Long Term Unemployment An International Perspective

Nicholas Crafts, Peter Fearon

Long Term Unemployment An International Perspective:

Long-term Unemployment Kenneth Walsh, 1987-06-18 **Combating Long-Term Unemployment** Kenneth Dyson, 2023-10-20 First published in 1989 Combating Long Term Unemployment follows on from and is a companion to Local Authorities and New Technologies The book seeks to inform debate by analysing policy responses to the problem of long term unemployment and by focusing on the role of local initiatives in a European context Long term unemployment in Europe is a complicated and multifaceted problem the policy responses to which need to be studied against various contexts It is designed to appeal to all those interested in policies to combat long term unemployment local and central government officials private sector organizations whose work is relevant to locally based initiatives and interested academics

Interwar Unemployment in International Perspective Barry J. Eichengreen, T.J. Hatton, 2012-12-06 High unemployment has been one of the most disturbing features of the economy of the 1980s For a precedent one must look to the interwar period and in particular to the Great Depression of the 1930s It follows that recent years have been marked by a resurgence of interest amongst academics in interwar unemployment The debate has been contentious There is nothing like the analysis of a period which recorded rates of unemployment approaching 25 per cent to highlight the differences between competing schools of thought on the operation of labour markets Along with historians economists whose objective is to better understand the causes character and consequences of contemporary unemployment and sociologists seeking to understand contemporary society's perceptions and responses to joblessness have devoted increasing attention to this historical episode Like many issues in economic history this one can be approached in a variety of ways using different theoretical approaches tools of analysis and levels of disaggregation Much of the recent literature on the functioning of labour markets in the Depression has been macroeconomic in nature and has been limited to individual countries Debates from the period itself have been revived and new questions stimulated by modern research have been opened Many such studies have been narrowly focused and have failed to take into account the array of historical evidence collected and analysed by contemporaries or reconstructed and interpreted by historians **International Perspectives on the Youth Labor Market: Emerging Research and Opportunities** Amine, Samir, 2020-06-26 Persistent unemployment and rising wage differences at the expense of low skilled workers has characterized the labor market in most developed countries Since the last economic crisis unemployment rates and pay inequalities have increased among workers under 25 years of age thus creating an ever widening financial gap for an entire generation Those who do not have a qualification or post secondary diploma often find themselves in precarious jobs at minimum wage Countries are now working to adopt reforms to improve the situation of young people in the labor market International Perspectives on the Youth Labor Market Emerging Research and Opportunities provides emerging research exploring the theoretical and practical aspects of financial inequality and applications within global economics Unlike literature that focuses only on developed countries this book also addresses

emerging economies whose labor market is often characterized by a dualism that makes the situation of young workers worse. Featuring coverage on a broad range of topics such as unemployment rate, labor reform, and job insecurity, this book is ideally designed for economists, government officials, policymakers, executives, managers, business professionals, researchers, academicians, and students.

International Perspectives and Strategies for Managing an Aging Workforce Ince, Fatma, 2022-03-11. Older employees are often seen as an obstacle and not as an opportunity for companies, especially regarding the transfer of knowledge and experience. Effective development and utilization of older professional and managerial employees is an important issue as most organizations are not prepared to tailor their training methods to the needs and preferences of these employees due to negative stereotypes. Managing a rapidly aging workforce and sustaining economic dynamism calls for systematic research to prevent age discrimination due to an incomplete knowledge of older workers and politically challenging policy choices that require strong political commitments, robust management leadership, and social consensus. International Perspectives and Strategies for Managing an Aging Workforce examines the differences in stereotypes of older employees compared to younger employees in companies, analyzes the impact of the aging workforce on retention, productivity, and well-being, and investigates organizational systems, processes, and practices for managing older workers. Covering a range of topics such as retention and retirement, this reference work is ideal for researchers, academicians, practitioners, business owners, managers, human resource workers, instructors, and students.

International Perspectives in the Early Years Linda Miller, Claire Cameron, 2013-12-05. This informative and wide-ranging book argues persuasively for the value of multiple perspectives, both international and disciplinary, in the study and practice of early childhood education because they feed our imaginations and provoke us to think. And while illustrating the many differences that exist between countries, it highlights the shared issues confronting us wherever we live. Emeritus Professor Peter Moss, Institute of Education, University of London. Stemming from original research in the field, a range of expert contributors explore the key themes and debates surrounding international perspectives on Early Childhood Education and Care (ECEC). Drawing on studies carried out in Norway, Mexico, France, Hungary, and many more countries, the book covers a wide range of topics including the relationship between early childhood and primary education, gender and play in ECEC curriculum, inclusion, early interventions, working with families, place-based learning. With case studies, detailed suggestions for further reading at different levels, and discussion points, this is a key text for students of Early Years at all levels, from Foundation Degree to Masters, as well as current early years practitioners. Linda Miller is Professor Emerita of Early Years, The Open University. Claire Cameron is Senior Reader in Education at the Thomas Coram Research Unit, Institute of Education, University of London.

At Home and Abroad Francine D. Blau, Lawrence M. Kahn, 2002-04-11. Throughout the latter part of the 20th century, the U.S. labor market performed differently than the labor markets of the world's other advanced industrialized societies. In the early 1970s, the United States had higher unemployment rates than its Western European

counterparts But after two oil crises rapid technological change and globalization rocked the world's economies unemployment fell in the United States while increasing dramatically in other nations At the same time wage inequality widened more in the United States than in Europe In *At Home and Abroad* Cornell University economists Francine D Blau and Lawrence M Kahn examine the reasons for these striking dissimilarities between the United States and its economic allies Comparing countries the authors find that governments and unions play a far greater role in the labor market in Europe than they do in the United States It is much more difficult to lay off workers in Europe than in the United States unemployment insurance is more generous in Europe and many fewer Americans than Europeans are covered by collective bargaining agreements Interventionist labor market institutions in Europe compress wages thus contributing to the lower levels of wage inequality in the European Union than in the United States Using a unique blend of microeconomic and microeconomic analyses the authors assess how these differences affect wage and unemployment levels In a lucid narrative they present ample evidence that as upheavals shook the global economy the flexible U S market let wages adjust so that jobs could be maintained while more rigid European economies maintained wages at the cost of losing jobs By helping readers understand the relationship between different economic responses and outcomes *At Home and Abroad* makes an invaluable contribution to the continuing debate about the role institutions can and should play in creating jobs and maintaining living standards

European Populations Van der Kaa, 2012-12-06 The changing demographic landscape which Europe is facing today and in the next decades reflects the past These changes constitute important challenges to European populations and societies Shifts in fertility and family formation in health morbidity and mortality in internal and international migration as well as changes in age structures in households in labour forces and in population growth and decline will influence the living conditions and well being of Europe's population directly or indirectly The demographic challenge also concerns the environment local regional and national developments education production and consumption patterns economic competitiveness social security housing employment and transport and health and social care provisions These issues their mechanisms determinants and consequences also challenge the scientific study of population As a major forum and market place for scientific demographic debate the 1999 European Population Conference EPC99 was organized to take up this challenge On the threshold of the third millennium European populations are united in diversity and face major demographic issues

AI and Diversity in a Datafied World of Work Joana Vassilopoulou, Olivia Kyriakidou, 2025-04-24 Artificial intelligence AI is rapidly transforming the world of work but how does it impact diversity equity and inclusion DEI *AI and Diversity in a Datafied World of Work* addresses the critical question of whether AI will create more inclusive workplaces or exacerbate existing inequalities

Inequality at Work Gregory DeFreitas, 1991 This book presents a comprehensive economic analysis of the rapidly growing Hispanic labour force in the U S The author evaluates the leading economic theories on immigration and on racial and ethnic inequality in incomes and employment He

then tests these theories empirically with a variety of recent national data sets Many of the findings throw into question widely held views among the public academics and policymakers The author surveys the evolution of each of the main national origin subgroups Mexicans Puerto Ricans Cubans Central and South Americans and other Hispanic Labour forces in the U S He finds that the Hispanic disadvantage in income poverty and unemployment has remained chronically large and has actually been increasing in recent years He finds that Hispanics are unusually vulnerable to recessionary downturns in the national economy His study of the impact of undocumented Hispanic immigration into the U S contradicts claims that immigration either legal or illegal increases the unemployment or lowers the earnings of American workers *International Perspectives on Mental Health* Hamid Ghodse, 2011-06 Is a unique collection of authoritative briefings from over 90 countries around the world Each chapter covers a particular country's demographics mental health resources undergraduate education postgraduate training in psychiatry research activities mental health legislation and policy and development strategies

Knowledge and Economic Conduct Nico Stehr, 2002-01-01 Changing economic circumstances namely an end to the primacy of labour and property as determinants of prosperity have created a need for a new theoretical platform one that transcends standard economic discourse *International Perspectives on Language and Work* Stéphanie Cassilde, Adeline Gilson, 2025-07-02 This volume expands the definitions of language and work in researching their mutual influences It considers language as a working tool a vector of occupational identity and so on and work as the needed daily interrelation tasks communication constraints and so on The volume covers various national contexts India France Argentina Morocco Portugal Palestine Brazil Singapore and Canada The diversity of countries and linguistic spaces presented here enriches the perspectives in terms of transferring the insights from one situation to another The specific cases discuss among others how an occupation may be structured by language use how language embeds occupations within certain social contexts challenges of teaching in multilingual classrooms and how language affects therapeutic discourse and communication between patients and doctors The chapters provide detailed contexts and backgrounds so that readers can enjoy entering into each context and seeing similarities and differences with their own research field to incorporate the findings into their own research This volume is intended for sociologists interested in professionalisation industrial and occupational sociology sociology of work public health and management research **Marginality in Space - Past, Present and Future** Heikki Jussila, Roser Majoral, Chris C. Mutambirwa, 2019-01-15 Published in 1999 this book discusses the role that marginality has had in the past has today and will have in the future The Commission on Dynamics of Marginal and Critical Regions held its annual conference in Harare Zimbabwe in July 1997 This volume represents a carefully selected revised and reviewed selection of the papers presented at this conference The articles reflect the various aspects of marginality currently existing in the world and it is the intention of the Commission to pursue research that would eventually result in a more coherent approach towards the issues of marginality in space The articles in the book are grouped into three main parts The first part

discusses the role of theory and also methodological aspects and approaches towards the question of marginality The second part gives a time space perspective by examining the past present and future aspects of marginality The third part is dedicated to empirical evidence about the changes in existing marginality and its possible future implementations The conclusions of the book summarize the various and sometimes conflicting aspects of marginality and its images both in space and in time

War and Progress Peter Dewey,2014-09-11 This is an account of how the daily lives of ordinary peoples were changed profoundly and permanently by these three momentous decades 1914 1945 Often depicted in negative terms Peter Dewey finds a much more positive pattern in the wealth of evidence he lays before us His is a story of economic achievement and the emergence of a new sense of social community in the nation rather than a saga of disenchantment and decline

The Great Depression of the 1930s Nicholas Crafts,Peter Fearon,2013-02-28 This book brings together contributions written by internationally distinguished economic historians The editors explore the current fascination with the 1930s great depression and link it with the great recession which began in 2007 and still poses a threat to economic stability

Perspectives on Modern Economy Aizhan Khoich,Ahmet Arif Eren,Ali Eren Alper,2020-09-10 This book aims to provide researchers from basic disciplines of the economics fields such as consumer behavior and public economy with a variety of distinctive perspectives in today s world where the behavior and preferences of economic actors have changed completely and the economic policies of countries have been redrafted

The European Social Model and Transitional Labour Markets Ralf Rogowski,2016-02-11 Bringing together theoretical empirical and comparative perspectives on the European Social Model ESM and transitional labour market policy this volume contains theoretical accounts of the ESM and a discussion of policy implications for European social and employment policies that derive from research on transitional labour markets It provides an economic as well as legal assessment of the European Employment Strategy and contains evaluations of new forms of governance both in European and member state policies including discussions of the potential and limits of soft law instruments Country studies of labour market reforms in Denmark the Netherlands Belgium and France assess their contribution to an emerging ESM while comparative accounts of the ESM examine mobility and security patterns in Europe and beyond and evaluate recent flexicurity policies from a global perspective

Anti-Oppressive Social Work Practice Karen Morgaine,Moshoula Capous-Desyllas,2014-07-22 Provides an important step in the ongoing evolution of generalist practice in social work It continues a rich tradition that challenges the profession to become more and more explicit about the revolutionary aspect of practice Christian Itin Metropolitan State University of Denver

Livable Cities from a Global Perspective Roger Caves,Fritz Wagner,2018-05-11 Livable Cities from a Global Perspective offers case studies from around the world on how cities approach livability They address the fundamental question what is considered livable The journey each city has taken or is currently taking is unique and context specific There is no such thing as a one size fits all approach to livability Some cities have had a long history of developing livability policies and programs that focus on

equity economic and environmental concerns while other cities are relatively new to the game In some areas government has taken the lead while in other areas grassroots activism has been the impetus for livability policies and programs The challenge facing our cities is not simply developing a livability program We must continually monitor and readjust policies and programs to meet the livability needs of all people The case studies investigate livability issues in such cities as Austin Texas Helsinki Finland London United Kingdom Warsaw Poland Tehran Iran Salt Lake City United States Rio de Janeiro Brazil Sydney Australia and Cape Town South Africa The chapters are organized into such themes as livability in capital city regions livability and growth and development livability and equity concerns livability and metrics and creating livability Each chapter provides unique insights into how a specific area has responded to calls for livable cities In doing so the book adds to the existing literature in the field of livable cities and provides policy makers and other organizations with information and alternative strategies that have been developed and implemented in an effort to become a livable city
