Materials Matter Ken Geiser, 2001-05-25 The products we purchase and use are assembled from a wide range of naturally occurring and manufactured materials But too often we create hazards for the ecosystem and human health as we mine process distribute use and dispose of these materials Until recently most research has focused on the waste end of material cycles This book argues that the safest and least costly point at which to avoid environmental damage is when materials are first designed and selected for use in industrial production Materials Matter presents convincing evidence that we can use fewer materials and eliminate the use of many toxic chemicals by focusing directly on material chemical use when products are designed It also shows how manufacturers can save money by increasing the effectiveness of material use and reducing the use of toxic chemicals It advocates new directions for the material sciences and government policies on materials And it argues that manufacturers suppliers and customers need to set more socially responsible policies for products and services to achieve higher environmental and health goals

State of the World, 1995 *Water and Wastewater Management in the Tropics* Jens Lonholdt, 2005-05-31 Water and Wastewater Management in the Tropics provides the necessary conceptual framework and tools to assess all appropriate aspects of water and sanitation projects in developing countries Using the lessons learned from courses taught at the Technical University of Denmark Water and Wastewater Management in the Tropics is the concerted effort of a broad team including hard core engineers and practitioners as well as soft core environmental and institutional planners and economists with contributions from renowned researchers as well as seasoned project managers The first part of the book aims to give a basic understanding of international projects and addresses how to identify formulate select organise cost finance implement and manage water and wastewater management projects in developing countries Later chapters focus on three different types of water and wastewater management projects in a tropical context rural water

and sanitation urban water and wastewater management and industrial water and wastewater management Water and Wastewater Management in the Tropics will appeal to graduate environmental engineering students but also to practitioners economists sociologists and institutional planners working with water and sanitation projects in developing countries

Sustainable Agriculture in Print Louis L'Amour,1998-12 An annotated bibliography of current books on sustainable and alternative agriculture Entries include title author editor publisher and annotation Indexed by author and editor Includes update of current books for 1998 Decentralised Sanitation and Reuse Piet Lens,Grietje Zeeman,G. Lettinga,2001-03-01 Adopting a multi disciplinary approach Decentralised Sanitation and Reuse places public sanitation in a global context and provides a definitive discussion of current state of the art sanitation technologies It shows how these technologies can be implemented to integrate domestic waste and wastewater treatment in order to maximize resource recycling in domestic practice Decentralised Sanitation and Reuse presents technical solutions for on site collection and transport of concentrated waste streams and focuses on the compromise between reliability and minimal water wastage A whole range of available sustainable technologies both low and high tech to treat concentrated black water and diluted grey water streams are addressed in detail from the fundamental scientific and engineering points of view Sociological economic and particularly environmental and public health aspects are essential issues within this book The necessity of new infrastructure implementation and the resulting challenges for a good number of economic branches are illustrated with examples from architecture and town planning Decentralised Sanitation and Reuse will be an invaluable resource for a wide academic and professional readership active in the fields of environmental protection and public sanitation Contents The DESAR concept for environmental protection Waste and wastewater characteristics and its collection on the site Technological aspects of DESAR Environmental and public health aspects of DESAR Sociological and economic aspects of DESAR Architectural and urbanistic aspects of DESAR *Just Ecological Integrity* Peter Miller,Laura Westra,2002 Table of contents **Design for Sustainability** Janis Birkeland,2012-05-04 With radical and innovative design solutions everyone could be living in buildings and settlements that are more like gardens than cargo containers and that purify air and water generate energy treat sewage and produce food at lower cost Birkeland introduces systems design thinking that cuts across academic and professional boundaries and the divide between social and physical sciences to move towards a transdisciplinary approach to environmental and social problem solving This sourcebook is useful for teaching as each topic within the field of environmental management and social change has pairs of short readings providing diverse perspectives to compare contrast and debate Design for Sustainability presents examples of integrated systems design based on ecological principles and concepts and drawn from the foremost designers in the fields of industrial design materials housing design urban planning and transport landscape and permaculture and energy and resource management **Natural Capitalism** Paul Hawken,Amory Lovins,L. Hunter Lovins,2007-10-15 There are no more reespected voices in the environmental movement

than these authors true counselors on the direction of twenty first century business With hundreds of thousands of books sold worldwide they have set the agenda for rational ecologically sound industrial development In this inspiring book they define a superior sustainable form of capitalism based on a system that radically raises the productivity of nature s dwindling resources Natural Capitalism shows how cutting edge businesses are increasing their earnings boosting growth reducing costs enhancing competitiveness restoring the earth by harnessing a new design mentality The authors offer dozens of examples of businesses that are making fourfold or even tenfold gains in efficiency from self heating self cooling buildings to 200 miles per gallon cars while ensuring that workers aren t downsized out of their jobs This practical blueprint shows how making resources more productive will create the next industrial revolution *NOFA Organic Farms, Folks & Foods* ,1997

State of the World 2007 Worldwatch Institute,2013-07-04 Published annually in 28 languages each edition draws on the breadth of expertise of the Worldwatch Institute s team of writers and researchers It is essential for anyone concerned with building a positive global future **Ecology Against Capitalism** John Bellamy Foster,2002-02-01 In recent years John Bellamy Foster has emerged as a leading theorist of the Marxist perspective on ecology His seminal book Marx s Ecology Monthly Review Press 2000 discusses the place of ecological issues within the intellectual history of Marxism and on the philosophical foundations of a Marxist ecology and has become a major point of reference in ecological debates This historical and philosophical focus is now supplemented by more directly political engagement in his new book Ecology against Capitalism In a broad ranging treatment of contemporary ecological politics Foster deals with such issues as pollution sustainable development technological responses to environmental crisis population growth soil fertility the preservation of ancient forests and the new economy of the Internet age Foster s introduction sets out the unifying themes of these essays enabling the reader to draw from them a consolidated approach to a rapidly expanding field of debate which is of critical importance in our times Within these debates on the politics of ecology Foster s work develops an important and distinctive perspective Where many of these debates assume a basic divergence of red and green issues and are concerned with the exact terms of a trade off between them Foster argues that Marxismproperly understoodalready provides the framework within which ecological questions are best approached This perspective is advanced here in accessible and concrete form taking account of the major positions in contemporary ecological debate **Vital Signs 1998** Lester R. Brown,Michael Renner,Christopher Flavin,1998 Analyzes the key indicators of 1998 that will play a large part in determining the social economical and environmental health of the nation in the next decade includes charts tables graphs and statistics

Hungry for Profit Fred Magdoff,John Bellamy Foster,Frederick H. Buttel,2000-09-01 Millions go hungry every year in both poor and rich nations yet hundreds of thousands of peasants and farmers continue to be pushed off the land Applied in increasing volumes chemical pesticides and synthetic fertilizers deplete the soil pollute our food and water and leave crops more vulnerable to pest outbreaks The new and expanding use of genetically engineered seeds threatens species diversity

This penetrating set of essays explains why corporate agribusiness is a rising threat to farmers the environment and consumers Ranging in subject from the politics of hunger to the new agricultural biotechnologies and in time and place from early modern Europe to contemporary Cuba the contributions to Hungry for Profit examine the changes underway in world agriculture today and point the way toward organic sustainable solutions to problems of food supply

Livestock Keeping in Urban Areas Hans Schiere, Rein van der Hoek, 2001-01-01 Livestock play an important but variable role in both rural and urban societies At the request and with the support of the Japanese Government FAO has compiled experiences of livestock keeping from different parts of the world categorized by production systems to make it easier for interested people to select ideas for their own conditions This document presents a sample of such technologies intended for livestock keeping in urban and peri urban areas It describes the livestock production system in traditional sectors and identifies constraints Suggestions for improving production in the livestock sector are given and a literature list is included for further reference

Vital Signs 1998-1999 Lester R. Brown, 2014-04-08 First Published in 1998 In this seventh annual edition of VITAL SIGNS the team at the Worldwatch Institute bring together an eclectic selection of disparate trends to offer a unique multifaceted view of our rapidly changing world This vital resource and reference guide traces the scientific social economic and environmental trends that have and continue to shape our world Among the trends covered for the first time in VITAL SIGNS 1998 99 are frontier forests plantation forestry satellite launches minerals exploration small arms proliferation and female education This year s edition points out that global emissions of carbon the leading contributor to global climate change hit another new high while wind power has grown an amazing 26 per cent per year and sales of solar cells jumped a phenomenal 43 per cent in 1997 VITAL SIGNS is the most comprehensive source of environmental and social information available
