Understanding Criminal Law Rodger Geary, 2012-08-21 Understanding Criminal Law clarifies a subject which students often find somewhat difficult and confusing This difficulty stems partly from the rapid changes which criminal law undergoes through frequent statutory amendments and judicial decisions but more importantly from the sheer complexity of the subject matter This book provides a clear and concise text for those studying traditional black letter substantive criminal law The author takes a logical and straightforward approach specifically designed to enable the reader to quickly master the basic principles and ensure examination success Emphasis is given to major case law relevant statutory provisions and writings of academic commentators In selected areas the book evaluates the law and suggests possible reforms this evaluative aspect is

intended to stimulate the reader to think more critically about the subject without engendering confusion about basic principles. Although designed primarily for full time undergraduate LLB students the book should also prove useful for those studying criminal law on part time courses as well as those on Diploma in Law courses and students of A and AS Level Law. It is also ideal for the study of criminal law on modular courses and joint degrees.

Cases & Materials on Criminal Law

Michael T. Molan, 2005

This new edition of *Cases and Materials on Criminal Law* has been thoroughly updated to provide a comprehensive selection of key materials drawn from law reports, legislation, Law Commission consultation papers and reports and Home Office publications. Clear and highly accessible, this volume is presented in a coherent structure and provides full coverage of the topics commonly found in the criminal law syllabus. The range of thoughtfully selected materials and authoritative commentary ensures that this book provides an essential collection of materials and analysis to stimulate the reader and assist in the study of this difficult and challenging area of law. New features include revised text design with clear page layout, headings and boxed and shaded sections to aid navigation and readability, chapter introductions to highlight the salient features under discussion, short chapter table of contents to enable easier navigation, Comments and Questions sections to encourage students to reflect on their reading, expanded further reading to encourage students to engage further with the subject, a Companion Website to provide regular updates to the book. Recent decisions of note that are extracted and analysed include *R v Kennedy* (manslaughter based on supply of heroin), *Attorney General for Jersey v Holley* (provocation), *R v Mark* and *R v Willoughby* (elements of killing by gross negligence), *R v Barnes* (consent as a defence to sporting injuries), *Attorney General's Reference No 3 of 2004* (accessorial liability) and *R v Hatton* (intoxicated mistake in self defence cases). Consideration is also given to the likely changes to the law relating to corporate manslaughter at the time of writing contained in the Corporate Manslaughter and Corporate Homicide Bill currently before Parliament. Two major law reform publications are extensively extracted and contextualised in this 4th edition: the Law Commission's report on Murder, Manslaughter and Infanticide (Law Com No 304) and the Law Commission's Report on Inchoate Liability for Assisting and Encouraging Crime (Law Com 300). This book is an invaluable reference for students on undergraduate or CPE/PG Diploma in Law criminal law courses, particularly those studying independently or on distance learning programmes.
