

# Reclaiming Mission: Reflections on Mission as Global Interconnectedness and Spirit-Empowered Evangelism

ANICKA FAST<sup>1</sup>

I enjoyed participating in the panel “Perspectives from emerging leaders” at the Council of International Anabaptist Ministries 2018 plenary meeting. Here, I offer a selection from some of my actual responses to the questions asked by moderator Jamie Pitts, as well as some additional responses I had prepared but did not share at the time.

## **Share a significant experience that has given you perspective about global mission partnerships.**

As the daughter of parents who worked as missionary Bible translators in Papua New Guinea, I spent part of my childhood living on a large, fenced compound where several hundred expatriate missionaries lived alongside a few hundred more Papua New Guinean employees. I relatively often heard expatriate missionaries justify the task of Bible translation through appeal to an eschatological vision of many peoples, tribes, nations, and languages praising God together. They argued that making the Bible available to new people groups had value because it helped to bring this vision to fruition—essentially saying that Bible translation contributed to the fullness of the global church. However, this discourse about a global and multicultural church contrasted with the almost completely segregated worship that took place on Sunday mornings, where missionaries and Papua New Guineans worshipped separately for the most part. The incongruity I felt then has stuck with me ever since and has played a big part in leading me to theological studies that focus on ecclesiology.

**Recovering Jewishness** Frederick S. Roden, 2016-02-22 Judaism and Jewish life reflect a diversity of identity after the past two centuries of modernization This work examines how the early reformers of the 19th century and their legacy into the 20th century created a livable liberal Jewish identity that allowed a reinvention of what it

meant to be Jewish a process that continues today Many scholars of the modern Jewish identity focus on the ways in which the past two centuries have resulted in the loss of Jewishness through assimilation intermarriage conversion to other faiths genocide in the Holocaust and decline in religious observance In this work author Frederick S Roden presents a decidedly different perspective that the changes in Judaism throughout the 19th and 20th centuries resulted in a malleable welcoming and expanded Jewish identity one that has benefited from intermarriage and converts to Judaism The book examines key issues in the modern definition of Jewish identity who is and is not considered a Jew and why issues of Jewish authenticity and the recent history of the debate Attention is paid to the experiences of individuals who came to Judaism from outside the tradition through marrying into Jewish families and or choosing Judaism as a religion In his consideration of the tragedy of the Holocaust the author examines how a totalitarian regime s racial policing of Jewish identity served to awaken a connection with and reconfiguration of what that Jewish identity meant for those who retrospectively realized their Jewishness in the postwar era

Countering Coercion in Maritime Asia Michael Green,Kathleen Hicks,Zack Cooper,John Schaus,Jake Douglas,2017-05-24 In the past decade tensions in Asia have risen as Beijing has become more assertive in maritime disputes with its neighbors and the United States Although taking place below the threshold of direct military confrontation China s assertiveness frequently involves coercive elements that put at risk existing rules and norms physical control of disputed waters and territory and the credibility of U S security commitments Regional leaders have expressed increasing alarm that such gray zone coercion threatens to destabilize the region by increasing the risk of conflict and undermining the rules based order Yet the United States and its allies and partners have struggled to develop effective counters to China s maritime coercion This study reviews deterrence literature and nine case studies of coercion to develop recommendations for how the United States and its allies and partners could counter gray zone activity **Reclaiming**

Karl Barth and the Future of Evangelical Theology

Christian T Collins Winn, John L Drury, 2017-09-28 The theology of Karl Barth has often been a productive dialogue partner for evangelical theology but for too long the dialogue has been dominated by questions of orthodoxy Karl Barth and the Future of Evangelical Theology contributes to the conversation through a creative reconfiguration of both partners in the conversation neither of whom can be rightly understood as preservers of Protestant orthodoxy Rather American evangelicalism is identified with the revivalist forms of Protestantism that arose in the post Reformation era while Barth is revisited as a theologian attuned both to divine and human agency In the ensuing conversation questions of orthodoxy are not eliminated but subordinated to a concern for the life of God and God's people By offering an alternative to the dominant constraints this book opens up new avenues for fruitful conversation on Barth and the future of evangelical theology

**ReClaimed Church** Bill Henard, 2018-06-01 It's no secret churches are dying Tragically thousands of churches in the United States are shrinking some closing their doors forever The key to reversing these trends argues Bill Henard is for a local church to recognize where it is in the church life cycle Unless churches intentionally do something about it many of them will follow the same pattern from birth to plateau and eventually to death But if a church learns to identify its place within the life cycle and embraces the necessary processes it can return to growth In a day when church membership has decreased evangelistic zeal has cooled and budgets are disappearing ReClaimed Church is the tool that struggling churches need Having previously written and taught seminary courses on church revitalization Bill Henard uses his expertise to provide all the practical insights and instructions needed to reclaim your church

*Women and Missions: Past and Present* Shirley Ardener, Fiona Bowie, Deborah Kirkwood, 2021-02-25 This collection of essays by eminent anthropologists missiologists and historians explores the hitherto neglected topic of women missionaries and the effect of Christian missionary activity upon women The book consists of two parts The first part looks at 19th century women missionaries as presented in literature at the backgrounds and experience of women in the mission field and at the attitudes of missionary societies towards their female workers Although they are traditionally presented as wives and support workers it becomes apparent that on the contrary women missionaries often played a culturally important role The second and longest section asks whether women missionaries are indeed a special case and provides some fascinating studies of the impact of Christian missions on women in both historical material and a wealth of contemporary material Of particular value is the perspective of those who were themselves objects of missionary activity and who reflected upon this experience Women actively absorbed and adapted the teachings of the Christian missionaries and Western models are seen to be utilized and developed in sometimes unexpected ways
