significant role in the medieval monastic environment and along with many other things had a profound impact on Western intellectual culture The history of mysticism in the West is a history of the greatest and most significant aspirations and potentialities of the individual regarding the understanding of oneself and the divine Cistercian Mysticism is an outstanding example The anthology's chapters explore key aspects of Cistercian spirituality including William of Saint Thierry's visio Dei the vision of God a transformative encounter with the divine that is central to his mysticism as well as the concept of sensus amoris Cistercian Mysticism also explores Bernard of Clairvaux's writings on the Song of Songs and the relation between contemplation and action demonstrating how action service and contemplative love can coexist Tradition is further enhanced by Aelred of Rievaulx's thoughts on spiritual friendship which highlight how human relationships based on love and introspection mirror the soul's path toward divine union By examining the writings of these influential figures this volume offers a way to comprehend the close connection between the divine and the human soul highlighting the importance of their contributions to the mystical and theological landscape of the Middle Ages A book which will undoubtedly be highly enjoyed by scholars and students of all ages and religious communities Listening: God's Word for Today M. Jones, 2002-06-03 A Grammar of Christian Faith is a two volume set that aims to confront the widespread disarray in the language and practices of Christian faith today As a grammar it explains how Christian faith provides special ways of speaking and acting that make sense of human life by giving it meaning practicality and hope It advances the thesis that learning how to speak Christian language in worship and life is crucial to learning how to be a Christian Rather than supposing that Christian language and theology need continual updating in order to be relevant to the world Jones urges the church to recover anew how Christian concepts and understanding are intended to form Christian life in all its rich depths Construing theology as confessional theology in the context of the church Jones understands the church as that liberative and redemptive community called into being by the Gospel of Jesus Christ to witness in word and deed the triune God for the benefit of the world The full range of doctrinal themes that are deemed essential to the witness of the church are explored including clear explanations of why they are essential and how they are to be understood In pursuit of a truthful and beneficial witness of the church the work centers on a trinitarian understanding of God in which God freely and lovingly interacts with the world as Creator Reconciler and Redeemer The work throughout affirms the belief that the gracious triune God is the Ultimate Companion who will redeem all creation *The Sound of Life's Unspeakable Beauty* Martin Schleske, 2020-04-14 Christianity Today Book Award in
