Dreams of Love and Fateful Encounters Ethel S. Person, 2007-04-02 This groundbreaking study has been widely hailed for its focus on a human emotion generally considered impervious to rational analysis romantic passionate love Ethel Person views romantic love as a powerful agent of change arguing that it is as central to human culture as it is to human existence This new edition of Dreams of Love and Fateful Encounters emphasizes the relevance of passion not only to lovers but also to mental health professionals whose patients often enter treatment because of love related issues from the inability to love or make a commitment to the perils of extramarital love to love sickness or loss of love She forthrightly addresses not only the power of love to unlock the soul but also its inherent paradoxes and conflicts Employing a philosophical perspective in order to understand the existential dilemmas posed by love and a cultural perspective in order to understand its cultural variability Dr Person breaks with contemporary intellectual and philosophical dismissive assumptions about romantic love She acknowledges love's vital importance and power proposing that passion serves an important function not only for the individual but also for the culture while charging psychoanalysis with a reductionist emphasis on sexuality and psychopathology that has narrowed the focus of inquiry into love Among the issues she discusses are romantic

European literature and theory of the twentieth century have been intensely preoccupied with questions of Desire whereas love has increasingly represented a fractured and strange if not actually suspect proposal this is a prime symptom of an age of deep cultural mutation and uncertainty Paul Gifford's book allows this considerable contemporary phenomenon to be observed steadily and whole with strategic understanding of its origins nature and meaning Gifford paints a clear and coherent picture of the evolution of erotic ideas and their imaginary and formal expressions in modern French writing He first retraces the formative matrix of French tradition by engaging with five classic sources Plato's Symposium the Song of Songs the myth of Genesis the tension between Greek Eros and Christian Agape and the repercussions of Nietzsche's declaration of the death of God Modern variations on these perennial problematics are then pursued in ten chapters devoted to Proust Valéry Claudel Breton Bataille Duras Barthes Irigaray Emmanuel Kristeva Literary and theoretical perspectives are perfectly blended in his study of these attempts at deciphering Eros The book will appeal not only to students of French literature but to all those interested in the cultural upheavals of the twentieth century **The Classical Roman Reader**
