Macromolecular Symposia Polymersolvent Complexes And Intercalates Iv:

Macromolecular Symposia, No. 203 Jiří Spěvák, Jaroslav Kahovec, 2004-03-26 This volume contains papers based on the main lectures oral communications and selected posters presented at the 4th International Conference of Polymer Solvent Complexes and Intercalates held as the 63rd meeting of Prague Meetings on Macromolecules in Prague in July 2002 Many aspects of the polymer solvent interactions structure and dynamics in solution gels solids and interfaces are discussed in detail herein The wide scope of the presented results is evidence of the growing impact of this field on various research areas

Polymer-Solvent Complexes and Intercalates Jean Michel Guenet, 2001-08-15 This volume contains the proceedings of the 3rd International Conference on Polymer Solvent Complexes and Intercalates held in Besancon France in August 2000 As the reader will discover results from various topics involving polymers polyelectrolytes polymer like systems self assembling molecules biological molecules surfaces etc were presented and discussed They highlight the growing impact of this field on various scientific domains and also the building of a scientific community concerned by the same questions

Polymer-Solvent Complexes and Intercalates II Gaetano Guerra, Vittoria Vittoria, 1999-10-15 This book contains selected contributions of the symposium Second International Conference on Polymer Solvent Complexes and Intercalates held in Ischia in August 1998 In detail many aspects of the polymer solvent interactions and dynamics in solids surfaces gels and solutions are discussed Polymer chemists and physicists will find this volume invaluable in updating their information and increasing their understanding in this important area

Solid-State Nmr of Polymers P. Mirau, 2001 NMR spectroscopy has emerged as one of the most important methods for the solid state characterisation of polymers This report gives an overview of the methods and applications of NMR to relevant polymer problems with an emphasis on how NMR can be used for materials characterisation and to understand structure property relationships in polymers An additional indexed section containing several hundred abstracts from the Rapra Polymer Library database gives useful references for further reading

Polymer-solvent Complexes and Intercalates V Yves Grohens, 2005 A look at all aspects of polymer and biopolymer solvent interactions structure and dynamics in solutions gels solids and interfaces

Nuclear Magnetic Resonance G. A. Webb, 2007 As a spectroscopic method Nuclear Magnetic Resonance NMR has seen spectacular growth over the past two decades both as a technique and in its applications Today the applications of NMR span a wide range of scientific disciplines from physics to biology to medicine Each volume of Nuclear Magnetic Resonance comprises a combination of annual and biennial reports which together provide comprehensive coverage of the literature on this topic For those wanting to become rapidly acquainted with specific areas of NMR this title provides unrivalled scope of coverage Seasoned practitioners of NMR will find this an invaluable source of current methods and applications Each volume of Nuclear Magnetic Resonance comprises a combination of annual and biennial reports which together provide comprehensive of the literature on this topic This Specialist Periodical Report reflects the growing volume of published work involving NMR techniques and applications

in particular NMR of natural macromolecules which is covered in two reports NMR of Proteins and Acids and NMR of Carbohydrates Lipids and Membranes For those wanting to become rapidly acquainted with specific areas of NMR this title provides unrivalled scope of coverage Seasoned practitioners of NMR will find this an invaluable source of current methods and applications Specialist Periodical Reports provide systematic and detailed review coverage in major areas of chemical research Compiled by teams of leading authorities in the relevant subject areas the series creates a unique service for the active research chemist with regular in depth accounts of progress in particular fields of chemistry Subject coverage within different volumes of a given title is similar and publication is on an annual or biennial basis

Characterization of Polymeric Biomaterials Maria Cristina Tanzi, Silvia Farè, 2017-06-20 Characterization of Polymeric Biomaterials presents a comprehensive introduction on the topic before discussing the morphology and surface characterization of biomedical polymers The structural mechanical and biological characterization is described in detail followed by invaluable case studies of polymer biomaterial implants With comprehensive coverage of both theoretical and experimental information this title will provide scientists with an essential guide on the topic of these materials which are regularly used for clinical applications such as implants and drug delivery devices However a range of novel polymers and the development and modification of existing medical polymers means that there is an ongoing need to satisfy particular design requirements This book explains the critical and fundamentals methods to characterize polymer materials for biomedical applications Presents a self contained reference on the characterization of polymeric biomaterials Provides comprehensive information on how to characterize biomedical polymers in order to improve design and synthesis Includes useful case studies that demonstrate the characterization of biomaterial implants *American Book Publishing Record* ,2003
