## **Recognizing Spirituality The Interface Between Faith And Social Work:**

**Recognizing Spirituality** Rae Shirley Lindsay, 2002 Education in the helping professions has tended to adopt a secular view of human beings focusing on aspects of human behavior which are empirically measurable and avoiding the more irrational elements The religious beliefs and spiritual values of both students and clients have been ignored Rae Lindsay argues that this prevents students from fully exploring their own attitudes and biases and increases the likelihood that these personal values will be foisted on clients It also reduces the chances that practitioners will explore the spiritual factors influencing clients In a multicultural country such as Australia it is extraordinary that varied religious and spiritual beliefs should not be considered in the relationship between the professional and the client Pretending that these beliefs don't exist or are irrelevant is to ignore an important dimension of human existence and interaction Little has been written on this problem in an Australian cultural context This book presents opinions of social work educators and practitioners and statistics about Australian religious beliefs It also discusses the stages of faith development The persistence and strength of spiritual and religious beliefs is clear from all sources Rae Lindsay challenges the status quo and argues that spirituality and religion should be included in contemporary professional discourses

**Spirituality and Social Work** Beth R. Crisp, 2016-04-01 For much of the twentieth century professional social work sought to distance itself from its religious origins with the consequence being that the role of spirituality in the lives of service users tended to be sidelined Yet it is clear that many people begin to explore their spirituality precisely at times when they are trying to make sense of difficult life circumstances or experiences and may come into contact with social workers In recent years there has been an increasing understanding that in order to be relevant to the lives of people they work with social workers need to go beyond their material needs but there is little understanding of how spirituality can be sensitively incorporated into practice especially when either practitioners or service users have no religious affiliation or there is no shared religious background In this pathbreaking volume Beth Crisp offers social workers ideas of beginning

conversations in which spiritual values and beliefs may surface allowing service users to respond from their own framework and to begin to discuss the specific religious or spiritual practices and beliefs which are important to them She considers spirituality in the context of lived experience a perspective that she argues breaks down any mystique and suspicion of explicitly religious language by focusing on language and experiences with which most people can identify Such a framework allows exploration of issues that emerge at different stages in the lifespan both by persons who are religious and those who do not identify with any formal religion Most literature on spirituality within social work refers to the elderly to those who are sick or have been bereaved yet as Crisp points out spirituality is important for people of all ages and not just at seemingly exceptional moments

**Spirituality and Social Work** Margaret Holloway, Bernard Moss, 2010-05-07 Written by two leading authors in the field Social Work and Spirituality provides a critical engagement with the concept of spirituality and a much needed framework for the integration of spiritual care in mainstream practice It is fundamental reading for all students of social work theory ethics and practice

*Spiritual Diversity in Social Work Practice* Edward R. Canda, Leola Dyrud Furman, 2010 Weaving together interdisciplinary theory and research as well as the results from a national survey of practitioners the authors describe a spiritually oriented model for practice that places clients challenges and goals within the context of their deepest meanings and highest aspirations Using richly detailed case examples and thought provoking activities this highly accessible text illustrates the professional values and ethical principles that guide spiritually sensitive practice It presents definitions and conceptual models of spirituality and religion draws connections between spiritual diversity and cultural gender and sexual orientation diversity and offers insights from Buddhism Christianity Confucianism Hinduism Indigenous religions Islam Judaism Existentialism and Transpersonal theory Eminently practical it guides professionals in understanding and assessing spiritual development and related mental health issues and outlines techniques that support transformation and resilience such as meditation mindfulness ritual forgiveness and engagement of individual and community based spiritual support systems

Promoting Health and Well-being in Social Work Education Beth R. Crisp, Liz Beddoe, 2013-10-18 Social work educators can play an important part in ensuring that the promotion of health and well being is firmly on the social work agenda for service users as well as for students and educators Nevertheless this has not been a priority within social work education and presents a challenge which requires some re thinking in terms of curriculum content pedagogy and how social workers respond to social problems Furthermore if the promotion of health and well being is not considered a priority for social workers this raises important questions about the role and relevance of social work in health and thus poses challenges to social work education both now and in the future This book contains contributions from social work educators from Australia America Canada New Zealand and the UK They reflect on how best to prepare students to put health and well being to the forefront of practice drawing on research on quality of life subjective well being student well being community participation and social connectedness religion and spirituality mindful practices
