Loving Tenderness:

Death and Love Julie Reshe, Todd McGowan, 2025-05-22 Death and Love brings together notable psychoanalytic and philosophical theorists to explore the connection between death and love The book examines how these phenomena shape human existence and relationships challenging the conventional dichotomy between life affirming and death driven dimensions The volume features contributions from international scholars who illustrate these ideas through various lenses including literature film and theology The chapters consider the role of the death drive in shaping social bonds the transformative power of love beyond individual existence and the notion that both philosophically and psychoanalytically love aligns with the realm of death Death and Love will be essential reading for academics and students of philosophy psychoanalysis existentialism theology and psychology It will also be of interest to psychoanalysts in practice and in training and to all readers wishing to explore this thought provoking topic [The Origins Of Love And Hate](#) Ian D Suttie, 2014-06-23 First published in 1999 The author presents a passionate argument for a therapeutic practice based on the physician's love for the deeply deprived patient Ian Suttie a psychiatrist of the Tavistock clinic in the 1930s advocates a more optimistic view of human nature than traditional Freudian psychology Hadfield describes the importance of this title by stating that where the reader does not agree with the author they will nevertheless have their own thoughts stimulated and their own views clarified *How God Sees The World* Bertin Nana, 2014-05-22 How God sees the world is a message of peace on Earth an invitation to Christians and the world to become peaceful and meek like angels an invitation to mankind to become compassionate and stand together to combat pollution and the global warming of the Earth How God sees the world is the Bible Western philosophy Mathematics Literature Science and Life The book is unique and revolutionary in the history of humanity because the author uses mathematical reasoning to prove the truths in religion philosophy and life The author is an advocate of the renaissance civilization and zero growth as was recommended by the Club of Rome in the book entitled The Limits to growth The author explains the mysteries of Satan and original sin by using Personalism Phenomenology Existentialism and Mathematics Mathematics is logic and the art of reasoning The author demonstrates mathematically and biblically that a Christian is a saint a communist or a neutral being That is to say humanity must become communist or brotherly to hope to solve the problems of pollution unemployment violence poverty health crime wars etc This means humanity must become communist or brotherly if it wants to survive *Love, Sex, and Marriage* Julie Coleman, 2022-06-13 If the language we use influences and reflects the way that we see the world then the fields of LOVE SEX and MARRIAGE will show how speakers of English view their closest social and emotional relationships Love Sex and Marriage provides a classification of English terms for these three fields from the earliest written records of the language until the present day This volume makes it possible to trace changing attitudes towards social and sexual ties and to understand those ties as earlier speakers of English did through the language they used The terms are arranged by meaning and are listed

chronologically within semantic fields with their dates of usage Notes on individual terms provide further information about their connotations and development Language does not exist in isolation from the people who speak it so background information about changes in social conditions religious beliefs and medical advancements is also included A brief introduction to basic semantic terminology explains the principles behind the classification and an alphabetical index facilitates the location of individual terms

The Curious History of Love Jean-Claude Kaufmann,2011-12-12 The one emotion that matters most to many people is the one about which social thinkers rarely speak

love For many people love is the thing that matters most in their lives they are searching for love hoping to find in love a kind of happiness that they cannot find in their work or by surrounding themselves with material goods But where does this peculiar and powerful blending together of love and happiness come from and why do we find it such a compelling idea today In this short book Jean Claude Kaufmann offers a fresh account of the history of a feeling unlike any other The modern idea of love as passion was born in the 12th century but it was marginalized by the rise of a kind of instrumental calculating reason that became increasingly central to modern societies As calculating reason began to encroach on the personal domain many individuals sought to escape from it searching for happiness elsewhere As our societies become dominated by calculating reason and selfish individualism we search elsewhere for the kind of happy love that will heal all our wounds This is why we experience so many changes of heart in our personal lives at times we are coldly calculating and then a few moments later we sacrifice ourselves to love without a second thought Written by one of France's leading sociologists this highly readable book sheds new light on love and happiness and will resonate with many readers

the back of the head Traveling down the pillar of the spine through the root chakra the Circuit passes through the Seven Gates of the Womb Grail to link the sacred sexual center and the heart center From the heart the energy completes the Circuit by traveling to the third eye and back to the Alta Major starting point to reveal the All seeing eye Centered on the womb in women and the hara in men the Shakti Circuit links the soul body mind emotions and chakras to the power and loving wisdom of the Galactic Center The Power of Shakti includes the insights and experiences of both men and women as they activate the power of Shakti and shows that clearing all 18 pathways of the Shakti Circuit enables us to activate our sacred sexual self and find our soul mission

The Seduction of Pessimism in the Novel Tom Ribitzky, 2024-10-18 The Seduction of Pessimism in the Novel Eros Failure and the Quarrel with Philosophy explores the novel as a response to the Platonic myth that narrates the rift at the core of our being Eros is supposedly the consolation for this rift but the history of the novel documents its expression as one of frustrated desires neuroses anxieties and cosmic doom As if repeating the trauma from that original split in Plato a split that also divides philosophy from literature the novel treats eros as a site of loss and grief from the medieval romances to Goethe Bront Proust Mann Woolf Lawrence and Nabokov The pessimism that emerges from this eros tells us something fundamental about who we are something that only the novel can say At a time when both education and leisure are increasingly ignoring the novel s imperative to sit with ambiguity complexity and contingency and as we are hurtling toward a bleak future of climate catastrophe and political instability the novel is one of the last bastions of humanity even as it is quickly being eroded

Sexuality, Gender & Education Joseph Tham, L.C., 2018-03-15 The debates on gender and sexuality are widespread today Many claim that a cultural war is being waged between conservatives who uphold the time honored values of family and sexuality and liberals who promote an agenda to redefine these traditional roles Since the public is often uninformed about the science and philosophical currents undergirding the questions of gender and sexuality the Pontifical Athenaeum Regina Apostolorum organized an academic symposium in Rome to shed light on the debate This book gathers the insights of that symposium which integrated the disciplines of medicine neuroscience psychology psychiatry history philosophy moral theology biblical studies law bioethics and pedagogy This work is aimed at Catholics and all those who seek a more profound understanding of one of today s most important topics In the personalist approach of bioethics the natural law tradition distinguishes the person from his or her acts In the case of same sex attractions the Church teaches clearly that the inclination is not in itself sinful and that persons with such attractions are deserving of respect and compassion in accord with their full human dignity Nonetheless same sex acts are not natural or ordered The Church strives to build bridges with the LGBT community by fostering a relationship of compassion sensitivity and mutual respect However real bridges also require honesty and openness to the truths that pertain to human sexuality procreation the family and the education of future generation
