvenile courts and other social service agencies in the community All agencies and especially human service agencies must be administratively and operationally healthy They must not contribute to the demoralization of the staff who already face low morale challenges in treating and serving clients who are associated with substantial depressive pathologies Specific personnel standards policies and procedures are vital to optimize the effectiveness of the service providing staff There are certain training essentials and requirements that center around competence morality professionalism and ethical standards that must be enforced in order to maintain an efficient functional healthy and safe work environment If the service providing staff are not trained and treated well it is doubtful that they can serve and treat their clients well Treatment providers must be protected from administrative persecution and incompetence especially when they have the responsibility to protect and restore their clients to health and stability Intimidating threatening and unsafe work environments retards and inhabits productivity The third section of *New Possibilities for Juvenile Justice* enumerates a comprehensive list of factors associated with youth problems failures in school delinquent acts and law violations The list is based on seasoned experienced and knowledgeable probation officers with decades of training and experience Also the third section of this book provides an exploration and understanding of the ongoing cultural crisis and the serious adverse impact

this crisis is having on America its people and institutions The social problems reinforced by new ideologies and technology appear to be increasing more rapidly than answers and solutions to solve them Transforming American youth into positive law abiding healthy and productive citizens is possible if the responsible patriotic and enlightened leader ship will utilize the artistic scientific ethical and transforming knowledge that is available The information contained in this volume can be a significant beginning in that process of directions for youth transformation 1 **Law of Juvenile Justice** Sol Rubin,1976
