Handbook of Girls' and Women's Psychological Health Carol D. Goodheart, 2006

The *Handbook of Girls and Women's Psychological Health* presents a contemporary view of psychological health for girls and women that integrates psychology, physiology, society, and culture. A range of 50 chapters integrates current research, scholarship, and practice on the risks and protective factors that influence women's health and well-being across the life span. Within a biopsychosocial framework, the *Handbook* explores mind and body risks and resilience, research and interventions, cultural diversity, and public policy. This *Handbook* underscores the importance of gender in the lives of girls and women developmentally across significant phases of the life span. Considering the importance of cultural context, this book illustrates how gender socialization in female development and behavior affects self-evaluation, identity processes, and the social roles that girls and women adopt. Its chapters illustrate how externally induced risks, such as poverty, discrimination, and violence, present challenges to healthy development. Significantly, the chapters also draw attention to long-overlooked and compelling strengths and capacities that provide a firm basis for growth and health.

Matricentric Feminism: Theory, Activism, Practice. The 2nd Edition Andrea O'Reilly, 2021-04-04

The 2nd edition includes a new preface that considers how matricentric feminism in positioning mothering as a verb affords a gender-neutral understanding of motherwork and allows for an appreciation of how motherwork is deeply gendered and how this may be challenged and changed through empowered mothering. The book argues that the category of mother is distinct from the category of woman and that many of the problems mothers face are specific to women's role and identity as mothers. Indeed, mothers are oppressed under patriarchy as women and as mothers.

Consequently mothers need a feminism of their own one that positions mothers concerns as the starting point for a theory and politic of empowerment O Reilly terms this new mode of feminism matricentric feminism and the book explores how it is represented and experienced in theory activism and practice

In (M)other Words Andrea O'Reilly,2024-04-30 Dr Andrea O Reilly is internationally recognized as the founder of Motherhood Studies 2006 and its subfield Maternal Theory 2007 and creator of the concept of Matricentric Feminism a feminism for and about mothers 2016 and Matricritics a literary theory and practice for a reading of mother focused texts 2021 With this collection O Reilly continues the conversation on the meaning and nature of motherhood initiated by Adrienne Rich in *Of Woman Born* close to fifty years ago In *In M other Words* O Reilly shares 25 of her chapters and articles published between 2009 2024 to examine the oppressive and empowering dimensions of mothering and to explore motherhood as institution experience subjectivity and empowerment The collection considers the central themes and theories of motherhood studies including normative motherhood feminist mothering maternal regret matricentric pedagogy young mothers academic motherhood matricentric feminism matricritics motherhood and feminism the motherhood memoir the twenty first century motherhood movement mothers and daughters mothers and sons pandemic mothering and the motherline

Men in the Pulpit, Women in the Pew? H. Jurgens Hendriks,Elna Mouton,L. D Hansen,Elisabet Le Roux,2012-07-01 *Men in the pulpit women in the pew* Addressing gender inequality in Africa is that rarest of gems a work that takes a fresh look at familiar biblical teachings and cause us to question what we have been accepting as a matter of course for so long

Child's Play Michael A. Messner,Michela Musto,2016-05 Is sport good for kids When answering this question both critics and advocates of youth sports tend to fixate on matters of health whether condemning contact sports for their concussion risk or prescribing athletics as a cure for the childhood obesity epidemic *Child s Play* presents a more nuanced examination of the issue considering not only the physical impacts of youth athletics but its psychological and social ramifications as well The eleven original scholarly essays in this collection provide a probing look into how sports in community athletic leagues in schools and even on television play a major role in how young people view themselves shape their identities and imagine their place in society Rather than focusing exclusively on self proclaimed jocks the book considers how the culture of sports affects a wide variety of children and young people including those who opt out of athletics Not only does *Child s Play* examine disparities across lines of race class and gender it also offers detailed examinations of how various minority populations from transgender youth to Muslim immigrant girls have participated in youth sports Taken together these essays offer a wide range of approaches to understanding the sociology of youth sports including data driven analyses that examine national trends as well as ethnographic research that gives a voice to individual kids *Child s Play* thus presents a comprehensive and compelling analysis of how for better and for worse the culture of sports is integral to the development of young people and with them the future of our society

Women and Politics Lynne Ford,2018-05-15 *Women and Politics* is a comprehensive examination of women s use of politics in pursuit of gender equality

How can demands for gender equality be reconciled with sex differences? Resolving this paradoxical question has proceeded along two paths: the legal equality doctrine which emphasizes gender neutrality and the fairness doctrine which recognizes differences between men and women. The text's clear analysis and presentation of theory and history helps students to think critically about the difficulties faced by women in politics and about how public policies in education, labour, and the economy and family and fertility impact gender equality. The fully revised fourth edition explores new critical perspectives, recent political events and current challenges to gender equality including the 2016 presidential election and Hillary Clinton's candidacy, the fight for equal pay and paid leave and the debate over reproductive rights and campus sexual assault. It also includes current scholarship on the intersections of race, class and gender and expanded coverage of minority women, women in the military and conservative women. This text and its two-path framework is essential to understanding women's pursuit of equality via the political system.

Intergroup Dialogue in Higher Education: Meaningful Learning About Social Justice Ximena Zuniga, Biren (Ratnesh) A. Nagda, Mark Chesler, Adena Cytron-Walker, 2011-10-13. Intergroup dialogue promotes student engagement across cultural and social divides on college campuses through a face-to-face interactive and facilitated learning experience that brings together twelve to eighteen students from two or more social identity groups over a sustained period of time. Students in intergroup dialogue explore commonalities and differences, examine the nature and impact of discrimination, power and privilege and find ways of working together toward greater inclusion, equality and social justice. Intergroup dialogue is offered as a cocurricular activity on some campuses and as a course or part of a course on others. The practice of intergroup dialogue is considered a substantive and meaningful avenue for preparing college graduates with the knowledge, commitment and skills essential for living and working in a diverse yet socially stratified society. The research evidence supports the promise of intergroup dialogues to meet its educational goals: consciousness-raising, building relationships across differences and conflicts and strengthening individual and collective capacities to promote social justice. This volume outlines the theory, practice and research on intergroup dialogue. It also offers educational resources to support the practice of intergroup dialogue. Addressing faculty, administrators, student affairs personnel, students and practitioners, this volume is a useful resource for anyone implementing intergroup dialogues in higher education. This is the 4th issue of the 32nd volume of the Jossey-Bass report series ASHE Higher Education Report Series. Each monograph in the series is the definitive analysis of a tough higher education problem based on thorough research of pertinent literature and institutional experiences. Topics are identified by a national survey. Noted practitioners and scholars are then commissioned to write the reports with experts providing critical reviews of each manuscript before publication.
