Macroeconomic Issues Facing Asean Countries:

Macroeconomic Issues Facing ASEAN Countries Mr. John Hicklin, Mr. David Robinson, Mr. Anoop Singh, 1997-07-18
This volume edited by John Hicklin David Robinson and Anoop Singh contains papers prepared for an ASEAN conference held in Jakarta in November 1996. The conference aimed to review the macroeconomic record of the member countries of ASEAN, examine the factors that have contributed to the region's economic success and identify the policy agenda for sustaining this success into the 21st century. **Macroeconomic and Monetary Policy Issues in Indonesia** Akhand Akhtar Hossain, 2013-08-15
Following the acquisition of its sovereignty from the Netherlands in 1949, Indonesia experienced serious economic and political problems during the 1950s and 1960s before entering a three-decade long period of rapid economic growth. Hard hit by the financial crisis of the late 1990s, Indonesia undertook a wide range of economic and financial reforms. These reforms served to prepare it well for the 2007-08 global financial crisis through which Indonesia passed relatively unscathed. Drawing on empirical research, this book presents a comprehensive empirical study on the key macroeconomic relations and monetary policy issues in Indonesia. The book analyses monetary, fiscal and exchange rate policies looking at their interactions and impacts on the economy. It demonstrates how important macroeconomic management for monetary and financial stability is to sustained national economic growth and development. Data from the 1970s is compared and contrasted with 1950s data to analyse macroeconomic policies and issues in an historical context. Statistical and econometric techniques are juxtaposed with general empirical results to supplement informative discussion of macroeconomic and monetary developments. This book is a useful contribution to studies on macroeconomics and international development as well as Southeast Asian studies. **Real and Financial Economic Dynamics in Russia and Eastern Europe** Timothy Lane, Nina Oding, Paul J.J. Welfens, 2012-12-06
Russia and many other transition countries are now facing the challenges of opening up, restructuring and modernizing their economies, which requires addressing numerous institutional weaknesses and supply-side distortions. From a regional perspective, drawing on the experience of other reforming countries, the papers examine these issues. Aspects addressed include the implications of trade and capital flows, the process of labor market reform, financial market development, productivity growth and innovation dynamics. The dynamics of the reform process are also studied in the context of new political economy models. **IMF Macroeconomic Research on Low-Income Countries** International Monetary Fund, 2004-01-30
Summarizes the forward-looking analytical work program on macroeconomic issues related to the Poverty Reduction Strategy Paper approach. The program is evolving through a process that began with a technical workshop. Participants from low-income countries, donors, academia and civil society drafted guidance on selected issues and identified priority research topics. Partners, policymakers and economic scholars are encouraged to share their perspectives and findings through respective team leaders whose e-mail addresses are provided. The publication also summarizes IMF analytical work and contains a bibliography of nearly 1,000 papers. **Studies in East**

Welfens, Evgeny Gavrilenkov, 2012-12-06 Russia has embarked upon a difficult process of systemic transformation and economic opening up While the initial strong GDP decline seemed to have ended in 1997 the real development was facing even more difficult problems as output declined sharply after the Ruble and banking crisis of August 1998 inflation started to increase again exports and imports were falling capital flight

increasing and unemployment rising There is broad disappointment in Russia regarding the transformation failure in 1998 since so many people had hoped that the end of the Soviet command economy would bring democracy prosperity and international integration While Poland has been able to double per capita income in the 1990s it has fallen by 50% in Russia and this despite considerable IMF involvement and some modest support from other international organizations What were the reasons for transformation failure in the 1990s What are the ingredients for long term sustainable transformation What are the internal and international requirements to avoid a second possibly tragic failure of transformation in Russia An international group of researchers has focussed on these problems during a two year research project financed by the Alfred Krupp von Bohlen und Halbach Foundation A series of papers were presented at workshops in Potsdam Bonn and Moscow in 1999 where this book is devoted to four important issues the Russian transformation crisis the topic of restructuring the need for stabilizing Russia and the requirements for modernizing Russia

Bank Indonesia and the Crisis Soedradjad Djiwandono,2005 This important book is set to be a key document for those interested in Indonesia s recent economic and political history There have been many unanswered questions about exactly how the regional currency crisis snowballed into a full scale banking crisis in Indonesia coupled with a total loss of credibility within a short time This record by the official in the midst of the banking crisis the ex governor of Bank Indonesia gives a fuller and intriguing picture of the events including the actions of President Soeharto as well as a balanced account of the much criticised interventions by the International Monetary Fund The author also analyses the lessons for monetary policy to avoid future such crisis This is essential reading for economists and Indonesia watchers

Deregulation and Development in Indonesia Farrukh

Iqbal,William E. James,2002-02-28 Of the developing nations of East Asia Indonesia came relatively late to liberalizing its trade and investment regime Only in the mid 1980s when it was clear that oil revenues alone would not suffice and that a new engine of growth was needed did the country s government swing behind a systematic deregulation effort Tariffs were cut non tariff barriers were lowered foreign investment restrictions were reduced export promotion incentives were enhanced and various financial sector regulations were eased All this combined to spark a labor intensive export led economic boom that was accompanied by an expansion in wages and employment and a boost in productivity This book documents how Indonesia truly became part of the East Asian miracle story starting in the mid 1980s Destined to become a leading case study of export led development in Indonesia this book grew out of a World Bank Indonesian Economic Society Symposium held in Jakarta There was however a parallel story as well of crony capitalism and weak governance that led to the financial and political crisis of 1997 98 These aspects were reflected in continued protection of certain sectors where the cronies were active in restrictions on domestic trade and competition that were left in place for their benefit and in financial manipulations that were conducted to their advantage These aspects are noted as well in the book and pulled together in the

concluding chapter which takes the story up through the crisis years to the present **The Economy of Dubai** Abdulrazak Al Faris, Raimundo Soto, 2016-01-28 Over the last 50 years Dubai has transformed itself from a small fishing and trading village into an integrated modern and vibrant economy The development process was initiated by oil richness but unlike most other oil exporters it has successfully diversified away from hydrocarbons with the creation of world class clusters of financial services tourism and trading activities Understandably Dubai has become a model of economic development not only for the other six emirates that comprise the UAE but also for most regional economies Indeed its success in diversifying its economic base makes Dubai an interesting case study for any resource dependent economy wishing to achieve sustainable prosperity by engaging in better balanced growth paths than those typically induced by the exploitation of natural resources This book provides a comprehensive economic and historical account of the evolution of the economy of Dubai since the foundation of the United Arab Emirates in 1971 It focuses on its transformations and experiences and the roles played by government policies and private sector initiatives Based on solid analysis it provides a perspective and policy recommendations on the way forward in an intensely increasing competitive global economy
