*Red Butterfly* Linda R. Bell, 1993-01-01      **The Practice of Autonomy** Carl Schneider, 1998 Exploring what patients do want gives direction to the author's inquiry into what they should want What patients want he believes is properly more complex and ambiguous than being empowered In this book he charts that ambiguity to take the autonomy principle past current pieties into the uncertain realities of the sick room and the hospital ward *The Practice of Autonomy* is a sympathetic but trenchant study of the animating principle of modern bioethics It speaks with freshness insight and even passion to bioethicists and moral philosophers about their theories to lawyers about their methods to medical sociologists about their subject to policy makers about their ambitions to doctors about their work and to patients about their lives BOOK JACKET

The Red Butterfly Linda R. Bell, 1983      Travels with the Wolf Melissa Anne Goldstein, 2000 The Lupus Foundation of America estimates that between 5 and 15 million people have been diagnosed with lupus a chronic autoimmune disease that can attack any part of the body The elusive nature of the illness often becomes a source of overwhelming helplessness and frustration to its victims their loved ones and the physicians who treat it Narrated through both poetry and prose *Travels with the Wolf* is an autobiographical account of Melissa Anne Goldstein's experiences with lupus It is her story of becoming a young woman writer and teacher in the presence of severe often debilitating disease It is an exploration of her relationships with her family and friends as the illness steals into their lives and the record of her struggle to maintain her independence and identity despite disease Finally it is an author's journey to find her spiritual core This book is not just about lupus Goldstein uses her experience of the illness as well as sociological literary and historical research to portray and understand the dilemmas faced by the chronically ill person in our society In her conclusion she calls for reform of today's health care system which does not meet the needs of the chronically ill or their physicians      Beating Brain Fog Sabina
