Red Enemy Chester Cole, 2002-11-18 Apart from war and conflict another major hazard facing the soldier is court martial That of colonel Destry Corrigan US army in Germany for murder and desertion was no exception but is he innocent He was captured by terrorists and forced to play computerized war games against a Russian of similar rank Viktor Nolev during the Cold War to increase their ransom value But when things go wrong and the terrorists intend killing their captives at the end of the war games the two colonels together with two British captives plan a spectacular mass escape But freedom brings its own problems Corrigan discovers that he is wanted for the murder of a soldier left behind when he was captured Rather than face prison or possible execution he goes on the run for several years after the Cold War ends with the collapse of the Berlin Wall He is eventually persuaded to give himself up by a woman he meets while on the run His story of capture by terrorists is not believed and he is court martialled During the trial a surprise witness appears and verifies his story Will it be enough for an acquittal
