Risk Perception, Awareness and Prevention Measures to Reduce Underage Drinking and the Illegal Purchase of Alcohol in Malta Duncan Aaron Borg Ellul, 2008-05 This dissertation examines the social context of underage drinking in terms of crime mental disorder and social disability The perception of risk and awareness of Maltese young people plays a significant role in the study Through this study it was found out that underage drinking in Malta is a problem and that students have misconception about Laws on alcohol It was also established that the Law in Malta is neither being supported by the community nor strictly enforced The study has reviewed the literature which documented the importance nature and extent of underage alcohol use in Malta During the course of study it was determined that young people are subjected to excessive pressure from school parents peers and or other social reasons The literature review has shown that if a person abuses alcohol he or she might become an alcoholic Whilst drinking may be seen as normative and

socialised behaviour binge drinking in young people is linked to risk taking sex fights accidental injuries suicide deaths and crime The literature also revealed that the younger a person begins to drink the greater the chance he or she will develop a problem with alcohol later in life Based on the study being conducted suggestions and recommendations are proposed on the wide range of strategies from stricter enforcement of the Laws relating to the sale of alcohol to minors to prevention

treatment rehabilitation and after care **Integrated Risk Management for Leisure Services** Robert B. Kauffman, Merry Lynn Moiseichik, 2013-01-30 Integrated Risk Management for Leisure Services provides both students and professionals with a systematic approach to safety By integrating risk management accident prevention and emergency response with information on legal liability Integrated Risk Management for Leisure Services enables leisure service providers to implement strategies to reduce or eliminate bodily injury property damage and financial loss Integrated Risk Management for Leisure Services uses a four phase integrated risk management model The first three phases focus on negligence the accident process and risk management plans to reduce or eliminate injury damage or loss The fourth phase focuses on what to do after an incident occurs to reduce the impact of injury damage or loss Integrated Risk Management for Leisure features several unique aspects for students and professionals in the recreation and park field It covers safety prevention and accident processes in the recreation and parks field Then it addresses how to manage the post incident situation to reduce impacts Last the text integrates these two new areas with the traditional areas of legal liability and risk management planning in an effort to provide safer recreation and park programs **Flood and Coastal Erosion Risk Management**
