Macquarie Combined Dictionary And Thesaurus:

More Than Words: The Making of the Macquarie Dictionary Pat Manser, 2021-02-23 The Editorial Committee of the dictionary of Australian English led by Arthur Delbridge were adamant that their dictionary was to be descriptive It was an important point of difference from traditional dictionary policy This dictionary would give an account of Australian English as it was heard and written We wanted it all spoken written technical polite rude The speech of labourers the jargon of merchants swearwords Australianisms as well as the basic core of English vocabulary The idea for a dictionary of Australian English was conceived in the 1960s but it wasn't until 1981 that the first edition of the Macquarie Dictionary was published More Than Words tells the story of how the dictionary was brought to life during this period from identifying the need for a genuinely Australian dictionary to the long road towards publication and explores how the dictionary has evolved over the years since then

The Unmasking of English Dictionaries R. M. W. Dixon, 2018-01-25 When we look up a word in a dictionary we want to know not just its meaning but also its function and the circumstances under which it should be used in preference to words of similar meaning Standard dictionaries do not address such matters treating each word in isolation R M W Dixon puts forward a new approach to lexicography that involves grouping words into semantic sets to describe what can and cannot be said and providing explanations for this He provides a critical survey of the evolution of English lexicography from the earliest times showing how Samuel Johnson's classic treatment has been amended in only minor ways Written in an easy and accessible style the book focuses on the rampant plagiarism between lexicographers on ways of comparing meanings of words and on the need to link lexicon with grammar Dixon tells an engrossing story that puts forward a vision for the future

profound national and linguistic importance Managerial Fraud Dr Terry A Sheridan,2014-10-28 Most frauds perpetrated by senior managers take longer to uncover than those by other occupational groups and they steal more This is a serious problem world wide Currently the Red Flag approach is used by auditors to prevent and uncover fraud and in some countries it is statutory However the existing approach does not catch managerial fraudsters quickly or very often In Managerial Fraud Dr Terry Sheridan reports the findings of her study of fraudulent executives Her work illuminates the particular methods fraudsters employ to appear more authentic than the average person and reveals two types of executive fraudster with very different behaviours All this helps to explain why the current Red Flag approach fails to identify potential fraudsters and instead tends to focus on Red Flag executives who are negative characters but non fraudulent and accounts for the problem auditors face who see Red Flag indicators and are obliged to conduct further audits yet find nothing of substance During the author s research the innocent colleagues who worked closely with fraudulent managers have for the first time been interviewed about their experiences and had their impressions analysed leading to the development of an innovative typology of fraudulent executives based on Impression Management Theory Better understanding of what Dr Sheridan has uncovered might result in organisations being able to reduce their exposure to fraud perpetrated by their own senior management
