Mad Mary Lamb Lunacy And Murder In Literary London:

Mad Mary Lamb Susan Tyler Hitchcock, 2005 After killing her mother with a carving knife Mary Lamb spent the rest of her life in and out of madhouses yet the crime and its aftermath opened up a new life Freed to read extensively she discovered her talent for writing and with her brother the essayist Charles Lamb collaborated on the famous Tales from Shakespeare This narrative of a nearly forgotten woman is a tapestry of insights into creativity and madness the changing lives of women and the redemptive power of the written word *A Horror and a Beauty: The World of Peter Ackroyd's London Novels* Petr Chalupský, 2016-02-01 Peter Ackroyd is one of the foremost contemporary British London writers He focuses on the capital its history development and identity both in his fiction and non fiction The London of his novels is thus a highly idiosyncratic construct which reflects and derives from its author's ideas about the actual city's nature as well as his concept of the English literary sensibility in general as he outlines them in his lectures and historical and literary studies It is an exceptionally heterogeneous city of enormous diversity and richness of human experience moods and emotion of actions and events and also of the tools through which these are re-presented and reenacted According to Ackroyd this heterogeneity mostly originates outside the sites and domains of the established or mainstream cultural production and social norms and conventions particularly in occult practices subversive acts and the plotting of radical individuals or groups criminal and fraudulent activities of various kinds dubious scientific experiments and the popular dramatic forms of ritual and entertainment whose permanent encounters with and contesting of the officially approved and prescribed forms instigate the city's vitalising energy for dynamic change and spiritual renewal This book presents the world of Ackroyd's London novels as a distinct chronotope determined by specific spatial and temporal properties and their mutual interconnectedness Although such a concept of urban space in its essence defies categorisation the book is thematically organised around six defining aspects of the city as Ackroyd identifies them the relationship between its past and present its uncanny manifestations its felonious tendencies its inhabitants psychogeographic and antiquarian strategies its theatricality and its inherently literary character *Private Madhouses in England, 1640-1815* Leonard Smith, 2020-06-18 This book examines the origins and early development of private mental health care in England showing that the current spectacle of commercially based participation in key elements of service provision is no new phenomenon In 1815 about seventy per cent of people institutionalised because of insanity were being kept in private madhouses The opening four chapters detail the emergence of these madhouses and demonstrate their increasing presence in London and across the country during the long eighteenth century Subsequent chapters deal with specific aspects in greater depth the insane patients themselves their characteristics and the circumstances surrounding admissions the madhouse proprietors their business activities personal attributes and professional qualifications or lack of them changing treatment practices and the principles that informed them Finally the book explores conditions within the madhouses which ranged from the relatively enlightened to the seriously defective and
