Red Phoenix Rising Von Hardesty ,Ilya Grinberg,2021-07-01 A groundbreaking account of the Soviet Air Force in World War II the original version of this book Red Phoenix was hailed by the Washington Post as both brilliant and monumental That version has now been completely overhauled in the wake of an avalanche of declassified Russian archival sources combat documents and statistical information made available in the past three decades The result Red Phoenix Rising is nothing less than definitive The saga of the Soviet air force one of the least chronicled aspects of the war marked a transition from near annihilation in 1941 to the world's largest operational tactical air force four years later Von Hardesty and Ilya Grinberg reveal the dynamic changes in

tactics and operational art that allowed the VVS to bring about that remarkable transformation Drawing upon a wider array of primary sources well beyond the uncritical and ultra patriotic Soviet memoirs underpinning the original version this volume corrects updates and amplifies its predecessor In the process it challenges many official accounts and revises misconceptions promoted by scholars who relied heavily on German sources thus enlarging our understanding of the brutal campaigns fought on the Eastern Front The authors describe the air campaigns as they unfolded with full chapters devoted to the monumental victories at Moscow Stalingrad and Kursk By combining the deeply affecting human drama of pilots relentlessly confronted by lethal threats in the air and on the ground with a rich technical understanding of complex military machines they have produced a fast paced riveting look at the air war on the Eastern Front as it has never been seen before They also address dilemmas faced by the Soviet Air Force in the immediate postwar era as it moved to adopt the new technology of long range bombers jet propulsion and nuclear arms Drawing heavily upon individual accounts down to the unit level Hardesty and Grinberg greatly enhance our understanding of their story s human dimension while the book s more than 100 photos many never before seen in the West vividly portray the high stakes and hardware of this dramatic tale In sum this is the definitive one volume account of a vital but still underserved dimension of the war surpassing its predecessor so decisively that no fan of that earlier work can afford to miss it

Dreams of the Red Phoenix Virginia Pye,2015-10-13

During the dangerous summer of 1937 a newly widowed American missionary finds herself and her teenage son caught up in the midst of a Japanese invasion of North China and the simultaneous rise of Communism Meanwhile a charismatic Red Army officer requests her help and seems to have shared some surprising secret about her husband Shirley must manage her grief even as she navigates between her desire to help the idealistic Chinese Reds fight the Japanese by serving as a nurse and the need to save both herself and her son by escaping the war ravaged country before it s too late Taking her own grandmother s life as inspiration Virginia Pye author of the critically acclaimed debut novel River of Dust has written a stunning new novel of Americans in China on the cusp of World War II

Environmental Protection Agency,1997 *The American Short-horn Herd Book* ,1900 **Rethinking History, Dictatorship and War** Claus-Christian Szejnmann,2011-11-03 The main focus of this book is to analyse and explain rather than merely narrate developments of modern war The volume will present up to date and genuinely original scholarship that has not been previously published This collection deals with three of the most important themes of historical studies the way history is or ought to be written the nature of dictatorships and the nature of wars The primary focus is on modern Europe and two defining experiences in the first half of the twentieth century namely the First and Second World Wars and totalitarian dictatorships Both remain issues of intense debates and with ever widening ramifications It provides a unique overview of the current state of research on three important themes that are of great interest to scholars and students Each essay and a substantial introduction summarises complex findings

approaching the topic from a variety of perspectives 19th and 20th century history national and regional history comparative history cartography and biographical intellectual structural social and military history thus challenging traditional interpretations and methodologies and addressing unresolved questions The book brings together a mix of established and younger experts thinking critically about these major themes and writing accessible and stimulating pieces that challenge existing interpretations and suggest ways the subjects are changing The contributors tackle big issues and dare to come up with bold explanations
