Rediscovering Freedom:

Rediscovering a Lost Freedom Patrick Garry, 2017-07-12 Since ratification of the First Amendment in the late eighteenth century there has been a sea change in American life. When the amendment was ratified individuals were almost completely free of unwanted speech but today they are besieged by it. Indeed the First Amendment has for all practical purposes been commandeered by the media to justify intrusions of offensive speech into private life. In its application the First Amendment has become one-sided. Even though America is virtually drowning in speech the First Amendment only applies to the speaker's delivery of speech. Left out of consideration is the one participant in the communications process who is the most vulnerable and least protected: the helpless recipient of offensive speech. In *Rediscovering a Lost Freedom* Patrick Garry addresses what he sees as the most pressing speech problem of the twenty-first century: an often irresponsible media using the First Amendment as a shield behind which to hide its socially corrosive speech. To Garry the First Amendment should protect the communicative process as a whole. And for this process to be free and open, listeners should have as much right to be free from unwanted speech as speakers do of not being thrown in jail for uttering unpopular ideas. *Rediscovering a Lost Freedom* seeks to modernize the First Amendment. With other constitutional rights, changed circumstances have prompted changes in the law. Restrictions on political advertising seek to combat the perceived influences of big money; the Second Amendment right to bear arms, due to the prevalence of violence in America, has been curtailed; and the Equal Protection clause has been altered to permit affirmative action programs aimed at certain racial and ethnic groups. But when it comes to the flood of violent and vulgar media speech, there has been no change in First Amendment doctrines. This work proposes a government-facilitated private right to censor. **Rediscovering Freedom** John Lester, Pierre Spoor, 1992

Rediscovering Values Hugh Mercer Curtler, 2016-06-16 The author's primary purpose in this short book is to clearly define the nature of value and restore it to a central place in discussions of ethical and aesthetic problems. He begins the book with a broad cultural perspective on the issue of postmodernism in general, then takes a closer look at recent attempts to reduce values to evaluation to deny their objectivity. The central chapter focuses on the question "What Is Value?" after which Curtler discusses values in the fine arts and literature, concluding with the question of values in education.

Rediscovering America's Sacred Ground Barbara A. McGraw, 2012-02-01 Returning to the ideas of John Locke and the Founders themselves, Barbara A. McGraw examines the debate about the role of religion in American public life and unravels the confounded rhetoric on all sides. She reveals that no group has been standing on proper ground and that all sides have misused terminology: religion, secular, dichotomies, public, private, and concepts, separation of church and state, in ways that have little relevance to the original intentions of the Founders. She rediscovers a theology underlying the founding documents of the nation that is neither anyone's particular religion nor one requiring religion. Instead, it justifies freedom of conscience for all and provides a two-tiered public forum: a civic public forum and a conscientious public forum for the debate itself and

the actions that debate inspires America's Sacred Ground this theology and its public forum determines the meaning of freedom and the ways in which Americans can pursue the good good government good communities good families good relations between individuals and good individuals from a plurality of perspectives By exploring our past McGraw answers the critical question Who are we as a people and what do we stand for Undoing the Nicotine Noose: Your Guide to Freedom Pasquale De Marco, 2025-08-11 Are you tired of feeling trapped by nicotine addiction Do you long to break free from its grip and reclaim your health happiness and freedom Undoing the Nicotine Noose Your Guide to Freedom is the definitive guide to quitting smoking for good Drawing on years of experience and research renowned addiction expert Pasquale De Marco provides a comprehensive evidence based roadmap to lasting freedom from nicotine This book is not just another collection of empty promises or quick fixes It is a practical holistic approach that addresses both the physical and psychological aspects of addiction Pasquale De Marco believes that everyone has the potential to quit smoking regardless of how long they have been addicted or how many times they have tried and failed in the past Through engaging anecdotes real life examples and cutting edge research Undoing the Nicotine Noose Your Guide to Freedom provides a wealth of practical advice and proven strategies for overcoming cravings rewiring your mind and building a strong support system Pasquale De Marco emphasizes the importance of self care mindfulness and building a strong support system to increase the chances of long term success With compassion and understanding Pasquale De Marco guides readers through the complexities of nicotine addiction empowering them with the knowledge and tools they need to Understand the grip of nicotine and identify triggers Develop effective coping mechanisms and strategies Set realistic goals and maintain motivation Challenge negative beliefs and cultivate self compassion Practice mindfulness and reprogram their thoughts Build a healthy self esteem and embrace their strengths Quit smoking without relying on willpower Manage nicotine withdrawal symptoms effectively Nourish their bodies and minds for optimal recovery Find support from others and utilize professional help when needed Prevent relapse and maintain their freedom Whether you are a first time quitter or have tried and failed many times before Undoing the Nicotine Noose Your Guide to Freedom is the ultimate resource for breaking free from nicotine addiction and living a healthier happier and smoke free life If you like this book write a review **Rediscovering Lenin** Michael Brie, 2019-07-31 Translated from the original German Lenin Neuentdecken and available in English for the first time this volume rediscovers Lenin as a strategic socialist thinker through close examination of his collected works and correspondence Brie opens with an analysis of Lenin's theoretical development between 1914 and 1917 in preparation for his critical decision to dissolve the Constituent Assembly in January 1918 in a struggle for power This led from the dialectics of revolutionary practice and social analysis to a new understanding of socialism which is compared and contrasted to the alternative Marxist ideas and conceptions of the state posited by Karl Kautsky and Rosa Luxemburg Rediscovering Lenin then moves to 1921 when Lenin begins a new stage of his theoretical development concerned with resolving the reversal of

the revolution's aims and its results This process remains unfinished and the questions raised a hundred years ago remain How can one intervene successfully and responsibly in social and political crises What role do social science theories ideological frameworks and other practices play in transforming the economic political and cultural power structures of a society Brie concludes with a retrospective on the ideas developed by Marx and in the Second International and their impact on Lenin's strategic thinking Placing Lenin's writing itself in the foreground and arguing from inside his own self-learning Rediscovering Lenin focuses on the reflective relationship between ideology theory and practice

To Set at Liberty Delwin Brown, 2011-07-19 The greatest event in twentieth century church history was the Second Vatican Council The greatest achievement which this event has made possible is the liberation theology and praxis of Latin America In this event and in this achievement freedom has won a great victory The consequences of this victory have been almost as

important for Protestants as for Catholics Indeed they have included the destruction of the great wall that separated these two communities for so long For a while this seemed to render Catholic thought highly dependent upon the last two centuries of Protestant theological development But the actual result is that the great initiatives of the global Christian movement are now in the hands of Catholics In so far as there is a center for the theology of the Protestant Orthodox World Council of Churches that center is constituted by the primarily Catholic theology of liberation Sadly however we must recognize that while liberation theology advances in the Third World First World churches are drawing back from their supportive interest This is equally true of Catholics and Protestants of Germans and North Americans Churches in the First World are attending to increasing demands of their more conservative constituencies and seem less and less able to adopt positions that transcend economic and national interests It seems all too likely that in the eighties a politicized Third World Christianity will confront a First World church concerned for other worldly salvation and peace of mind and whose political dimension is exhausted by its nostalgia for an older morality and its sanctification of existing structures of power Brown's book makes evident how natural it is for North American theologians to share in the themes of liberation theology Karl Barth astutely observed that when the United States produced its own theology this should be a theology of freedom To Set at Liberty is just such a theology of freedom One of the most important lessons the Latin Americans have to teach us is that improved understanding by itself will not go far to produce those changes in United States policy our church life or personal life styles which must occur before our national role ceases to block the movement of political liberation in Latin America And elsewhere The message of liberation theology is that doctrines developed outside the matrix of practice are likely to have too little effect upon practice Process theology must learn this lesson too But meanwhile we can be grateful that Brown has done much to pave the way to partnership between one strand of North American theology and the great movement of Latin American theology from the Foreword by John B Cobb Jr Delwin Brown 1935-2009 was Dean Emeritus of the Pacific School of Religion He also served as Harvey H Pontoff Professor of Christian Theology at Iliff School of Theology and taught at Arizona State University His previous work has appeared in such journals as Religious Studies Process Studies Journal of the American Academy of Religion and Evangelische Kommentare *South African Theatre as/and Intervention*, 2021-11-22 One of the most striking features of cultural life in South Africa has been the extent to which one area of cultural practice theatre has more than any other testified to the present condition of the country now in transition between its colonial past and a decolonized future But in what sense and how far does the critical force of theatre in South Africa as a mode of intervention continue In the immediate post election moment theatre seemed to be pursuing an escapist nostalgic route relieved of its historical burden of protest and opposition But as the contributors to this volume show new voices have been emerging and a more complex politics of the theatre involving feminist and gay initiatives physical theatre festival theatre and theatre for education has become apparent Both new and familiar players in South African theatre studies from around

the world here respond to or anticipate the altered conditions of the country while exploring the notion that theatre continues to intervene This broad focus enables a wide and stimulating range of approaches contributors examine strategies of intervention among audiences theatres established and fledgling writers canonical and new texts traditional and innovative critical perspectives The book concludes with four recent interviews with influential practitioners about the meaning and future of theatre in South Africa Athol Fugard Fatima Dike Reza de Wet and Janet Suzman
