Jaroszyńska-Kirchmann, 2004-10-15 At midcentury two distinct Polish immigrant groups those Polish Americans who were descendants of economic immigrants from the turn of the twentieth century and the Polish political refugees who chose exile after World War II and the communist takeover in Poland faced an uneasy challenge to reconcile their concepts of responsibility toward the homeland The new arrivals did not consider themselves simply as immigrants but rather as members of the special category of political refugees They defined their identity within the framework of the exile mission an unwritten set of beliefs goals and responsibilities placing patriotic work for Poland at the center of Polish immigrant duties In *The Exile Mission* an intriguing look at the interplay between the established Polish community and the refugee community Anna Jaroszyńska-Kirchmann presents a tale of Polish Americans and Polish refugees who like postwar Polish exile communities all over the world worked out their own ways to implement

**The German-Soviet War** Jeff Rutherford, 2025-06-15 The German Soviet War revises the conflict's generally accepted understanding through case studies demonstrating the complexity of the war at the local level The contributors assembled by Jeff Rutherford and Robert von Maier examine the multiplicity of experiences of individuals caught in this savage war starting with the German war of annihilation launched against Soviet state and society in June 1941 This detailed collection shows that the particular nature of the war in the east resulted from an intertwining of military ideological and economic motives The German Soviet War puts Germany's murderous policies toward Soviet Jews and prisoners of war and the justification for these policies and actions within the ranks of the army into the larger context of battlefield events The neglected topic of the destructive German scorched earth retreats receives detailed analysis demonstrating the importance of ideology and economic thinking in the German army's war The difficulty in reconciling economic and ideological considerations also played a prominent role in Soviet attempts to rebuild after the war The German Soviet War not only brings attention to these devastating events but also revises the general narrative of the war By internationalizing the conflict through examinations into the various Axis and Allied nations and peoples who participated in the fighting this volume provides new ways of conceptualizing their motivations actions and importance in its eventual outcome Together the contributions to The German Soviet War provide new ways of examining the defining conflict of the Second World War

**Memory and Family in Australian Refugee Histories** Alexandra Delliós, 2020-06-09 This book revisits

Australian histories of refugee arrivals and settlement with a particular focus on family and family life It brings together new empirical research and methodologies in memory and oral history to offer multilayered histories of people seeking refuge in the 20th century Engaging with histories of refugees and family and how these histories intersect with aspects of memory studies including oral history public storytelling family history and museum exhibitions and objects the book moves away from a focus on individual adults and towards multilayered and rich histories of groups with a variety of intersectional affiliations The contributions consider the conflicting layers of meaning built up around racialised and de racialised refugee groups throughout the 20th century and their relationship to structural inequalities their shifting socio economic positions and the changing racial and religious categories of inclusion and exclusion employed by dominant institutions As the contributors to this book suggest family functions as a means to revisit or research histories of mobility and refuge This focus on family illuminates intimate aspects of a history and the emotions it contains and enables complicating the passive victim stereotype often applied to refugees As interest in refugee integration continues to rise as a result of increasingly vociferous identity politics and rising right wing rhetoric this book offers readers new insights into the intersections between family and memory and the potential avenues this might open up for considering refugee studies in a more intimate way This book was originally published as a special issue of *Immigrants Minorities* **The Call of the Homeland** Allon Gal, Athena S.

Leoussi, Anthony D. Smith, 2010-03-08 This book brings together an array of distinguished scholars to consider diaspora nationalism Through theoretical typological and case specific essays that discuss the Jewish Greek Armenian Irish Turkish Sikh Ukrainian Hindu Pentecostal and Muslim diasporas the book shows the varieties and qualities of attachment of diaspora communities to their ancestral homelands and the role that hostlands as well as the immigrants play in the form and intensity of these attachments Setting contemporary diaspora nationalisms in the context of globalisation with its ever developing methods of transportation and communication the book further shows the emergence of new concepts of diaspora new notions of being at home and away from home and of new ways of creating and sustaining ethnic networks and contact with the homeland such as the internet and tourism **Warlands** P. Gatrell, N. Baron, 2009-10-22 The displacement of population during and after the Second World War took place on a global scale and formed part of a longer historical process of violence territorial reconfiguration and state development This book focuses on the profound political social and economic upheavals in the Soviet Union and Eastern Europe at this time **Ethnocide: A Cultural Narrative of Refugee Detention in Hong Kong** Joe Thomas, 2017-11-22 This title was first published in 2000 An ethnographic inquiry into the socio cultural dynamics of the Vietnamese asylum seeker detention centres in Hong Kong during the period of 1988 1995 It deals essentially with the British asylum policy towards Vietnamese refugees and its outcome in Hong Kong Based on the author's first hand experience of working in refugee camps this book argues that the administrators managed to solve the crisis by perpetuating horrendous human rights violations and subsequent ethnocide of the asylum seekers trapped in the detention centres
