

A dramatic landscape photograph featuring a calm body of water, likely a fjord, nestled between steep, dark mountains. A brilliant beam of light breaks through a gap in the heavy, grey clouds, shining down onto the water's surface and creating a clear, shimmering reflection. The foreground shows a grassy, rocky shoreline. The overall mood is awe-inspiring and spiritual.

This book considers William Wordsworth's use of iconography in his long poem The Excursion Through the iconographical approach the author steers a middle course between The Excursion's two very different interpretive traditions one focusing upon the poem's philosophical abstraction the other upon its touristic realism Fresh readings are also offered of Wordsworth's other major works including The Prelude Yen explores Wordsworth's iconography in The Excursion by tracing allusions and correspondences in an abundance of post 1789 and earlier verbal and pictorial sources as well as in Wordsworth's prose and poetry He analyses how the iconographical images in The Excursion contribute to and impose limitations on the overarching preoccupations of Wordsworth's writings particularly the themes of paradise lost and paradise regained in the post
