*Non-Representational Methodologies* Phillip Vannini,2015-02-11 Non representational theory is one of the contemporary moment s most influential theoretical perspectives within social and cultural theory It is now widely considered to be the logical successor of postmodern theory the logical development of post structuralist thought and the most notable intellectual force behind the turn across the social and cultural sciences away from cognition meaning and textuality And yet it is often poorly understood

This is in part because of its complexity but also because of its limited treatment in the few volumes chiefly dedicated to it. Theories must be useful to researchers keen on utilizing concepts and analytical frames for their personal interpretive purposes. How useful non-representational theory is in this sense is yet to be understood. This book outlines a variety of ways in which non-representational ideas can influence the research process: the very value of empirical research, the nature of data, the political value of data and evidence, the methods of research, the very notion of method and the styles, genres and media of research.

**Loring and Rounds: A Trustee's Handbook, 2017 Edition (IL)** Rounds, 2016-12-19 Loring and Rounds A Trustee's Handbook well over 1,550 pages is regarded not only as authoritative but also as the most convenient, reliable and complete single volume source for trust doctrine. Get in-depth information on how to stay on top of the developments in this complex field of practice. The Handbook carries on the tradition of concise practical and up-to-date guidance for trustees, a tradition that began in 1898 with the First Edition. This classic trust reference distills the essence of trust law, illuminating the fundamental principles and answering the basic questions. Loring and Rounds A Trustee's Handbook 2017 Edition is up-to-date and includes eleven chapters of important information such as chapters on The Property Requirement, The Trustee's Office, Interests Remaining with the Settlor, The Beneficiary, The Trustee's Duties, The Trustee's Liabilities, Miscellaneous Topics of General Interest to the Trustee, Special Types of Trusts, The Income Taxation of Trusts, Tax Basis, Cost of Trust Property.

**Loring and Rounds: A Trustee's Handbook, 2024 Edition** Rounds, , **Loring and Rounds Jr.** Charles E. Rounds, I. I. Charles E. Rounds, 2022-01-31 Loring and Rounds A Trustee's Handbook 2022 is an invaluable practical resource that addresses the rights, duties and obligations of the parties once the trustee takes title to trust property. This Handbook steers you through this complex field, providing property owners with a mechanism for seeing to the needs of beneficiaries in cost-effective, creative, efficient and flexible ways. Loring and Rounds A Trustee's Handbook 2022 is a handy, ready reference and a gateway to the treatises, restatements, law review articles, uniform statutes and cases you need to know. This fully integrated and bound volume of the Handbook brings you up-to-date on the latest cases, statutes and developments as well as new or updated discussion of topics as follow. The Handbook continues the lengthy process of pruning some of the deadwood; significant exposition has been cut, revised or combined. In sum, the Handbook is now even leaner, meaner and more usable than ever. In addition, numerous new cases and secondary sources have been added. These include the following: In the 2022 Edition, there are 91 judicial decision references and 186 footnotes that were not in the 2021 Edition. Forty pre-existing footnotes have been revised along with their accompanying texts. There has been a major across-the-board expansion, reorganization, renovation, consolidation, coordination and updating of the content devoted to the intersection of trust law and constitutional U.S. law. We have, for example, opened up a whole new section devoted entirely to relevant taking and due process jurisprudence. See 5-3-1A and its sub-sections. The Handbook's treatment of the Domestic Asset Protection Trust (DAPT) has been beefed up and consolidated in 9-28. While the Handbook has had much to say about the

equitable doctrine of unclean hands as it pertains to trustee conduct there has been little on its applicability to beneficiary conduct This oversight has been corrected See 5 5 7 1 9 All this and much more is included in the 2022 Edition of the Handbook *Affective Ecocriticism* Kyle Bladow, Jennifer Ladino, 2018-11-01 Scholars of ecocriticism have long tried to articulate emotional relationships to environments Only recently however have they begun to draw on the complex interdisciplinary body of research known as affect theory Affective Ecocriticism takes as its premise that ecocritical scholarship has much to gain from the rich work on affect and emotion happening within social and cultural theory geography psychology philosophy queer theory feminist theory narratology and neuroscience among others This vibrant and important volume imagines a more affective and consequently more effective ecocriticism as well as a more environmentally attuned affect studies These interdisciplinary essays model a range of approaches to emotion and affect in considering a variety of primary texts including short story collections films poetry curricular programs and contentious geopolitical locales such as Canada s Tar Sands Several chapters deal skeptically with familiar environmentalist affects like love hope resilience and optimism others consider what are often understood as negative emotions such as anxiety disappointment and homesickness all with an eye toward reinvigorating or reconsidering their utility for the environmental humanities and environmentalism Affective Ecocriticism offers an accessible approach to this theoretical intersection that will speak to readers across multiple disciplinary and geographic locations Loring and Rounds: A Trustee's Handbook, 2021 Edition Rounds, 2020-12-11 Loring and Rounds A Trustee s Handbook is an invaluable practical resource that addresses the rights duties and obligations of the parties once the trustee takes title to trust property This Handbook steers you through this complex field providing property owners with a mechanism for seeing to the needs of beneficiaries in cost effective creative efficient and flexible ways Loring and Rounds A Trustee s Handbook is a handy ready reference and a gateway to the treatises restatements law review articles uniform statutes and cases you need to know This fully integrated and bound volume of the 2021 Handbook brings you up to date on the latest cases statutes and developments as well as new or updated discussion of topics as follow The Handbook continues the lengthy process of pruning some of the deadwood significant exposition has been cut revised or combined In sum the Handbook is now even leaner meaner and more usable than ever In addition numerous new cases and secondary sources have been added These include the following The 2021 Handbook fully covers the fourth income and principal act issued by the Uniform Law Commission namely the Uniform Fiduciary Income and Principal Act 2018 otherwise known as UFIPA UFIPA has been covered extensively in this edition and has been added in many separate sections A new section covers remedies at law for breaches of trust such as the tort of intentional interference with inheritance or acquisition by inter vivos transfer In addition the Handbook has been updated with 200 new cases including Roth v Jelley holding that when it comes to a judicial proceeding that could adversely affect the equitable property rights of a trust beneficiary the beneficiary is entitled under the Due Process Clause of the Fourteenth Amendment to notice
