Zhuangzi,Martin Buber,1921 **I and Tao** Jonathan R. Herman,2016-03-22 Through competent scholarship insightful
interpretation and masterful understanding of the present dialogue on hermeneutics it brings Buber's book on Chuang Tzu
into sinology and sinology via this book into the understanding and interpretation of Buber No one else has ever tackled
bringing these three fields Sinology Buber scholarship and comparative mysticism into meaningful interrelation and dialogue
Maurice Friedman author of Martin Buber's Life and Work The best thing is the depth and breadth of his discussion of
hermeneutic issues Herman is very well read both in theoretical hermeneutics and in sinological literature on the Chuang
Tzu and he has thought carefully through the main methodological issues related to his task His discussion of the relation
between unitive escapist and intraworldly mysticism in the Chuang Tzu is a great contribution Michael LaFargue University
of Massachusetts Boston Buber's approach to Taoism is not primarily that of the scholar but of the practitioner of philosophia
perennis And since Buber holds a prominent place in twentieth century religious history his appropriation of the Chuang Tzu
is an important subject Herman to his credit has not stood in Buber's path but has allowed him to speak for himself His
treatment of textual reconstruction interpretation and reception in the hermeneutic chapters adds a great deal to these
topics that is valuable quite apart from the specific text he addresses David L Hall *Reden und Gleichnisse des Tschuang*

Chuangtse,1920 **Reden und Gleichnisse des Tschuang-Tse. Deutsche Auswahl von Martin Buber. (Dritte**
Auflage.). Zhuangzi,Martin Buber,1920 **Martin Buber** Maurice S. Friedman,2003-09-02 Martin Buber The Life of
Dialogue the first study in any language to provide a complete overview of Buber's thought remains the definitive guide to
the full range of his work and the starting point for all modern Buber scholarship Maurice S Friedman reveals the
implications of Buber's thought for theory of knowledge education philosophy myth history and Judaic and Christian belief
This fully revised and expanded fourth edition includes a new preface by the author an expanded bibliography incorporating
new Buber scholarship and two new appendices in the form of essays on Buber's influence on Emmanuel Levinas and Mikhail
Bakhtin A Philosophy of Prayer George Pattison,2024-07-02 Exploring the silence of prayer in Post Kantian philosophy
and traditional spirituality A Philosophy of Prayer explores prayer within the perspective of post Kantian philosophy Against a
background of traditional sources including Augustine The Cloud of Unknowing and the seventeenth century French school
of spirituality the book uses Schleiermacher Kierkegaard Dostoevsky Heidegger Berdyaev Tillich Marcel Simone Weil

Emmanuel Levinas and Jean Louis Chr tien to provide an interpretation of what is meant by the passivity and self annihilation of the praying self suggesting an apophatics of the personality Pattison pays particular attention to the question of language and the implications of the role given to silence in traditional texts arguing that language remains a defining element of the human God relationship and that silence is not to be construed as the negation of language but as the revelation of the depth of language itself The basic structure of prayer is shown to be implicitly eschatological oriented toward a coming kingdom of justice and peace while at the same time expressing a deep desire for ontological homecoming a tension manifest in respectively Levinas and Heidegger On Pattison s reading prayer calls for and develops a particular orientation of the self toward existence corresponding to the virtue of humility long understood as the basic Christian virtue This is shown to be in tension with modernity s commitment to strong versions of autonomy However the choice of humility is not presented as the reinstatement of religious heteronomy but as a free choice of the praying self **The Universal Jewish Encyclopedia ...**

Isaac Landman,1940 *The Existential Philosophy of Etty Hillesum* Meins G. S. Coetsier,2014-01-09 In *The Existential Philosophy of Etty Hillesum* Meins G S Coetsier breaks new ground by demonstrating the Jewish existential nature of Etty Hillesum s spiritual and cultural life in light of the writings of Martin Buber Emmanuel Levinas and Dietrich Bonhoeffer Hillesum s diaries and letters written between 1941 and 1943 illustrate her struggle to come to terms with her personal life in the context of the Second World War and the Shoah By finding God under the rubble of the horrors she rediscovers the divine presence between humankind while taking up responsibility for the Other as a way to embrace justice and compassion In a fascinating accessible and thorough study Coetsier dispels much of the confusion that assails readers when they are exposed to the bewildering range of Christian and Jewish influences and other cultural interpretations of her writings The result is a convincing and profound picture of Etty Hillesum s path to spiritual freedom *Modernism - Dada -*

Postmodernism Richard Sheppard,2000 *Modernism Dada Postmodernism* collects updates integrates and contextualizes the critic Richard Sheppard s essays on the historical avant garde Sheppard s topic in all of these essays is the modernist writers artists and philosophers linguistic and visual responses to a changed sense of reality and human nature Beginning with an overview of the problematics of European modernism Sheppard establishes the dialectical relationship between the cultural crisis that occurred during the period 1880 1936 and the different responses from European modernists and the avant garde With its combination of classic and new essays and its perspective on the theoretical avant garde modernism debate in the United States Sheppard s volume should give the specialist as well as the general reader an insight into the highest sample of European scholarly discourse on this subject [Martin Buber and the Human Sciences](#) Maurice Friedman,2012-02-01 The specific focus of Martin Buber and the Human Sciences is dialogue as the foundation of and integrating factor in the human sciences using dialogue in the special sense which Buber has made famous mutuality presentness openness meeting the other in his or her uniqueness and not just as a content for one s own thought categories and knowing as deriving in the first

instance from mutual contact rather than knowledge of a subject about an object By the human sciences the authors editors mean material that can be meaningfully approached in a dialogic way hence the humanities education psychology speech communication anthropology history sociology and economics The essays in Martin Buber and the Human Sciences demonstrate that thirty years after Buber's death his influence is still resonating in many countries and in many fields

Martin Buber's Life and Work Maurice S. Friedman, 1988 Martin Buber's Life and Work is a complete reprint of Maurice Friedman's monumental three volume biography Friedman covers Buber's life from his work on I and Thou to the challenges of Nazi Germany and prewar Palestine He charts Buber's activities on behalf of Jewish Arab rapprochement his dialogue with Dag Hammarskjöld and comments on the philosopher's last years his death and his legacy to world Jewry

Contemporary Jewish Philosophy Irene Kajn, 2020-04-02 This text introduces the most important Jewish philosophers of contemporary times from the point of view of their original approach to both Judaism and philosophy and include Hermann Cohen Franz Rosenzweig Martin Buber Leo Strauss Emmanuel Levinas It shows how for them the dialogue between Judaism and philosophy is necessary in order to avoid on one side an attachment to Jewish tradition which is only nationalistic or non rational and on the other an idea of philosophy which first of all focuses the problems of nature human existence in the world or God as the origin of being In reconstructing the intellectual evolution of each of these twentieth century philosophers with a view to their meaning today this book is unique and goes beyond the standard historical account provided by other books Contemporary Jewish Philosophy is essential reading for researchers and students of philosophy Judaism and the history of religions
