The Life of John Marshall Albert Jeremiah Beveridge, 2005-01-01 John Marshall 1755 1835 became the fourth chief justice of the U S Supreme Court despite having had almost no formal schooling and after having studied law for a mere six weeks Nevertheless Marshall remains the only judge in American history whose distinction derives almost entirely from his judicial career During Marshall's nearly 35 year tenure as chief justice he wielded the Constitution's awe inspiring power aggressively and wisely setting the Supreme Court on a course for the ages by ensuring its equal position in the triumvirate of the federal government of the United States and securing its role as interpreter and enforcer of the Constitution Marshall's judicial energies were as unflagging as his vision was expansive This four volume life of Marshall received wide acclaim

upon its initial publication in 1920 winning the Pulitzer Prize that year and makes fascinating reading for the lawyer historian and legal scholar

American Literature and the Culture of Reprinting, 1834-1853 Meredith L. McGill, 2013-10-11 The antebellum period has long been identified with the belated emergence of a truly national literature And yet as Meredith L McGill argues a mass market for books in this period was built and sustained through what we would call rampant literary piracy a national literature developed not despite but because of the systematic copying of foreign works Restoring a political dimension to accounts of the economic grounds of antebellum literature McGill unfolds the legal arguments and political struggles that produced an American culture of reprinting and held it in place for two crucial decades In this culture of reprinting the circulation of print outstripped authorial and editorial control McGill examines the workings of literary culture within this market shifting her gaze from first and authorized editions to reprints and piracies from the form of the book to the intersection of book and periodical publishing and from a national literature to an internally divided and transatlantic literary marketplace Through readings of the work of Dickens Poe and Hawthorne McGill seeks both to analyze how changes in the conditions of publication influenced literary form and to measure what was lost as literary markets became centralized and literary culture became stratified in the early 1850s American Literature and the Culture of Reprinting 1834 1853 delineates a distinctive literary culture that was regional in articulation and transnational in scope while questioning the grounds of the startlingly recent but nonetheless powerful equation of the national interest with the extension of authors rights

1767-1814 James Parton, 1861

William Cooper's Town Alan Taylor, 2018-11-28 William Cooper and James Fenimore Cooper a father and son who embodied the contradictions that divided America in the early years of the Republic are brought to life in this Pulitzer Prize winning book William Cooper rose from humble origins to become a wealthy land speculator and U S congressman in what had until lately been the wilderness of upstate New York but his high handed style

of governing resulted in his fall from power and political disgrace His son James Fenimore Cooper became one of this country's first popular novelists with a book *The Pioneers* that tried to come to terms with his father's failure and imaginatively reclaim the estate he had lost In William Cooper's *Town* Alan Taylor dramatizes the class between gentility and democracy that was one of the principal consequences of the American Revolution a struggle that was waged both at the polls and on the pages of our national literature Taylor shows how Americans resolved their revolution through the creation of new social reforms and new stories that evolved with the expansion of our frontier **Genesee Farmer** ,1857
