Creating a good green home isn't just about conservation; about using less or saving more, although that's certainly part of it. It's about creating better homes that are easier on the environment, less expensive over the long term and more delightful to come home to. That's the message Jennifer Roberts wants to share in *Good Green Homes*, the ultimate new guide for people who want to live in comfortable, healthy, environmentally conscious homes. With some simple steps outlined in this book, you can save money and do your part to help save the environment. For
