Nightwalker Le Paysan De Paris:

Nightwalker Aragon,1970 The Anthropological Imagination in Latin American Literature Amy Fass Emery,1996
Emery develops the concept of an anthropological imagination that is the conjunction of anthropology and fiction in twentieth century Latin American literature Emery also gives consideration to documentary and testimonial writings **Centre Pompidou** Francesco Dal Co,2016-01-01 The design and history of Paris s iconic Centre Pompidou is explored in this absorbing and beautifully illustrated biography of a building **Walter Benjamin** Howard Eiland,Michael W. Jennings,2014-01-20 Walter Benjamin was perhaps the twentieth century s most elusive intellectual His writings defy categorization and his improvised existence has proven irresistible to mythologizers In a major new biography Howard Eiland and Michael Jennings present a comprehensive portrait of the man and his times as well as extensive commentary on his work **Pulp Surrealism** Robin Walz,2023-12-22 In addition to its more well known literary and artistic origins the French surrealist movement drew inspiration from currents of psychological anxiety and rebellion running through a shadowy side of mass culture specifically in fantastic popular fiction and sensationalistic journalism The provocative nature of this insolent mass culture resonated with the intellectual and political preoccupations of the surrealists as Robin Walz demonstrates in this fascinating study Pulp Surrealism weaves an interpretative history of the intersection between mass print culture and surrealism re evaluating both our understanding of mass culture in early twentieth century Paris and the revolutionary aims of the surrealist movement Pulp Surrealism presents four case studies each exploring the out of the way and impertinent elements which inspired the surrealists Walz discusses Louis Aragon s Le paysan de Paris one of the great surrealist novels of Paris He goes on to consider the popular series of Fant mes crime novels the Parisian press coverage of the arrest trial and execution of mass murderer Landru and the surrealist inquiry Is Suicide a Solution which Walz juxtaposes with reprints of actual suicide faits divers sensationalist newspaper blurbs Although surrealist interest in sensationalist popular culture eventually waned this exploration of mass print culture as one of the cultural milieux from which surrealism emerged ultimately calls into question assumptions about the avant garde origins of modernism itself In addition to its more well known literary and artistic origins the French surrealist movement drew inspiration from currents of psychological anxiety and rebellion running through a shadowy side of mass culture specifically in fantastic popular fictio Paths to Contemporary French Literature John Taylor,2017-07-05 Praised for his independence curiosity intimate knowledge of French literature and sharp reader s eye John Taylor is a writer critic who is naturally skeptical of literary fashions overnight reputations and readymade academic categories Here he examines various genres of politically committed literature such as Jean Hatzfeld s narratives about Rwanda or Tchicaya U Tam si s verse some overlooked fiction and several provocative experiments with literary form ranging from the poetry of Jean Paul Michel and Marie etienne to the three line novels of Felix Feneon Taylor continues to reveal the remarkable resourcefulness of French writing Besides drawing attention to authors

like Dai Sijie or Albert Cossery who have come to French from other languages he has added younger novelists to his critical panorama Challenging persistent clichés and recovering deserving voices from unjust neglect Taylor's vision of French literature conjures up the image of a vital nexus Poetry crisscrosses with prose writers from one generation meet up with those from the next or the previous one while the philosophical ideas underlying French writing are scrutinized This is an essential guide to the realities of French culture today *Modern Epic* Franco Moretti, 1996-04-17 Having coined a new term modern epic the author analyses the phenomenon attempts to situate the works of e.g. Joyce Proust Musil within our literary tradition *Visionary Fictions* Edward J. Ahearn, 1996-01-01 Gennemgang af temaet verdens undergang hos forfatterne William Blake Novalis Gérard de Nerval Comte de Lautréamont André Breton Louis Aragon William Burroughs Monique Wittig og Jamaica Kincaid *The Senses of Modernism* Sara Danus, 2019-01-24 In *The Senses of Modernism* Sara Danus develops a radically new theoretical and historical understanding of high modernism The author closely analyzes Thomas Mann's *The Magic Mountain* Marcel Proust's *Remembrance of Things Past* and James Joyce's *Ulysses* as narratives of the sweeping changes that affected high and low culture in the age of technological reproduction In her discussion of the years from 1880 to 1930 Danus proposes that the high modernist aesthetic is inseparable from a technologically mediated crisis of the senses She reveals the ways in which categories of perceiving and knowing are realigned when technological devices are capable of reproducing sense data Sparked by innovations such as chronophotography phonography radiography cinematography and technologies of speed this sudden shift in perceptual abilities had an effect on all arts of the time Danus explores how perception notably sight and hearing is staged in the three most significant modern novels in German French and British literature *The Senses of Modernism* connects technological change and formal innovation to transform the study of modernist aesthetics Danus questions the longstanding acceptance of a binary relationship between high and low culture and describes the complicated relationship between modernism and technology challenging the conceptual divide between a technological culture and a more properly aesthetic one **Between Urban Topographies and Political Spaces** Fabio Vighi, Alexis Nuselovici, Mauro Ponzzi, 2014-04-02 *Between Urban Topographies and Political Spaces* Threshold Experiences uses the term threshold as a means to understand the relationship between Self and Other as well as relationships between different cultures The concept of threshold defines the relationship between inside and outside not in oppositional terms but as complementaries This book discusses the cultural and social border areas of modernity which are to be understood not as zones in a territorial sense but as spaces in between in which different languages and cultures operate The essays in *Between Urban Topographies and Political Spaces* identify the dimension in urban topographies and political spaces where we are able to locate paradigmatic experiences of thresholds Because these spaces are characterized by contradictions conflicts and aporias we propose to rethink those hermeneutic categories that imply a sharp opposition between inside and outside This means that the theoretical definition of threshold put forward in these essays whether applied to history

philosophy law art or cultural studies embodies new juridical and political stances **Selected Writings** Walter Benjamin, 2004 In the final years of the Weimar Republic Benjamin emerged as the most original public intellectual in the German speaking world Here Benjamin is represented by two of his greatest literary essays Surrealism and On the Image of Proust as well as by an article on Goethe and a selection of his wide ranging commentary for German newspapers *French Cinema* Rómi Fournier Lanzoni, Rómi Fournier-Lanzoni, 2015-10-22 An all encompassing history of French motion pictures and cinematographic trends chronologically from 1895 to the present Library Journal Melvil Dewey, Richard Rogers Bowker, L. Pylodet, Charles Ammi Cutter, Bertine Emma Weston, Karl Brown, Helen E. Wessells, 1971 Includes beginning Sept 15 1954 and on the 15th of each month Sept May a special section School library journal ISSN 0000 0035 called Junior libraries 1954 May 1961 Also issued separately **Acrobatic Modernism from the Avant-Garde to Prehistory** Jed Rasula, 2020-02-27 This is a book about artistic modernism contending with the historical transfigurations of modernity As a conscientious engagement with modernity s restructuring of the lifeworld the modernist avant garde raised the stakes of this engagement to programmatic explicitness But even beyond the vanguard the global phenomenon of jazz combined somatic assault with sensory tutelage Jazz like the new technologies of modernity re calibrated sensory ratios The criterion of the new as self making also extended to names pseudonyms and heteronyms The protocols of modernism solicited a pragmatic arousal of bodily sensation as artistic resource validating an acrobatic sensibility ranging from slapstick and laughter to the pathos of bereavement Expressivity trumped representation The artwork was a diagram of perception not a mimetic rendering For artists the historical pressures of altered perception provoked new models and Ezra Pound s slogan Make It New became the generic rallying cry of renovation The paradigmatic stance of the avant garde was established by Futurism but the discovery of prehistoric art added another provocation to artists Paleolithic caves validated the spirit of all over composition unframed and dynamic Geometric abstraction Constructivism and Purism and Surrealism were all in quest of a new mythology Making it new yielded a new pathos in the sensation of radical discrepancy between futurist striving and remotest antiquity The Paleolithic cave and the USSR emitted comparable siren calls on behalf of the remote past and the desired future As such the present was suffused with the pathos of being neither but subject to both Book of the Sphinx Willis Goth Regier, 2004-12-01 Sought the Sphinx seems everywhere whether the guardian of the pyramids on Egypt s Giza plateau or the beautiful man eater with a deadly riddle to be approached with awful caution The Sphinx that icon painted sculpted engraved and exalted in poetry fiction and music so impressed the philosopher Hegel that he pronounced the creature the symbol of the symbolic itself With a wealth of illustrations Book of the Sphinx confirms Hegel s lofty judgment finding the Sphinx everywhere in tragedies paintings opera murder mysteries brothels bars and advertisements Pursuing the Sphinx through kaleidoscopic sightings and encyclopedic observations Willis Goth Regier plumbs the symbol s mysteries conducting the reader down ever more perplexing and intriguing paths Wonderfully readable his highly idiosyncratic tour of

the ages and the arts leads at last to a conception of the Sphinx that embraces nothing less than all that is unknowable proving once again that confronting a Sphinx is one of the most dangerous and exhilarating adventures of the imagination

The Drowned Muse Anne-Gaëlle Saliot, 2015 *The Drowned Muse* is a study of the extraordinary destiny in the history of European culture of an object which could seem at first glance quite ordinary in the history of European culture It tells the story of a mask the cast of a young girl's face entitled *L'Inconnue de la Seine* the Unknown Woman of the Seine and its subsequent metamorphoses as a cultural figure Legend has it that the *Inconnue* drowned herself in Paris at the end of the nineteenth century The forensic scientist tending to her unidentified corpse at the Paris Morgue was supposedly so struck by her allure that he captured in plaster the contours of her face This unknown girl also called *The Mona Lisa of Suicide* has since become the object of an obsessive interest that started in the late 1890s reached its peak in the 1930s and continues to reverberate today Aby Warburg defines art history as a ghost story for grown ups This study is similarly a ghost story for grown ups narrating the aura of a cultural object that crosses temporal geographical and linguistic frontiers It views the *Inconnue* as a symptomatic expression of a modern world haunted by the earlier modernity of the nineteenth century It also investigates how the mask's metamorphoses reflect major shifts in the cultural history of the last two centuries approaching the *Inconnue* as an entry point to understand a phenomenon characteristic of 20th and 21st century modernity the translatability of media Doing so this study mobilizes discourses surrounding the *Inconnue* casting them as points of negotiation through which we may consider the modern age

Walter Benjamin Uwe Steiner, 2012-08-15 Seven decades after his death German Jewish writer philosopher and literary critic Walter Benjamin 1892-1940 continues to fascinate and influence Here Uwe Steiner offers a comprehensive and sophisticated introduction to the oeuvre of this intriguing theorist Acknowledged only by a small circle of intellectuals during his lifetime Benjamin is now a major figure whose work is essential to an understanding of modernity Steiner traces the development of Benjamin's thought chronologically through his writings on philosophy literature history politics the media art photography cinema technology and theology Walter Benjamin reveals the essential coherence of its subject's thinking while also analyzing the controversial or puzzling facets of Benjamin's work That coherence Steiner contends can best be appreciated by placing Benjamin in his proper context as a member of the German philosophical tradition and a participant in contemporary intellectual debates As Benjamin's writing attracts more and more readers in the English speaking world Walter Benjamin will be a valuable guide to this fascinating body of work

Prehistoric Future Ralph Ubl, 2013-11-06 One of the most admired artists of the twentieth century Max Ernst was a proponent of Dada and founder of surrealism known for his strange evocative paintings and drawings In *Prehistoric Future* Ralph Ubl approaches Ernst like no one else has using theories of the

unconscious surrealist automatism Freudian psychoanalysis the concept of history as trauma to examine how Ernst's construction of collage departs from other modern artists Uhl shows that while Picasso Braque and Man Ray used scissors and glue to create collages Ernst employed techniques he himself had forged rubbing and scraping to bring images forth onto a sheet of paper or canvas to simulate how a screen image or memory comes into the mind's view In addition Ernst scoured the past for obsolete scientific illustrations and odd advertisements to illustrate the rapidity with which time passes and to simulate the apprehension generated when rapid flows of knowledge turn living culture into artifact Ultimately Uhl reveals Ernst was interested in the construction and phenomenology of both collective and individual modern history and memory Shedding new light on Ernst's working methods and the reasons that his pieces continue to imprint themselves in viewers' memories Prehistoric Future is an innovative work of critical writing on a key figure of surrealism
