Refugees and Development in Africa Gaim Kibreab, 1987 Includes statistics Encyclopedia of Diasporas Melvin Ember, Carol R. Ember, Ian Skoggard, 2004-11-30 Immigration is a topic that is as important among anthropologists as it is the general public Almost every culture has experienced adaptation and assimilation when immigrating to a new country and culture usually leaving for what is perceived as a better life Not only does this diaspora change the country of adoption but also the country of origin Many large nations in the world have absorbed and continue to absorb large numbers of immigrants The foreseeable future will see a continuation of large scale immigration as many countries experience civil war and secessionist pressures Currently there is no reference work that describes the impact upon the immigrants and the immigrant societies relevant to the world's cultures and provides an overview of important topics in the world's diasporas The encyclopedia consists of two volumes covering three main sections Diaspora Overviews covers over 20 ethnic groups that have experienced voluntary or forced immigration These essays discuss the history behind the social economic and political reasons for leaving the original countries and the cultures in the new places Topics discusses the impact and assimilation that the immigrant cultures experience in their adopted cultures including the arts they bring the struggles they face and some of the cities that are in the forefront of receiving immigrant cultures Diaspora Communities include over 60 portraits of specific diaspora communities Each portrait follows a standard outline to facilitate comparisons The Encyclopedia of Diasporas can be used both to gain a general understanding of immigration and immigrants and to find out about particular cultures topics and communities It will prove of great value to researchers and students curriculum developers teachers and government officials It brings together the disciplines of anthropology social studies political studies international studies and immigrant and immigration studies Refugees and Development in Africa Peter Nobel, 1987

on different drivers of involuntary displacement and people's uprooting. The first part covers geopolitical conflicts rooted partly in the colonial and Cold War geographies. The second part then focuses on security aspects and conflicts while the third looks at encampment and refugee policies as well as refugee agencies. Part four highlights issues of forced repatriation and human trafficking. Lastly, part five analyzes the dynamics of refugee camps.

Internally Displaced, Refugees and Returnees from and in the Sudan Desirée Nilsson, 2000. Liguria is another country. They do things differently there, particularly when it comes to food. Lucio Galletto grew up in Liguria at the eastern end of the Riviera di Levante coast of the rising sun. He didn't realize how special his region was until he fell in love with an Australian girl and traveled 12,000 kilometers to be with her. In 2008, Lucio and writer David Dale along with photographer Paul Green returned to the birthplace of ravioli and pesto and wild greens pie to investigate how the cooking of Lucio's region had evolved during his 25-year absence. They found a new breed of chefs, farmers, and fishermen adapting traditions to the environmental concerns of the 21st century. Still using the wonderful array of local herbs, vegetables, and seafood, they apply a lighter touch and a more adventurous spirit. In this stunningly photographed book, Lucio brings us the fruits of his travels: 180 delicious recipes that respect the experience of the past and anticipate the demands of the future; dishes that are fun to cook, beautiful to look at, a pleasure to share, and kind to the body. And importantly, that pay homage to the sunny Riviera di Levante from which Lucio's culinary journey began. This book was the winner of the 2008 Gourmand Award for Best Italian Cuisine Book, Australian Category, and the 2009 Cordon d'Or Cuisine Award for Best Illustrated Culinary Book.

Somali Refugees in the Horn of Africa Sidney R. Waldron, Naima Ali Hasci, 1995. [African Refugees](#) Toyin Falola, Olajumoke Jacob-Haliso, 2023-01-03. *African Refugees* is a comprehensive overview of the context, causes, and consequences of refugee lives, discussing issues, policies, and solutions for African refugees around the world. It covers overarching topics such as human rights, policy frameworks, refugee protection, and durable solutions, as well as less studied topics such as refugee youths, refugee camps, LGBTQ refugees, urban refugees, and refugee women. It also takes on rare but emergent topics such as citizenship and the creativity of African refugees. Toyin Falola and Olajumoke Jacob Haliso showcase the voices and experiences of individual refugees through the sweep of history to tell the African refugee story from the historical past through current developments, covering the full range of experience from the causes of flight to living in exile, all while maintaining a persistent focus on the complicated search for solutions. *African Refugees* recognizes African agency and contributions in pursuit of solutions for African refugees over time but avoids the pitfalls of the colonial gaze where refugees are perpetually pathologized and Africa is always the sole cause of its own problems, seeking to complicate these narratives by recognizing African refugee issues within exploitative global colonial and neo-colonial systems of power.

Insurgent Fragmentation in the Horn of Africa Michael Woldemariam,2018-02-15 When insurgent organizations factionalize and fragment it can profoundly shape a civil war its intensity outcome and duration In this extended treatment of this complex and important phenomenon Michael Woldemariam examines why rebel organizations fragment through a unique historical analysis of the Horn of Africa s civil wars Central to his view is that rebel factionalism is conditioned by battlefield developments While fragmentation is caused by territorial gains and losses counter intuitively territorial stalemate tends to promote rebel cohesion and is a critical basis for cooperation in war As a rare effort to examine these issues in the context of the Horn of Africa region based upon extensive fieldwork this book will interest both scholarly and non scholarly audiences interested in insurgent groups and conflict dynamics

Rights in Exile Guglielmo Verdirame,Barbara E. Harrell-Bond,2005 Of the estimated 12 million refugees in the world more than 7 million have been confined to camps effectively warehoused in some cases for 10 years or more Holding refugees in camps was anathema to the founders of the refugee protection regime Today with most refugees encamped in the less developed parts of the world the humanitarian apparatus has been transformed into a custodial regime for innocent people Based on rich ethnographic data Rights in Exile exposes the gap between human rights norms and the mandates of international organisations on the one hand and the reality on the ground on the other It will be of wide interest to social scientists and to human rights and international law scholars Policy makers donor governments and humanitarian organizations especially those adopting a rights based approach will also find it an invaluable resource But it is the refugees themselves who could benefit the most if

these actors absorb its lessons and apply them *Losing Place* Johnathan Bascom, 2001-09-01 Refugee flight settlement and repatriation are not static self contained or singular events Instead they are three stages of an ongoing process made and mirrored in the lives of real people For that reason there is an evident need for historical and longitudinal studies of refugee populations that rise above description and trace the process of social transformation during the full circle of flight resettlement and return home This book probes the economic forces and social processes responsible for shaping the everyday existence for refugees as they move through exile Children of the Crisis Annika Lems, Kathrin Oester, Sabine Strasser, 2021-09-30 Every year thousands of young people on the run from war and persecution or escaping poverty and chronic instability make their way to Europe without their parents Embarking on long and often dangerous journeys they have either become separated from their families on the way or set out on their own In recent years the number of unaccompanied minors arriving in Europe has risen drastically It has led to a major shift in perception in European countries initiating a wealth of policies and infrastructures targeted specifically at unaccompanied child refugees This book investigates the emergence of the unaccompanied child refugee as a crisis figure It shows how the sense of exceptionality attached to this figure translates into ambiguous and at times extremely contradictory social practices that have far reaching effects on the lives of refugee youth By bringing together ethnographically driven research on unaccompanied minors in some of the core arrival and transit countries in or into Europe it shows the divergent ways ideas on childhood deservingness and vulnerability are interpreted lived and grappled with on the ground By laying the focus on young people s own experiences and perspectives it establishes a deeper understanding of the ways unaccompanied asylum seekers live and make sense of shifting social terrains The chapters in this book were originally published as a special issue of the Journal of Ethnic and Migration Studies
