<p>The Hebrew alphabet consists of 22 letters written from right to left. Five letters have different forms when used at the end of a word א, ב, ג, ד, ה. Originally, the alphabet was purely a consonantal text (abjad), but is now considered an "impure abjad." To preserve the vowel sounds, the Masoretes (600-1000CE) developed several different sets of vocalization and diacritical symbols called niqqud "points." This system was designed to be implemented around the consonantal text.</p>							 Taw 'th' Without Dagesh Lene
