Kennedy, 2025-02-04 How have navies contemplated possible enemies How did they learn or fail to learn once operations began How does this analysis inform today's planning for future conflict These questions guide the noted historians and naval strategists who contributed to Planning for War at Sea A central theme is the regular failure of navies' best laid plans Covering four centuries of naval warfare the chapters illustrate the challenges all navies faced when considering possible enemies Even during the Age of Sail ships were among the most expensive and long term national endeavors Navies therefore planned well in advance

for future wars usually without knowing their adversaries or how they would fight them at sea Building a capable navy requires sustained investment in naval infrastructure long before the fighting starts In the final chapters naval strategists expand on this historical analysis to address how effectively or ineffectively today s three leading navies Russia China and the United States have configured themselves during the post Cold War era in preparing for future great power conflict This collection is an important work for strategists scholars and policymakers The Chinese Army Today Dennis J.
