Giovanni Battista Rubini and the Bel Canto Tenors Dan H. Marek, 2013-06-06 Giovanni Battista Rubini 1794 1854 was a legendary tenor and the first 19th century non castrati male singer to become an international star of opera The previous two centuries had been the era of the castrati with tenors and basses relegated to character and supporting roles in the operas of their time Rubini stood apart because he not only matched the castrati in coloratura and pathos but he also had an extraordinarily high voice With Rubini's rise and in his wake several tenors came to sing roles written specifically for them by Rossini Bellini Donizetti and many other lesser known bel canto composers Signaling the end of the dominance of castrati on stage this period would last some forty years until the advent of grand opera Wagner and Verdi and the appearance of the first so called High C from the chest by Gilbert Louis Duprez in 1837 Since then the accepted tenor sound has followed the tradition epitomized by

Enrico Caruso and in our own era Luciano Pavarotti and Placido Domingo Many composers conductors and performers would come to regard bel canto dramatic operas as decorative and vapid until Maria Callas and Tulio Serafin demonstrated the heights this genre of opera could reach However opera directors and opera performers of late who have expressed an interest in reviving selected masterpieces from the bel canto tradition have found themselves confronted with the problem of locating tenors versed in the vocal techniques necessary to carry the high tessituras In Giovanni Battista Rubini and the Bel Canto Tenors History and Technique Dan H Marek explores the extraordinary life of Rubini in order to frame this special period in the history of opera and connect the technique of the castrati who were among Rubini s instructors Drawing on the work of Berton Coffin Marek offers long sought answers to the challenges presented by high tessitura of bel canto operas for tenors To further assist working singers Giovanni Battista Rubini and the Bel Canto Tenors includes over sixty pages of exercises written by Rubini himself before 1840 which Marek for the first time ever has adapted to acoustical phonetics Professional singers teachers and their students vocal coaches and opera conductors will find this work indispensable as the only English language work on high tessitura for tenor and soprano singing *Giacomo Puccini* Roger Flury,2012-06-21 Opera recordings have been with us since the creation of the first wax cylinders Now at a time when the 25 year reign of the compact disc appears to be coming to an end is the moment to take stock of the history of recordings of arguably the most popular composer of operas Giacomo Puccini In Giacomo Puccini A Discography librarian and music historian Roger Flury looks at each opera chronologically from Le Villi to Turandot followed by sections on Puccini s instrumental chamber orchestral and solo vocal works Details of each complete opera are listed by recording date followed by excerpts in the order in which they occur in the opera Recordings of each aria are listed alphabetically by the name of the artist For ease of use Flury establishes as the main criteria for inclusion those recordings assigned a commercial issue number and available for purchase This book does not limit itself to mainstream recordings but includes as well unofficial recordings taken from broadcasts or illegally recorded in theaters ensuring that the audio recording history of Puccini is free of gaps Video and DVD issues whether of staged performances or excerpts in concert are not included unless they have been issued in a sound only format This volume brings together information on nearly 10 000 recordings of Puccini s music It provides a comprehensive overview of the recorded history of the composer s works and serves as a useful guide for the transfer of recordings from one format to another *Dictionary Catalog of the Rodgers and Hammerstein Archives of Recorded Sound* Rodgers and Hammerstein Archives of Recorded Sound,1981 *Singing* Dan Marek,2007 The Italian singing technique Bel Canto instructs He who knows how to breathe and how to pronounce knows how to sing Singing The First Art incorporates the techniques of Bel Canto along with those of masters like Berton Coffin and Manuel Garcia to promote and facilitate vocal excellence Many concepts are described from correct posture and alignment to improving and maintaining proper breathing from good pronunciation and diction to producing an even pure tone and from vocal ranges to singing within and smoothly

shifting between vocal registers Mannes Vocal Faculty member Dan H Marek effectively breaks down these complicated concepts with clear exercises helping the vocal student to achieve freedom and complete control over his or her instrument A primary section on the history of singing stresses the importance of understanding vocal history while inspiring and motivating the student through the experiences of opera stars such as Enrico Caruso Maria Callas and Jussi Björling The second section explains vocal techniques including the use and proper pronunciation of the IPA International Phonetic Alphabet and provides 64 specific exercises with clearly defined goals designed to overcome faults and to develop vocal virtuosity Complete instructions for transposing the exercises for both male and female voices are included as well as drawings of the exercises musical examples from vocal literature excellent anatomical illustrations by Frank Netter MD and copious photographs of opera stars Singing The First Art is an invaluable text for students professionals singers conductors composers and vocal medical professionals or anyone interested in understanding and appreciating the vocal art
