*Rediscoveries in Art* Francis Haskell, 1976      **Critical Readings in Impressionism and Post-Impressionism** Mary Tompkins Lewis, 2023-12-22 The essays in this wide ranging beautifully illustrated volume capture the theoretical range and scholarly rigor of recent criticism that has fundamentally transformed the study of French Impressionist and Post Impressionist art Readers are invited to consider the profound issues and penetrating questions that lie beneath this perennially popular body of work as the contributors examine the art world of late nineteenth century France including detailed looks at Monet Manet Pissarro Degas C zanne Morisot Seurat Van Gogh and Gauguin The authors offer fascinating new perspectives placing the artworks from this period in wider social and historical contexts They explore these painters pictorial and market strategies the critical reception and modern criteria the paintings engendered and the movement s historic role in the formation of an avant garde tradition Their research reflects the wealth of new documents critical approaches and scholarly exhibitions that have fundamentally altered our understanding of Impressionism and Post Impressionism These essays several of which have previously been familiar only to scholars provide instructive models of in depth critical analysis and of the competing art historical methods that have crucially reshaped the field Contributors Carol Armstrong T J Clark Stephen F Eisenman Tamar Garb Nicholas Green Robert L Herbert John House Mary Tompkins Lewis Michel Melot Linda Nochlin Richard Schiff Debora Silverman Paul Tucker Martha Ward      **Survival of the fittest?** Henri Zerner,      **Desire and Excess** Jonah Siegel, 2021-05-11 In this fascinating look at the creative power of institutions Jonah Siegel explores the rise of the modern idea of the artist in the nineteenth century a period that also witnessed the emergence of the museum and the professional critic Treating these developments as interrelated he analyzes both visual material and literary texts to portray a culture in which art came to be thought of in powerful new ways Ultimately Siegel shows that artistic controversies commonly associated with the self consciously radical movements of modernism and postmodernism have their roots in a dynamic era unfairly characterized as staid self satisfied and stable The nineteenth century has been called the Age of the Museum and yet critics art theorists and poets during this period grappled with the question of whether the proliferation of museums might lead to the death of Art itself Did the assembly and display of works of art help the viewer to understand them or did it numb the senses How was the contemporary artist to respond to the vast storehouses of art from disparate nations and periods that came to proliferate in this era Siegel presents a lively discussion of the shock experienced by neoclassical artists troubled by remains of antiquity that were trivial or even obscene as well as the anxious aesthetic reveries of nineteenth century art lovers overwhelmed by the quantity of objects quickly crowding museums and exhibition halls In so doing he illuminates the fruitful crises provoked when the longing for admired art is suddenly satisfied Drawing upon neoclassical art and theory biographies of early nineteenth century writers including Keats and Scott and the writings of art critics such as Hazlitt Ruskin and Wilde this book reproduces a cultural matrix that brings to life the artistic

passions and anxieties of an entire era      Art and Religion in Eighteenth-Century Europe Nigel Aston, 2009-07-15 Eighteenth century Europe witnessed monumental upheavals in both the Catholic and Protestant faiths and the repercussions rippled down to the churches religious art forms Nigel Aston now chronicles here the intertwining of cultural and institutional turmoil during this pivotal century The sustained popularity of religious art in the face of competition from increasingly prevalent secular artworks lies at the heart of this study Religious art staked out new spaces of display in state institutions palaces and private collections the book shows as well as taking advantage of patronage from monarchs such as Louis XIV and George III who funded religious art in an effort to enhance their monarchical prestige Aston also explores the motivations and exhibition practices of private collectors and analyzes changing Catholic and Protestant attitudes toward art The book also examines purchases made by corporate patrons such as charity hospitals and religious confraternities and considers what this reveals about the changing religiosity of the era as well An in depth historical study **Art and Religion in Eighteenth Century Europe** will be essential for art history and religious studies scholars alike      **The Invention of Rare Books** David McKitterick, 2018-07-12 When does a book that is merely old become a rarity and an object of desire David McKitterick examines for the first time the development of the idea of rare books and why they matter Studying examples from across Europe he explores how this idea took shape in the sixteenth and seventeenth centuries and how collectors the book trade and libraries gradually came together to identify canons that often remain the same today In a world that many people found to be over supplied with books the invention of rare books was a process of selection As books are one of the principal means of memory this process also created particular kinds of remembering Taking a European perspective McKitterick looks at these interests as they developed from being matters of largely private concern and curiosity to the larger public and national responsibilities of the first half of the nineteenth century      A Cultural History of the Violin in Nineteenth-Century London Tom Wilder, 2025-03-18 Examines the violin s evolution as not just instrument but valued objet d art through the eyes of musicians collectors makers dealers connoisseurs journalists auctioneers and traders The nineteenth century saw developments in the composition performance and reception of classical music that led to an unprecedented shift in how the violin was appreciated from humble craft object to one of art A utilitarian tool defined in 1800 by its tonal properties became by century s end an expensive objet d art classified almost exclusively in terms of physical visible properties In London s vibrant musical life Cremonese violins acquired special significance and in turn helped shape the beliefs knowledge and behaviour of the disparate actors connected to the instrument musicians collectors makers dealers connoisseurs journalists auctioneers and traders By 1880 London had supplanted Paris as the centre of the international violin trade One firm in particular W E Hill Sons emerged as a major presence in both the local musical community and the global violin market The Hills were makers restorers dealers and connoisseurs They were also writers collectors and melomaniacs deeply implicated in London s instrument auction and exhibition scene The mutually reinforcing nature of these activities which they

consciously turned to account for commercial reasons bear witness to events and developments earlier in the century Their story illuminates this first study of the violin s nineteenth century journey from simple musical instrument to mystified work of art **British Romanticism and the Reception of Italian Old Master Art, 1793-1840** Maureen McCue,2016-05-23

As a result of Napoleon s campaigns in Italy Old Master art flooded into Britain and its acquisition became an index of national prestige Maureen McCue argues that their responses to these works informed the writing of Romantic period authors enabling them to forge often surprising connections between Italian art the imagination and the period s political social and commercial realities Dr McCue examines poetry plays novels travel writing exhibition catalogues early guidebooks and private experiences recorded in letters and diaries by canonical and noncanonical authors including Felicia Hemans William Buchanan Henry Sass Pierce Egan William Hazlitt Percy Shelley Lord Byron Anna Jameson Maria Graham Callcott and Samuel Rogers Her exploration of the idea of connoisseurship shows the ways in which a knowledge of Italian art became a key marker of cultural standing that was no longer limited to artists and aristocrats while her chapter on the literary production of post Waterloo Britain traces the development of a critical vocabulary equally applicable to the visual arts and literature In offering cultural historical and literary readings of the responses to Italian art by early nineteenth century writers Dr McCue illuminates the important role they played in shaping the themes that are central to our understanding of Romanticism **Civilizing Rituals** Carol Duncan,2005-06-20

Illustrated with over fifty photos Civilizing Rituals merges contemporary debates with lively discussion and explores central issues involved in the making and displaying of art as industry and how it is presented to the community Carol Duncan looks at how nations institutions and private individuals present art and how art museums are shaped by cultural social and political determinants Civilizing Rituals is ideal reading for students of art history and museum studies and professionals in the field will also find much of interest here **Ruthless Hedonism** John O'Brian,1999-07 AcknowledgmentsPrologue Matisse and the Culture Generally1 Journalists Recasting the Image of the Modern Artist2 Dealers Paul Rosenberg and Matisse Fils3 Private Collectors Museum Going Millionaires with a Taste for France4 Museums I Public Relations and the Semiprivate Museum5 Museums II Private Relations and the Semipublic Museum6 Artists Contending with the European Modernist Canon7 Critics Clement Greenberg s Defense of Material PleasureEpilogue Merchandising OptimismNotesBibliographyIndex Copyright Libri GmbH All rights reserved **The Aesthetic Relation** Gérard Genette,1999

One of the best known continental theorists writing today G rard Genette here explores our aesthetic relation to works of art Through an analysis of the views of thinkers ranging from David Hume and Immanuel Kant to Monroe C Beardsley Arthur Danto and Nelson Goodman Genette seeks to identify the place of the aesthetic in a theory of artistic appreciation His discussion is rich in detailed examples drawn from all of the arts The Aesthetic Relation is a companion volume to The Work of Art Immanence and Transcendence published by Cornell in 1997 Taken together the two books offer a comprehensive theory of art which addresses the work of art as at once object and

action Genette maintains that our aesthetic relation to all types of objects presupposes that special attention is paid to their outward aspect rather than to their usefulness when appraising them. Such appraisals while wholly subjective and temporary are expressed as objective and universal judgments about the items in question. Further he asserts that our aesthetic relation to works of art in particular is based on an awareness of an aesthetic intention that defines an object as a work of art as well as on an awareness of a work's position in its historical and generic field.

*Revolutionary Paris and the Market for Netherlandish Art* Darius A. Spieth, 2017-11-06 Seventeenth century Dutch and Flemish paintings were aesthetic intellectual and economic touchstones in the Parisian art world of the Revolutionary era but their importance within this framework while frequently acknowledged never attracted much subsequent attention. Darius A. Spieth's inquiry into Revolutionary Paris and the Market for Netherlandish Art reveals the dominance of Golden Age pictures in the artistic discourse and sales transactions before, during and after the French Revolution. A broadly based statistical investigation undertaken as part of this study shows that the upheaval reduced prices for Netherlandish paintings by about 55% compared to the Old Regime and that it took until after the July Revolution of 1830 for art prices to return where they stood before 1789.

**Poetic Exhibitions** Eric Gidal, 2001 In the process of tracing poetic and critical responses to the museum and its collections, *Poem Exhibitions* simultaneously demonstrates the impact of nationalist ideologies and scientific discourse on formal and thematic developments in Romantic poetry and aesthetics.

*Painting the Cannon's Roar* Thomas Tolley, 2017-07-05 From c. 1750 to c. 1810 the paths of music history and the history of painting converged with lasting consequences. The publication of Newton's *Opticks* at the start of the eighteenth century gave a scientific basis to the analogy between sight and sound, allowing music and the visual arts to be defined more closely in relation to one another. This was also a period which witnessed the emergence of a larger and increasingly receptive audience for both music and the visual arts, an audience which potentially included all social strata. The development of this growing public and the commercial potential that it signified meant that for the first time it became possible for a contemporary artist to enjoy an international reputation. Nowhere is this better illustrated than in the career of Joseph Haydn. Although this phenomenon defies conventional modes of study, the book shows how musical pictorialism became a major creative force in popular culture. Haydn, the most popular living cultural personality of the period, proved to be the key figure in advancing the new relationship. The connections between the composer and his audiences and leading contemporary artists including Tiepolo, Mengs, Kauffman, Goya, David, Messerschmidt, Louthenbourg, Canova, Copley, Fuseli, Reynolds, Gillray and West are examined here for the first time. By the early nineteenth century populism was beginning to be regarded with scepticism and disdain. Mozart was the modern Raphael, Beethoven the modern Michelangelo. Haydn, however, had no clear parallel in the accepted canon of Renaissance art. Yet his recognition that ordinary people had a desire to experience simultaneous aural and visual stimulation was not altogether lost, finding future exponents in Wagner and later still in the cinematic arts.

**Enrichment** Luc Boltanski, Arnaud Esquerre, 2020-04-22 This book offers a major new account of modern capitalism and of the ways in which value and wealth are created today Boltanski and Esquerre argue that capitalism in the West has recently undergone a fundamental transformation characterized by deindustrialization on the one hand and on the other by the increased exploitation of certain resources that while not entirely new have taken on unprecedented importance It is this new form of exploitation that has given rise to what they call the enrichment economy The enrichment economy is based less on the production of new objects and more on the enrichment of things and places that already exist It has grown out of a combination of many different activities and phenomena all of which involve in their varying ways the exploitation of the past The enrichment economy draws upon the trade in things that are intended above all for the wealthy thus providing a supplementary source of enrichment for the wealthy people who deal in these things and exacerbating income inequality As opportunities to profit from the exploitation of industrial labour began to diminish capitalism shifted its focus to expand the range of things that could be exploited This gave rise to a plurality of different forms for making things valuable valuing objects in terms of their properties is only one such form The form that plays a central role in the enrichment economy is what the authors call the collection form which values objects based on the gap they fill in a collection This valuation process relies on the creation of narratives which enrich commodities This wide ranging and highly original work makes a major contribution to our understanding of contemporary societies and of how capitalism is changing today It will be of great value to students and scholars in sociology political economy and cultural studies as well as to anyone interested in the social and economic transformations shaping our world

*Old Masters Worldwide* Susanna Avery-Quash, Barbara Pezzini, 2020-10-15 As a result of the Napoleonic wars vast numbers of Old Master paintings were released on to the market from public and private collections across continental Europe The knock on effect was the growth of the market for Old Masters from the 1790s up to the early 1930s when the Great Depression put an end to its expansion This book explores the global movement of Old Master paintings and investigates some of the changes in the art market that took place as a result of this new interest Arguably the most important phenomenon was the diminishing of the traditional figure of the art agent and the rise of more visible increasingly professional dealerships firms such as Colnaghi and Agnew's in Britain Goupil in France and Knoedler in the USA came into existence *Old Masters Worldwide* explores the ways in which the pioneering practices of such businesses contributed to shape a changing market
