revolutionaries and the agents of the secret police who pursued them In the late nineteenth century nations the world over were mired in economic recession and beset by social unrest their leaders increasingly threatened by acts of terrorism and assassination from anarchist extremists In this riveting history of that tumultuous period Alex Butterworth follows the rise of these revolutionaries from the failed Paris Commune of 1871 to the 1905 Russian Revolution and beyond Through the interwoven stories of several key anarchists and the secret police who tracked and manipulated them Butterworth explores how the anarchists were led to increasingly desperate acts of terrorism and murder Rich in anecdote and with a fascinating array of supporting characters *The World That Never Was* is a masterly exploration of the strange twists and turns of history taking readers on a journey that spans five continents from the capitals of Europe to a South Pacific penal colony to the heartland of America It tells the story of a generation that saw its utopian dreams crumble into dangerous desperation and offers a revelatory portrait of an era with uncanny echoes of our own *How Terrorism Ends* Audrey Kurth

Cronin,2011-08-28 Annotation This work answers questions concerning the length of time that terrorist campaigns last and when targeting leadership finishes a group It examines a wide range of historical examples to identify the ways in which almost all terrorist groups die out *Russian Leaders* Alexander Dragomiroff,2002 *Russian Leaders A Bibliography With Indexes* *Written in Blood* Lynn Ellen Patyk,2017-06-20 A fundamentally new interpretation of the emergence of modern terrorism arguing that it formed in the Russian literary imagination well before any shot was fired or bomb exploded

**Russian Writers and Society in the Nineteenth Century** Ronald Hingley,2021-06-15 This book first published in 1977 begins with a close look at the lives of nineteenth century Russian writers and at the problems of their profession It then examines their environment in its broader aspects the Russian empire being considered from the point of view of geography ethnography economics and the impact of individual Tsars on writers and society A discussion of the main social estates follows and concluding is an analysis in their literary context of the activities of the competing forces of cohesion and disruption in imperial society the civil service law courts police army schools universities press censorship revolutionaries and agitators This book makes possible a fuller understanding of the works of Pushkin Dostoyevsky Chekhov and the other great Russian writers *Monthly Bulletin* San Francisco Public Library,1919 **Marx, Engels and National Movements (RLE Marxism)** Ian Cummins,2023-05-31 While their attempts to understand the workings of capitalism led them to the conclusion that the advanced societies of Western Europe were those most likely to be the setting for a successful socialist revolution Marx and Engels by no means ignored developments outside this region Indeed given the configurations of international politics in their time plus their conception of capitalism as a universalising system they believed that some of the forces working for change in less advanced regions could even affect the prospects of a proletarian revolution in Western Europe itself This book first published in 1980 traces the development of Marx and Engels attitudes towards and relations with the principal national movements of their time It deals with their responses to such movements in areas as diverse as

Ireland and India Poland and China and Russia and the United States as well as in many other regions Many of Max and Engels most significant statements on the national question were made in their journalism occasional addresses and private correspondence sources not always readily accessible to or even known by some of their more immediate successors Subsequent publication of this previously dispersed material has enabled a more coherent picture of their ideas on the subject to be drawn Marx and Engels believed that national aspirations and the cause of socialism did not always go hand in hand and each national struggle had to be examined on its merits and judged according to whether its success would retard or enhance the prospects of a socialist revolution Based on a wide range of sources this study examines an important yet neglected area of Marx and Engels ideas and activities and indicates the criteria by which they determined their attitudes at different times to a variety of national movements at work in four continents

**Terrorism: All That Matters** Andrew Silke, 2014-06-27 DOES TERRORISM WORK Terrorism is surrounded by myths One of the most enduring of these myths and half truths is that terrorism never works that in the end the state will prevail and the terrorists will either be dead or imprisoned or otherwise forced to end their campaign of violence It is true that most terrorist groups are beaten Within twelve months of their first attack most terrorist groups have been crushed Within ten years half of the rest have been beaten However a small proportion roughly one group in twenty endures and incredibly goes on to win the conflict and beat the governments opposing them This book is about these triumphs of terror how and why they happen and what the beaten governments could and should have done differently It is a book about blunders and miscalculations of the danger of underestimating a weak enemy and the hubris of empire It encompasses tales of courage and despair ruthlessness and tragedy brutality and hope In the end it represents not just one but many warnings from history About the care that is needed when confronted with terrorism and about just how badly events can go for even the most powerful state if they get it wrong ABOUT THE SERIES All That Matters books are written by the world's leading experts to introduce the most exciting and relevant topics in an accessible readable way From Bioethics to Future Cities and Philosophy to Terrorism the All That Matters series covers controversial and engaging subjects from science philosophy history religion and politics The authors are world class academics or leading public intellectuals on a mission to bring the most interesting and challenging areas of their subject to new readers
