Reframing Culture:

Reframing Culture William Uricchio, Roberta E. Pearson, 2014-07-14 The works of Shakespeare and Dante or the figures of George Washington and Moses do not often enter into popular conceptions of the silent cinema yet between 1907 and 1910 the Vitagraph Company frequently used such material in producing quality films that promulgated respectable culture William Uricchio and Roberta Pearson situate these films in an era of immigration labor unrest and mainstream American xenophobia in order to explore the cultural views promoted by the films and the ways the audiences the middle classes as well as workers and immigrants related to what they saw The authors associate the production of quality films with a top down forging of cultural consensus on issues such as patriotism and morality and reveal the surprising bottom up negotiations of these films meanings Devoting chapters to the literary historical and biblical subjects used by Vitagraph this book draws upon plays pageants school textbooks and even product advertisements to illuminate the conditions of cinematic production and reception It provides a detailed look at one aspect of the film industry s transformation from despised cheap amusement to the nation s dominant mass medium while showing how cultural elites engaged in a struggle similar to that of today s American academy over the literary canon and national value systems Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

Quality Hollywood Geoff King, 2015-11-30 What defines quality in contemporary Hollywood film Although often seen as inhospitable to such work the studios of the blockbuster franchise era continue to produce features that make claims to higher status Films such as *The Social Network* *The Assassination of Jesse James by the Coward Robert Ford* and *Mystic River* are marked as distinctive from the mainstream norm But how exactly and how are such qualities mixed with more familiar Hollywood ingredients as found

in larger doses in other examples such as *Blood Diamond* and the blockbuster scale *Inception* *Quality Hollywood* is the first book to address these issues featuring close analysis of case study films critical responses and the wider notions of cultural value on which these draw Geoff King argues that such films retain a presence as a minority strand of studio output The reasons for this combine factors relating to economics the power of certain filmmakers and Hollywood's investment in its own prestige

Rewriting Moses Brian Britt, 2004-08-01 Exalted for centuries as a hero and author of the Bible Moses is inseparable from biblical tradition itself Moses is also an inherently ambiguous figure and a perennial focus of controversy from ancient disputes of priestly rivalry to modern issues of class gender and race In *Rewriting Moses* Brian Britt analyses elements of polemic and ideology in the Moses of the Bible of film novel visual art and scholarship He argues that the biblical Moses lives within writing while the post biblical Moses lives more often in biography Yet later rewritings of Moses refract biblical traditions of writing in surprising ways *Rewriting Moses* provides an original account of the Freudian insight that traditions preserve what they repress This is volume 14 in the *Gender Culture Theory* series and is volume 402 in the *Journal for the Study of the Old Testament Supplements* series
