s ancestry over 300 years of the Union and explaining how it shaped his background Brown charts what it was like growing up in Scotland in the 1950s and 1960s and explains the influence of religion education and Scotland s unique industrial structure on the shaping of his and Scotland s identity He sets out the dramatic economic social and cultural changes of the past fifty years and the vastly different prospects his children will face demonstrating that a sense of Scottish national identity has always remained strong and how Scottish institutions have always fiercely guarded their independence The referendum should not be seen as a battle between Scotland and Britain he argues but one between two visions of Scotland s future one that sees Scotland prosper with a strong Scottish Parliament that is part of the UK and one that severs all the political links Scots have with the UK Brown puts forward his proposal for a constitutional settlement that could unite the country and argues that in tune with Scotland s history of deep engagement with the wider world as inventors explorers traders missionaries business leaders and aid workers the best future for Scots is not to leave Britain but to continue to shape it
