THE MISSION: To get back to earth and have a wash.

THE UNIVERSE WILL NEVER BE THE SAME AGAIN.

WHITE HOLE

Holly regains her genius level IQ and for reasons best known to herself powers down the ship, leaving the crew drifting helplessly towards a White Hole. Will Rimmer sacrifice his hologramatic life to save the rest of the crew?

DIMENSION JUMP

Red Dwarf Iv Part 2 Dimension Jump:

The New Yorker Harold Wallace Ross, William Shawn, Tina Brown, David Remnick, Katharine Sergeant Angell White, Rea Irvin, Roger Angell, 1993-10 **Time-Travel Television** Sherry Ginn, Gillian I. Leitch, 2015-10-08 Stories of time travel have been part of science fiction since H G Wells sent his nameless hero hurtling into Earth's distant future in *The Time Machine*. Time travel enables the storyteller to depict alternate realities, bring fictional characters face to face with historical figures and depict moral and ethical dilemmas in which millions of lives or the world as we know it are at stake. From *Doctor Who* and *Quantum Leap* to the multiple incarnations of *Star Trek*, time travel has been a staple of science fiction television for more than fifty years. *Time Travel Television* surveys the whole range of time travel stories on the small screen. The essays in this collection explore time travel series both familiar (*Babylon 5*, *Stargate SG-1* and forgotten *The Time Tunnel*, *Voyagers*) as well as time travel themed episodes and arcs in series where it is not central such as *Red Dwarf*, *Lost* and *Heroes*. Contributors to this volume consider some of the classic themes of time travel stories: the promise and peril of fixing the past, the chance to experience and choose possible futures, and the potential for small changes to have great effects. Exploring time travel as a teaching tool, as a vehicle for moral lessons, and as a background for high adventure, this book offers new perspectives on many familiar programs and the first serious study of several unjustly neglected ones. *Time Travel Television* is essential reading for science fiction scholars and fans and for anyone interested in the many ways that television brings the fantastic into viewers' living rooms. **Facets Video Encyclopedia** Catherine Foley, Milos Stehlik, 1999 Calling it a virtual cinemathèque on video, the Telluride Film Festival gave its coveted Silver Medallion award to *Facets Video Encyclopedia*. The encyclopedia lists more than 35,000 rare films on video, laser disc, and DVD. Included are foreign, independent, classic American, silent, documentary, experimental, cult, and children's films. Each is carefully described and lists director, country of origin, year, and running time. Credits and is categorized and cross-referenced by director and country. All films are available for sale or rent from Facets Multimedia. *The Red Dwarf Quiz Book* Nick Brown, 2018-05-09 The *Red Dwarf Quiz Book* features two hundred questions about the popular TV show covering the first twelve series broadcast between 1988 and 2017. The quiz contains questions covering a range of difficulties from answers a second technician could probably guess on a good day all the way through to trivia that would test Kryten himself. With rounds covering the various series, the characters, the guest stars, and much more, this is the perfect book for both long-time fans of the show and recent converts alike. **Red Dwarf** Chris Howarth, Steve Lyons, 1997 *Red Dwarf* is the biggest cult of recent years. Since 1988 there have been seven series of mind-boggling comedy adventures as Lister, Rimmer, Cat, and Kryten attempt to make their way back to Earth after a five million year interstellar sleep. *Literature 1981, Part 2* S.
