John Hassard Martin Parker

Recurrent Melody:

Musica Ficta Philippe Lacoue-Labarthe, 1994 This is a pioneering attempt to rearticulate the relationship between music and the problem of mimesis of presentation and re presentation Four scenes compose this book all four of them responses to Wagner two by French poets Baudelaire and Mallarmé two by German philosophers Heidegger and Adorno It is difficult today to realize how profoundly Wagner affected the cultural and ideological sensibilities of the nineteenth century Wagnerism rapidly spread throughout Europe partly because of Wagner's propagandizing talent and the zeal of his adherents But the main reason for his ascendancy was the sudden appearance of what the century had desperately tried to produce since the beginnings of Romanticism a work of art on the scale of great Greek and Christian art Finally here it was the secret of what Hegel called the religion of art rediscovered The first two scenes of the book contemporary with the European triumph of Wagnerism inscribe themselves in a historical sequence that is punctuated by the Franco Prussian War and the Paris Commune in which the universal unbridling of nations and classes is prefigured The second two register certain effects of Wagnerism that are not just ideological but make themselves felt in a new political configuration that solidifies a confusion between the national and the social Art and politics are both at play here but as neither a politics of art nor even less an art of politics Instead what is at stake more gravely is the aestheticization the figuration of the political The four scenes frame and clarify the true scene that sanctioned Nietzsche's rupture with Wagner the major philosophical event that Heidegger in 1938 said it was imperative to understand as a turning point in Western history **The Promise** Leonard

Shengold, 2018-05-15 Our sense of identity begins our psychological birth sometime in the first year of life with the feeling that we are the centre of the universe protected by godlike benevolent parents who will enable us to live happily ever after This is the Promise that is never given up lurking in the unconscious part of our minds We must learn reluctantly that our parents are unable to protect us from the passage of time from decline and from death Yet we retain even as adults the delusion that while others may die we never will This adds fuel to the murderous anger we are born with and must master alongside the contradictory vertical split in the mind that we are destined to die The Promise is described in patients and in examples from biography and fiction in relation to anniversaries and specific holidays The book ends with a specific illustration in relation to an eight month old infant

acclaimed earlier title he described how language emerged both as a communicative tool and as a means of fashioning other communicative tools stories songs and rituals In Neopoetics Collins turns his attention to the cognitive evolution of the writing ready brain Further integrating neuroscience into the popular field of cognitive poetics he adds empirical depth to our study of literary texts and verbal imagination and offers a whole new way to look at reading writing and creative expression Collins begins Neopoetics with the early use of visual signs first as reminders of narrative episodes and then as conventional symbols representing actual speech sounds Next he examines the implications of written texts for the play of the auditory and visual imagination To exemplify this long transition from oral to literate artistry Collins examines a wide array of classical texts from Homer and Hesiod to Plato and Aristotle and from the lyric innovations of Augustan Rome to the inner dialogues of St Augustine In this work of big history Collins demonstrates how biological and cultural evolution collaborated to shape both literature and the brain we use to read it *The Christian Science Journal* ,1910

Contributions to a Historical Study of Jewish Music Eric Werner,1976 **Jungian Music Psychotherapy** Joel Kroeker,2019-04-26 Music is everywhere in our lives and all analysts are witness to musical symbols arising from their patient s psyche However there is a common resistance to working directly with musical content Combining a wide range of clinical vignettes with analytic theory Kroeker takes an in depth look at the psychoanalytic process through the lens of musical expression and puts forward an approach to working with musical symbols within analysis which he calls Archetypal Music Psychotherapy AMP Kroeker argues that we have lost our connection to the simple vital immediacy that musical expression offers By distilling music into its basic archetypal elements he illustrates how to rediscover our place in this confrontation with deep psyche and highlights the role of the enigmatic musical psyche for guiding us through our life Innovative and interdisciplinary Kroeker s model for working analytically with musical symbols enables readers to harness the impact of meaningful sound allowing them to view these experiences through the clarifying lens of depth psychology and the wider work of contemporary psychoanalytic theory Jungian Music Psychotherapy is a groundbreaking introduction to the ideas of Archetypal Music Psychotherapy that interweaves theory with clinical examples It is essential reading for Jungian analysts psychotherapists psychoanalysts music therapists academics and students of Jungian and post Jungian studies music studies consciousness studies and those interested in the creative arts [Shaping a Monastic Identity](#) Susan Boynton,2006 During the eleventh and early twelfth centuries the imperial abbey of Farfa was one of the most powerful institutions on the Italian peninsula In this period many of the lands of central Italy fell under its sway and it enjoyed the protection of the emperor until the 1120s when it passed gradually into the control of the papacy At the same time the monastery was an influential religious center and the monks of Farfa filled their days with the celebration of the liturgy through prayers processions sermons chants and hymns Susan Boynton a historian of medieval music addresses several of the major themes of present day medieval historiography through a close study of the liturgical practices of the abbey of Farfa Boynton s

findings are a striking demonstration of the local nature of liturgical practices in the centuries before church ritual was controlled and codified by the papacy Boynton shows that the liturgy was highly flexible continually adapting to the monastery's changing circumstances The monks regularly modified traditional forms to reflect new realities often in the service of Farfa's power and prestige Equally fascinating is Boynton's examination of the process by which Farfa like other monasteries cathedral chapters and royal houses constantly rewrote its history particularly the stories of its founding as part of the continuous negotiation of power that was central to medieval politics and culture Analyzing East Asian music.

Eighteenth-Century Naples Anthony R. DelDonna, 2016-05-13 The operatic culture of late eighteenth century Naples represents the fullest expression of a matrix of creators practitioners theorists patrons and entrepreneurs linking aristocratic public and religious spheres of contemporary society The considerable resonance of Neapolitan opera in Europe was verified early in the eighteenth century not only through voluminous reports offered by locals and visitors in gazettes newspapers correspondence or diaries but also and more importantly through the rich and tangible artistic patrimony produced for local audiences and then exported to the Italian peninsula and abroad Naples was not simply a city of entertainment but rather a cultural epicenter and paradigm producing highly innovative and successful genres of stage drama reflecting every facet of contemporary society Anthony R DelDonna provides a rich study of operatic culture from 1775 1800 The book demonstrates how contemporary stage traditions stimulated by the Enlightenment engaged with and responded to the changing social political and artistic contexts of the late eighteenth century in Naples It focuses on select yet representative compositions from different genres of opera that illuminate the diverse contemporary cultural forces shaping these works and underlining the continued innovation and European recognition of operatic culture in Naples It also defines how the cultural milieu of Naples aristocratic and sacred private and public exercises a profound yet idiosyncratic influence on the repertory studied the creation of which could not have occurred elsewhere on the Continent *David Lewin's Morgengruß* David
