Change Peter J. Boettke,Erwin Dekker,Chad Van Schoelandt,2023-12-06 This volume explores the political economy and social philosophy of F A Hayek as they relate to social change Arguably one limitation of Hayek s social philosophy is that he as some of his contemporaries quipped does not know the words for example This means that much of his work on social philosophy is relatively abstract and hard to approach This might also explain why it has taken so long for scholars to fully appreciate the breadth and depth of his social philosophy Toward a Hayekian Theory of Social Change remedies the lack of more practical studies of Hayek s theory of social change by bringing together several scholars from different social science disciplines who relate Hayek s theory of social change to empirical phenomena and methodological debates within their respective disciplines **What the Elders Have Taught Us**,2013-04-08 This wonderful book gives the reader a glimpse

American Literature and American Identity Patrick Colm Hogan,2021-11-10 In recent years cognitive and affective science have become increasingly important for interpretation and explanation in the social sciences and humanities However little of this work has addressed American literature and virtually none has treated national identity formation in influential works since the Civil War In this book Hogan develops his earlier cognitive and affective analyses of national identity further exploring the ways in which such identity is integrated with cross culturally recurring patterns in story structure Hogan examines how authors imagined American identity understood as universal democratic egalitarianism in the face of the nation s clear and often brutal inequalities of race sex and sexuality exploring the complex and often ambivalent treatment of American identity in works by Charlotte Perkins Gilman Eugene O Neill Lillian Hellman Djuna Barnes Amiri Baraka Margaret Atwood N Scott Momaday Spike Lee Leslie Marmon Silko Tony Kushner and Heidi Schreck Aboriginal Music in Contemporary Beverley Diamond,Anna Hoefnagels,2012 Contemporary Aboriginal music from powwow to hip hop the people that make it and the issues that shape it Shamans and Kushtakas Mary Giraudo Beck,2003-06-01 Shaman and Kushtaka both struck terror in the hearts of the Tlingit and Haida for both possessed frightening supernatural powers Among

the Natives of the Pacific Northwest Coast the shaman was honored as a person who could heal the body and spirit as well as see into the future In his struggles to protect his people he fought the kushtaka an evil spirit being who was half human and half land hotter for the souls of dying persons Theirs was a battle between the forces of good and evil and today it remains a cornerstone in Tlingit and Haida mythology Mary Giraudo Beck provides a powerful mix of history legend and adventure to dramatize the values and traditions of Tlingit and Haida societies The heroic and wondrous incidents in these stories transcend time and culture and as tales of myth and magic provide compelling reading for young and old alike [The Ancient World](#) Sarolta Anna Takacs, Eric H. Colonialism and Literature Patrick Colm Hogan, 2025 In earlier work Patrick Colm Hogan argued that a few story genres heroic romantic sacrificial and others recur prominently across separate literary traditions These structures recur because they derive from important emotion motivation systems governing human social interaction such as group pride and shame In *Colonialism and Literature* Hogan extends this work to argue that these genres play a prominent role in the fashioning of postcolonization literature literature encompassing both the colonial and postcolonial periods Crucially colonizers and colonized people commonly understand and explain their situation in terms of these narrative structures In other words the stories we tell to some degree simply reflect the facts But we also tend to interpret our condition in terms of genre with the genre guiding us about what to record and how to evaluate it Hogan explores these consequential processes in theoretical and literary analysis presenting extended culturally and historically specified interpretations of works by P adraic Pearse

Greer,2008-09-01 Americans are expressing deep concern about US dependence on petroleum rising energy prices and the threat of climate change Unlike the energy crisis of the 1970s however there is a lurking fear that now the times are different and the crisis may not easily be resolved The Long Descent examines the basis of such fear through three core themes Industrial society is following the same well worn path that has led other civilizations into decline a path involving a much slower and more complex transformation than the sudden catastrophes imagined by so many social critics today The roots of the crisis lie in the cultural stories that shape the way we understand the world Since problems cannot be solved with the same thinking that created them these ways of thinking need to be replaced with others better suited to the needs of our time It is too late for massive programs for top down change the change must come from individuals Hope exists in actions that range from taking up a handicraft or adopting an obsolete technology through planting an organic vegetable garden taking charge of your own health care or spirituality and building community Focusing eloquently on constructive adaptation to massive change this book will have wide appeal **Ethics of Alaska Travel Writing since 1959** Benjamin

Ferguson,2025-08-28 This book digs into environmental themes in Alaska travel writing since U S statehood in 1959 drawing on the works of six authors including Barry Lopez Jonathan Raban Tom Lowenstein and others Each work though disparate in style advocates for the empowerment of the Alaska Native people by connecting not only with diverse perspectives but with the lived realities in the geographical spaces that have formed them In analyzing how these authors have succeeded in depicting the realities of alterities and where they have perhaps fallen short by more recent standards we may begin to carve out a system of ethics This is important as fresh waves of travel writers search for their own place in the environmental conversations surrounding the ever evolving 21st century Arctic and its place on the front lines of a changing climate
