Reconciliation Restoring Justice:

Reconciliation John W. De Gruchy, 1872 Whether born in the Mideast Africa Asia or brought home to the streets of America violent hatreds often threaten to swamp the minimal cooperation needed to foster life and health Does Christianity have anything besides warmed over pieties to offer a world torn by estrangement alienation and violently opposed worldviews In this signal contribution to public theology John de Gruchy an internationally esteemed political theologian emphatically affirms the possibility and necessity of reconciliation For Christians he says reconciliation is the center and perennial test of their faith De Gruchy expands reconciliation s relevance beyond personal piety and ecclesial harmony to encompass group relations politics and even the environment In all cases he argues it involves the restoration of justice Forged in the recent experience of South Africa his work delineates the political and ecclesial significance of reconciliation and shows its importance for interreligious relations addressing victimization and international peace Reconciliation will be welcomed by all whose faith leads them to help alleviate the world s mounting agonies

Restoring Justice Daniel W. Van Ness, Karen Heetderks Strong, Jonathan Derby, L. Lynette Parker, 2022-05-30 Restoring Justice An Introduction to Restorative Justice Sixth Edition offers a clear and convincing explanation of restorative justice a movement within criminal justice with ongoing worldwide influence The book explores the broad appeal of this vision and offers a brief history of its roots and development as an alternative to an impersonal justice system focused narrowly on the conviction and punishment of those who break the law Instead restorative justice emphasizes repairing the harm caused or revealed by criminal behavior using cooperative processes that include all the stakeholders The book presents the theory and principles of restorative justice and discusses its four cornerpost ideas Inclusion Encounter Repair and Cohesion Multiple models for how restorative justice may be incorporated into criminal justice are explored and the book proposes an approach to assessing the extent to which programs or systems are actually restorative in practice The authors also suggest six strategic objectives to significantly expand the use and reach of restorative justice and recommended tactics to make progress towards the acceptance and adoption of restorative programs and systems

Restoring Justice after Large-scale Violent Conflicts Ivo Aertsen, Jana Arsovska, Holger-C Rohne, Marta Valiñas, Kris Vanspauwen, 2013-05-13 This book provides a comparative analysis of the potential of restorative justice approaches to dealing with mass victimization in the context of large scale violent conflicts focusing on case studies from Kosovo Israel Palestine and Congo incorporating contributions from leading authorities in these areas One of the main objectives of the book is to examine if how and to what extent restorative justice is applicable in various different cultural social and historical contexts and what common themes can be identified within the different regions under analysis The book will also provide a critical analysis of the UN Basic Principles on the use of restorative justice programmes in criminal matters as applied to the context of large scale violence

Restorative Justice in Transition Kerry Clamp, 2013-09-05 This book explores how restorative justice is used and what its potential benefits are in

situations where the state has been either explicitly or implicitly involved in human rights abuses Restorative justice is increasingly becoming a popular mechanism to respond to crime in democratic settings and while there is a burgeoning literature on these contexts there is less information that focuses explicitly on its use in nations that have experienced protracted periods of conflict and oppression This book interrogates both macro and micro utilisations of restorative justice including truth commissions criminal justice reform and the development of initiatives by communities and other non state actors The central premise is that the primary potential of restorative justice in responding to international crime should be viewed in terms of the lessons that it provides for problem solving rather than its traditional role as a mechanism or process to respond to conflict Four values are put forward that should frame any restorative approach engagement empowerment reintegration and transformation It is thought that these values provide enough space for local actors to devise their own culturally relevant processes to achieve longstanding peace This book will be of interest to those conducting research in the fields of restorative justice transitional justice as well as criminology in general

Restorative Justice in Transitional Settings Kerry Clamp, 2016-02-12 Restorative justice is increasingly being applied to settings characterized by large scale violence and human rights abuses While many embrace this development as an important step in attempts to transform protracted conflict there are a number of conceptual challenges in transporting restorative justice from a democratic setting to one which has been affected by mass victimisation or civil war These include responding to the seriousness and scale of harms that have been caused the blurred boundaries between victims and offenders and the difficulties associated with holding someone to account and compelling reparative activities Despite reams of paper being devoted to defining restorative justice within democratic settings where the concept first emerged restorative scholars have been slow to comment on the integration of restorative justice into the transitional justice discourse Restorative Justice in Transitional Settings brings together a number of leading scholars from around the world to respond to this gap by developing and further articulating restorative justice for transitional settings These scholars push the boundaries of restorative justice to seek more effective approaches to addressing the causes and consequences of conflict and oppression in these diverse contexts Each chapter highlights a limitation with current conceptions of restorative justice in the transitional justice literature and then suggests a way in which the limitation might be overcome This book has strong interdisciplinary value and will be of interest to criminologists legal scholars and those engaged with international relations and peace treaties

Restorative Justice, Reconciliation, and Peacebuilding Jennifer J. Llewellyn, Daniel Philpott, 2014 This book develops the twin concepts of restorative justice and reconciliation as frameworks for peacebuilding that contain great potential for addressing common dilemmas peace versus justice religious versus secular approaches individual versus structural justice reconciliation versus retribution and the harmonization of the sheer multiplicity of practices involved in repairing past harms

The Realities of International Criminal Justice Dawn L. Rothe, James D. Meernik, Thordis Ingadóttir, 2013-07-11 In

The Realities of the International Criminal Justice System Rothe Meernik and Ingrid ttr bring together expert scholars from the disciplines of law criminology sociology and political science to critically analyse the current state of and impact of the international criminal justice system Through a systematic evaluation of the existing courts and their effects in the real world on states victims and offenders and their impact on the development of the law related to their jurisdictions both on the international and national level the authors hope that lessons can be drawn for a more promising future delivery of criminal justice by international and domestic judicial bodies

Restorative Justice on Trial H. Messmer, H.U. Otto, 2013-06-29 Victim offender mediation schemes have experienced significant growth in the last decade They are seen as an important and innovative alternative to the traditional sanctions of the criminal justice system After a critical look at mediation schemes in the United States and Canada most European countries have also increased their efforts to develop informal strategies to deal with deviant behavior In terms of their legal and organizational base it turns out that type extent and capacities for development are quite different in the individual countries resulting in a remarkable diversity of programs with different outcomes The contributions in this book are revised and edited versions of papers presented at the NATO Advanced Research Workshop Conflict Crime and Reconciliation The Organization of Welfare Intervention in the Field of Restitutive Justice in April 1991 at Il Ciocco Italy The chapters document the present stage of restorative justice in the individual countries critically assess legal constraints and public needs discuss the organizational requirements of implementation and also evaluate outcomes in a broader context of crime and social policy In the long run this book should encourage further debates in the field of restorative justice and help build valid guidelines for an international evaluation research

Justice on the Cross Kathleen Christison, 2023-03-09 At its heart liberation theology is a modern theology of resistance to the oppression imposed by colonialist and post colonialist systems and even by churches that cooperate with secular centers of power to oppress the poor and disadvantaged It is a grassroots social justice theology a *cri de c ur* that seeks to give spiritual succor and hope to those living in seemingly hopeless circumstances Palestinians a people whose suffering has largely been forgotten by the world since Israel s establishment and who are most often stereotyped as extremists and enemies of Israel with no legitimate claim to their own homeland are among the world s most marginalized populations The small Palestinian Christian community an indigenous population descended from Jesus s first followers has created a liberation theology for the Palestinian context that reaches out to its own Christian faithful and their Muslim compatriots This is a nonviolent political theological resistance that follows Jesus s teaching that God is present with all God s children and heeds Jesus s gospel injunctions to comfort the suffering and let the oppressed go free For Palestinians their very survival in the land is resistance to Israel s efforts to remove them and liberation theology sustains their resistance Jesus was the first liberation theologian

Restorative Justice Marian Liebmann, 2007 Provides an accessible introduction to the philosophy of restorative justice and its application in a wide range of settings demonstrating how it can help to rehabilitate both victims

and offenders when harm has been done **Restoring Justice and Security in Intercultural Europe** Brunilda Pali,Ivo Aertsen,2017-09-14 The intercultural contexts and new configurations in Europe offer fertile ground for social conflict tensions and threat This book challenges predominant and fear inducing approaches of justice and security as they appear in intercultural contexts and develops alternative understandings by exploring both theoretically and empirically the potential of dialogic and restorative justice oriented actions in sensitive areas of living together The book offers unique opportunities for rethinking frames of in justice in security and their intersections and for reshaping European practices and policies in a more sustainable way This book is based on an innovative and exploratory action research project in four European countries which challenges the obsessive focus on security concerns the merging of the security discourse with intercultural contexts and the emphasis on technology and surveillance as a way to conceive the doing of security Both the project and the book offer another vision on what security means and how it can be done by multiplying participatory encounters between different groups in society promoting opportunities for deliberations and dialogue about alternative forms of conviviality The book is one of two volumes resulting from the work by a group of researchers in six European countries having cooperated intensively during four years in ALTERNATIVE an action research project funded under the EU Seventh Framework Programme **Restorative Justice for Juveniles** Allison Morris,Gabrielle Maxwell,2001-06-29 Internationally there is now an acceptance of the need to develop new strategies in criminal justice which reflect restorative justice principles At the same time theory research and practice in restorative justice is making rapid advances This book provides an up to date and critical account of recent developments It describes the practice of restorative justice with respect to young offenders in a number of jurisdictions Australia Canada England New Zealand South Africa the United States and various continental European countries Research findings on the three most common formats conferencing victims offender mediation and circles are presented Critical issues for the future development of restorative justice are identified Two main themes run through the collection the potential of restorative processes to transform criminal justice processes and the potential for aboriginal or indigenous communities to impact on conventional processes Contributors include active researchers and leading theorists from around the world *Child Soldiers and Restorative Justice* Jean Chrysostome K. Kiyala,2018-07-18 This book investigates how while children used as soldiers are primarily perceived as victims of offences against international law they also commit war atrocities In the aftermath of armed conflict the mainstream justice system targets warlords internationally armed groups and militias commanders who abduct and enrol children as combatants leaving child perpetrators not being held accountable for their alleged gross human rights violations Attempts to prosecute child soldiers through the mainstream justice system have resulted in child rights abuses Where no accountability measures have been taken demobilised young soldiers have experienced rejection and eventually some have returned to soldiering This research provides evidence of the potential of restorative justice peacemaking circles and locally based jurisprudence specifically the

Baraza to hold former child soldiers accountable and facilitate their reintegration into society
