## **Redemption And Utopia Jewish Libertarian Thought In Central Europe A Study In Elective Affinity:**

**Redemption and Utopia** Michael Löwy, 2017-03-28 Towards the end of the nineteenth century there appeared in Central Europe a generation of Jewish intellectuals whose work was to transform modern culture Drawing at once on the traditions of German Romanticism and Jewish messianism their thought was organized around the cabalistic idea of the tikkoun redemption Redemption and Utopia uses the concept of elective affinity to explain the surprising community of spirit that existed between redemptive messianic religious thought and the wide variety of radical secular utopian beliefs held by this important group of intellectuals The author outlines the circumstances that produced this unusual combination of religious and non religious thought and illuminates the common assumptions that united such seemingly disparate figures as Martin Buber Franz Kafka Walter Benjamin and Georg Lukcs *Redemption and Utopia* Michael Löwy, 1992 Towards the end of the nineteenth century there appeared in Central Europe a generation of Jewish intellectuals whose work was to mark modern culture Drawing at once on the traditions of German Romanticism and Jewish Messianism their thought was organized around the kabbalistic idea of Tikkoun redemption Redemption and Utopia uses the concept of elective affinity to explain the surprising community of spirit that existed between redemptive messianic religious thought and the wide variety of radical secular utopian beliefs held by this important group of intellectuals The author outlines the circumstances that produced this unusual combination of religious and non religious thought and illuminates the common assumptions that united such seemingly disparate figures as Martin Buber Kafka Walter Benjamin and Georg Lukacs **Rosenzweig and Heidegger** Peter Eli Gordon, 2003-08-26 With brilliance and considerable daring Peter Gordon s Rosenzweig and Heidegger broaches the possibility of a shared horizon and a promising dialogue between these two seminal figures these antipodes of twentieth century thought It will be the bench mark for future work in the field Thomas Sheehan author of Heidegger The Man and the Thinker In this brilliant book Peter Gordon sheds light on Rosenzweig s most important philosophical book The Star of Redemption by means of an unexpected and sure to be controversial comparison with the philosophy of Heidegger s Being and Time The result is a must read for anyone with a serious interest in either thinker Hilary Putnam author of The Collapse of the Fact Value Dichotomy and Other Essays A major work Gordon persuasively argues that the true originality of Rosenzweig s achievement heretofore associated with a distinctively Jewish break with his German philosophical milieu only becomes intelligible from within that very milieu Focusing on resemblances between Rosenzweig s and Heidegger s projects Gordon discerns the contours of a post Nietzschean religious sensibility condensed into the paradox of a redemption in the world This book will be valued by readers of both Heidegger and Rosenzweig and by anyone interested in the intersections of philosophy and religion Eric L Santner author of On the Psychotheology of Everyday Life Reflections on Freud and Rosenzweig A comparative reading of Rosenzweig s Star of Redemption and Heidegger s Being and Time Peter Eli Gordon has written a work of exemplary erudition analytical nuance philosophical acumen and expository grace Paul Mendes Flohr

author of *German Jews A Dual Identity*      **Archaeology of the Unconscious** Alessandra Aloisi, Fabio Camilletti, 2019-07-10  
In reconstructing the birth and development of the notion of unconscious historians of ideas have heavily relied on the Freudian concept of Unbewussten retroactively projecting the psychoanalytic unconscious over a constellation of diverse cultural experiences taking place in the eighteenth and nineteenth centuries between France and Germany Archaeology of the Unconscious aims to challenge this perspective by adopting an unusual and thought provoking viewpoint as the one offered by the Italian case from the 1770s to the immediate aftermath of WWI when Italo Svevo's *La coscienza di Zeno* provides Italy with the first example of a psychoanalytic novel Italy's vibrant culture of the long nineteenth century characterised by the sedimentation circulation intersection and synergy of different cultural philosophical and literary traditions proves itself to be a privileged object of inquiry for an archaeological study of the unconscious a study whose object is not the alleged origin of a pre made theoretical construct but rather the stratifications by which that specific construct was assembled In line with Michel Foucault's *Archéologie du savoir* 1969 this volume will analyze the formation and the circulation across different authors and texts of a network of ideas and discourses on interconnected themes including dreams memory recollection desire imagination fantasy madness creativity inspiration magnetism and somnambulism Alongside questioning pre given narratives of the history of the unconscious this book will employ the Italian difference as a powerful perspective from whence to address the undeveloped potentialities of the pre Freudian unconscious beyond uniquely psychoanalytical viewpoints      Ethics and Social Survival Milton Fisk, 2016-05-20 When speaking of society's role in ethics one tends to think of society as regimenting people through its customs Ethics and Social Survival rejects theories that treat ethics as having justification within itself and contends that ethics can have a grip on humans only if it serves their deep seated need to live together It takes a social survival view of ethical life and its norms by arguing that ethics looks to society not for regimentation by customs but rather for the viability of society Fisk traces this theme through the work of various philosophers and builds a consideration of social divisions to show how rationalists fail to realize their aim of justifying ethical norms across divisions The book also explores the relation of power and authority to ethics without simply dismissing them as impediments and explains how personal values such as honesty modesty and self esteem still retain ethical importance Finally it shows that basing ethics on avoiding social collapse helps support familiar norms of liberty justice and democracy and strives to connect global and local ethics      **Nationalism, Zionism and Ethnic Mobilization of the Jews in 1900 and Beyond** Michael Berkowitz, 2004-02-01 This volume engages diverse topics such as art music and radio broadcasting in the development of modern Jewish nationalism by leading scholars in their respective fields It contains richly detailed studies that challenge existing historiography from personal struggles with nationalism to the lesser known origins of the Balfour Declaration from boisterous demonstrations on the streets of pre World War I Galicia to skirmishes between Jews in present day Jerusalem It examines how nationalism has worked in theory and practice for Jews and at times

been fiercely resisted Beginning with the memory of Theodor Herzl and his cohort at the London Zionist Congress of 1900 this book revisits the wider scene of Zionism s emergence as we explore the imagination of and the attempted national mobilization of Jewry throughout the twentieth century Contributors include Delphine Bechtel Nachman Ben Yehuda Michael Berkowitz Inka Bertz Philip Bohlman John M Efron Richard A Freund Francois Guesnet Michael L wy Barbara Mann Derek Penslar James Renton Aviel Roshwald Joshua Shanes With Freedom in Our Ears Anna Elena Torres, Kenyon Zimmer, 2023-05-02 Jewish anarchism has long been marginalized in histories of anarchist thought and action Anna Elena Torres and Kenyon Zimmer edit a collection of essays which recovers many aspects of this erased tradition Contributors bring to light the presence and persistence of Jewish anarchism throughout histories of radical labor women s studies political theory multilingual literature and ethnic studies These essays reveal an ongoing engagement with non Jewish radical cultures including the translation practices of the Jewish anarchist press Jewish anarchists drew from a matrix of secular cultural and religious influences inventing new anarchist forms that ranged from mystical individualism to militantly atheist revolutionary cells With Freedom in Our Ears brings together more than a dozen scholars and translators to write the first collaborative history of international multilingual and transdisciplinary Jewish anarchism *Religion and the Politics of Peace and Conflict* Linda Hogan, Dylan Lee Lehrke, 2009-01-01 The connections between religion and violence are complex and multifaceted From the conflicts in Middle East and the Balkans to those in Southeast Asia and beyond religion frames and legitimates political violence Moreover in international relations since 9 11 religious language and metaphors have acquired a new significance In this context the emerging consensus appears to be not only that violence is intrinsic to religion but also that religions incite legitimate and intensify political violence However such an unambiguous indictment of religions is incomplete in that it fails both to appreciate significant counter examples and to recognize the diversity that exists within religions on the issue of violence particularly the religious roots of pacifism and the ethics of non violence This collection explores aspects of this ambivalence between religion and violence It focuses on traditions of legitimation and pacifism within the three monotheistic religions Judaism Christianity and Islam and concludes with an examination of this ambivalence as it unfolds in each tradition s engagement with the politics of gender **Migrants in the Profane** Peter E. Gordon, 2020-11-24 A beautifully written exploration of religion s role in a secular modern politics by an accomplished scholar of critical theory *Migrants in the Profane* takes its title from an intriguing remark by Theodor W Adorno in which he summarized the meaning of Walter Benjamin s image of a celebrated mechanical chess playing Turk and its hidden religious animus Nothing of theological content will persist without being transformed every content will have to put itself to the test of migrating in the realm of the secular the profane In this masterful book Peter Gordon reflects on Adorno s statement and asks an urgent question Can religion offer any normative resources for modern political life or does the appeal to religious concepts stand in conflict with the idea of modern politics as a domain free from religion s influence In answering this

question he explores the work of three of the Frankfurt School's most esteemed thinkers Walter Benjamin Max Horkheimer and Theodor W Adorno His illuminating analysis offers a highly original account of the intertwined histories of religion and secular modernity

**Skepsis and Antipolitics: The Alternative of Gustav Landauer** ,2022-12-12 Gustav Landauer was an unconventional anarchist who aspired to a return to a communal life His antipolitical rejection of authoritarian assumptions is based on a radical linguistic scepticism that could be considered the theoretical premise of his anarchism The present volume aims to add to the existing scholarship on Landauer by shedding new light on his work focussing on the two interrelated notions of skepsis and antipolitics In a time marked by a deep doubt concerning modern politics Landauer's alternative can help us to more seriously address the struggle for a different articulation of our communitarian and ecological needs

Reconstructing Lenin Tamás Krausz,2015-02-27 Vladimir Ilyich Lenin is among the most enigmatic and influential figures of the twentieth century While his life and work are crucial to any understanding of modern history and the socialist movement generations of writers on the left and the right have seen fit to embalm him endlessly with superficial analysis or dreary dogma Now after the fall of the Soviet Union and actually existing socialism it is possible to consider Lenin afresh with sober senses trained on his historical context and how it shaped his theoretical and political contributions

Reconstructing Lenin four decades in the making and now available in English for the first time is an attempt to do just that Tam s Krausz an esteemed Hungarian scholar writing in the tradition of Gy rgy Luk cs Ferenc Tokei and Istv n M sz ros makes a major contribution to a growing field of contemporary Lenin studies This rich and penetrating account reveals Lenin busy at the work of revolution his thought shaped by immediate political events but never straying far from a coherent theoretical perspective Krausz balances detailed descriptions of Lenin's time and place with lucid explications of his intellectual development covering a range of topics like war and revolution dictatorship and democracy socialism and utopianism Reconstructing Lenin will change the way you look at a man and a movement it will also introduce the English speaking world to a profound radical scholar

The American Bibliography of Slavic and East European Studies for 1994 Patt Leonard,Rebecca Routh,1997-05-31 This text provides a source of citations to North American scholarships relating specifically to the area of Eastern Europe and the former Soviet Union It indexes fields of scholarship such as the humanities arts technology and life sciences and all kinds of scholarship such as PhDs

**Religion and European Philosophy** Philip Goodchild,Hollis Phelps,2017-04-13 Religion and European Philosophy Key Thinkers from Kant to i ek draws together a diverse group of scholars in theology religious studies and philosophy to discuss the role that religion plays among key figures in the European philosophical tradition Designed for accessibility each of the thirty four chapters includes background information on the key thinker an overview of the main themes concepts and concerns that occupy his or her attention and a discussion of the religious and theological elements present in his or her thought in light of contemporary issues Given the scope of the volume Religion and European Philosophy will be the go to guide for understanding the

religious and theological dimensions of European philosophy for both students and established researchers alike

**Salvation and Hell in Classical Islamic Thought** Marco Demichelis, 2018-07-12 *Salvation and Hell in Classical Islamic Thought* uses classical Islamic sources to trace the development of Islamic eschatology during the formative centuries of Islamic intellectual history. Marco Demichelis draws on classical Islamic scholars including Ibn Sina, al-Ghazali, Ibn Taymiyya, and Ibn Qayyim al-Jawziyya to bring together concepts from Islamic philosophy, theology, and mysticism, including proto-Sufism, to examine the interplay of these concepts between these traditions. The doctrines of salvation from Hell are examined in depth, in particular the theory of the annihilation of Hell, which proposes the idea that there will be a time when Hell will be empty and no longer inhabited. This is the first book to examine Islamic eschatology in the classical period and adds to the growing scholarship on Islamic views on salvation and the eternity of Hell. It will be essential reading for scholars of Islamic intellectual history, theology, and comparative religion.

*The Cambridge History of Judaism: Volume 8, The Modern World, 1815-2000* Mitchell B. Hart, Tony Michels, 2017-09-28 The eighth and final volume of *The Cambridge History of Judaism* covers the period from roughly 1815 to 2000. Exploring the breadth and depth of Jewish societies and their manifold engagements with aspects of the modern world, it offers overviews of modern Jewish history as well as more focused essays on political, social, economic, intellectual, and cultural developments. The first part presents a series of interlocking surveys that address the history of diverse areas of Jewish settlement. The second part is organized around the emancipation. Here, chapter themes are grouped around the challenges posed by and to this elemental feature of Jewish life in the modern period. The third part adopts a thematic approach organized around the category of culture, with the goal of casting a wide net in terms of perspectives, concepts, and topics. The final part then focuses on the twentieth century, offering readers a sense of the dynamic nature of Judaism and Jewish identities and affiliations.

*Venturing Beyond - Law and Morality in Kabbalistic Mysticism* Elliot R. Wolfson, 2006-05-25 *Venturing Beyond: Law and Morality in Kabbalistic Mysticism* is an investigation of the relationship of the mystical and moral viewed through the prism of the kabbalistic tradition. Elliot R. Wolfson's analysis focuses in particular on the multi-layered corpus of Zohar, the major sourcebook of theosophic symbolism that has informed the variegated evolution of kabbalistic thought and practice. **BOOK JACKET**

**Strengths-Based Approaches in Indigenous Education** Marnee Shay, Grace Sarra, 2025-09-26 This book brings together Indigenous thinkers and scholars with Western theories and practice frameworks to propose a theory for a strengths approach to knowledge production in Indigenous education. The text traverses disciplines and fields that have advanced strengths-based approaches in providing practitioners, researchers, and policy makers a way of reframing problems to start from a place of strength and capital. Strengths approaches have gained traction in various contexts in Indigenous education; however, this book is the first of its kind to explore the field more broadly and consider its potential for a way forward in Indigenous education. Using existing scholarship to consider how Indigenous education has been positioned in the past and present, it puts forward compelling

reasons why new approaches grounded in strengths based approaches are necessary for reimagining the possibilities for Indigenous education Offering a theoretically robust framework this is an essential resource for educators researchers and policy makers interested in transformative action in Indigenous education

**The Returns of Zionism** Gabriel Piterberg, 2020-05-05 In this original and wide ranging study Gabriel Piterberg examines the ideology and literature behind the colonization of Palestine from the late nineteenth century to the present Exploring Zionism's origins in Central Eastern European nationalism and settler movements he shows how its texts can be placed within a wider discourse of western colonization Revisiting the work of Theodor Herzl and Gershom Scholem Anita Shapira and David Ben Gurion and bringing to light the writings of lesser known scholars and thinkers influential in the formation of the Zionist myth Piterberg breaks open prevailing views of Zionism demonstrating that it was in fact unexceptional expressing a consciousness and imagination typical of colonial settler movements Shaped by European ideological currents and the realities of colonial life Zionism constructed its own story as a unique and impregnable one in the process excluding the voices of an indigenous people the Palestinian Arabs

**Ernest Mandel** Jan Willem Stutje, 2020-05-05 Ernest Mandel 1923 1995 was one of the most prominent anti Stalinist Marxist intellectuals of his time A political theorist and economist his worldview was shaped by experiences in the Second World War as an underground political activist in Occupied Belgium and during his subsequent internment in a Nazi prison camp Mandel's faith in human nature and in the working classes survived Nazi oppression and the murder of much of his family in the concentration camps He retained his connection to his Jewish roots throughout his life but believed that security and liberation for the Jewish people was best achieved through world revolution and universal emancipation rather than nationalism A brilliant orator in several languages Mandel was an indefatigable revolutionary militant and a key leader in the Fourth International and he had an enormous impact on the thought and practice of the 1968 generation His writings range from innovative economic and political theory to a study of the Second World War and have been published in over forty languages His last major work Late Capitalism had an influence that reached from the social sciences into the humanities Biographer Jan Willem Stutje the first writer with access to Mandel's archives has interviewed many of the leading figures in the story and unearthed a wealth of new material detailing Mandel's arrest by the Nazis and his role in Latin American guerrilla warfare He recounts Mandel's interactions with both scholars Sartre Ernst Bloch Perry Anderson and comrades in arms such as Che Guevara Rudi Dutschke and Tariq Ali The book also yields fascinating details of the man's sometimes tragic private life

**Violence and the Sacred** René Girard, 1988-01-01 His fascinating and ambitious book provides a fully developed theory of violence as the heart and secret soul of the sacred Girard's fertile combative mind links myth to prophetic writing primitive religions to classical tragedy Victor Brombert Chronicle of Higher Education

Getting the books **Redemption And Utopia Jewish Libertarian Thought In Central Europe A Study In Elective Affinity** now is not type of challenging means.
