Indigenous Language Acquisition, Maintenance, and Loss and Current Language Policies Okamura, Toru,Kai, Masumi,2020-08-28 The world s linguistic map has changed in recent years due to the vast disappearance of indigenous languages Many factors affect the alteration of languages in various areas of the world including governmental policies

Nedjalkov, 2007-11-06 This monograph constitutes the first comprehensive investigation of reciprocal constructions and related phenomena in the world's languages Reciprocal constructions of the type The two boys hit each other The poets admire each other's poems have often been the subject of language particular studies but it is only in this work that a truly global comparative picture emerges Nine stage setting chapters dealing with general and theoretical matters are followed by 40 chapters containing in depth descriptions of reciprocals in individual languages by renowned specialists The introductory papers provide a conceptual and terminological framework that allows

the authors of the individual chapters to characterize their languages in comparable terms making it easy for the reader to see points of commonality between languages and constructions that have never been compared before This set of volumes is an indispensable starting point and will be a lasting reference work for any future studies of reciprocals
