**Strategy of the Soviet Union** David M. Glantz, 2019-10-01 Armed revolution and civil war gave birth to the Soviet Union world War II propelled it to global pre eminence and the Cold War contributed to the Soviet Union s demise Given Marxism Leninism s ideological preoccupation with war and threats of war it is understandable that the spectre of war should play a vital role in the life and fate of the Soviet state This study of Soviet military strategy is based upon the twin pillars of Soviet political military actions and Soviet writings on the subject of military strategy Thanks to the policy of glasnost it incorporates Soviet materials hitherto unavailable in the West It aims to be not simply a retrospective account of what was but to form part of the context for what will be in the future

**Stalinism and the Dialectics of Saturn** Douglas Greene, 2023-03-20 This study examines the complicated legacy of Stalinism in the twentieth century The descent of the Russian Revolution into Stalinism has given rise to an oft accepted truism that revolutions are like Saturn and will devour their own children For anticommunists Stalinism is condemned as a bolt from blue whether an insidious contagion Big Brother or totalitarian reason that socialism cannot escape from On the other end Communists and their fellow travelers have seen Stalinism as a force of historical necessity and the only way for the working class to reach a communist society Both these twin camps accept a Dialectic of Saturn where Stalinism whether for evil or good is the preordained fate of all socialist revolutions However there is another position that views Stalinism as the product of material circumstance and class struggle This position was represented by Leon Trotsky in his seminal work The Revolution Betrayed In contrast to those who accept a mystical dialectic of Saturn Trotsky argued that Stalinism can be rationally explained and was not inevitable outcome of socialism
